Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Description (Proposed actions, location, and/or consequences).

The Ontario Plan 2050 (TOP 2050) is an update to TOP to guide the City's development and conservation for the next 30 years through 2050. The proposed project is a focused effort, with particular emphasis on conducting technical refinements to the Policy Plan to comply with state housing mandates; conform with new state laws related to community health, environmental justice, climate adaption, resiliency, and mobility; bring long-term growth and fiscal projections into alignment with current economic conditions; and advance the Tracking and Feedback system and Implementation Plan. Consistent with § 15168 and § 15163 of the CEQA Guidelines, the City will prepare a Supplemental EIR to address program-level environmental impacts associated with amendments to the City's previous TOP, which was adopted pursuant to the EIR (SCH 2008101140) certified in January 2010 (Certified EIR).

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

All significant or potentially significant effects to environmental resources shall be addressed in the General Plan Update Supplemental Environmental Impact Report (SEIR). The analysis in the SEIR will address: Aesthetics, Agriculture and Forestry Resources, Air Quality, Biological Resources, Cultural Resources, Energy, Geology and Soils, Greenhouse Gas Emissions, Hazards and Hazardous Materials, Hydrology and Water Quality, Land Use Planning, Mineral Resources, Noise, Population and Housing, Public Services, Recreation, Transportation, Tribal Cultural Resources, Utilities and Service Systems, Wildfire.

gencies and the public.
