## **Summary Form for Electronic Document Submittal**

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #:	
Project Title: GPA-2021-0001: General Plan Housing Elemen	t Update for the 2021-29 Planning Period
Lead Agency: City of Simi Valley	
Contact Name: Monica Dionne, Associate Planner	
Email: mdionne@simivalley.org	Phone Number: 805-583-6342
Project Location: Simi Valley	Ventura
City	County

Project Description (Proposed actions, location, and/or consequences).

The project consists of a comprehensive update to the 2013-2021 Housing Element, which comprises Chapter 4 of the Simi Valley 2030 General Plan (adopted in 2012), and maintain internal consistency of the General Plan Elements (inclusive of Community Development, Safety, and Environmental Justice), Land Use Map amendments and Zone changes. To comply with State law, the City's Housing Element must be updated every eight years to ensure the City's policies and programs can accommodate estimated housing growth allocation identified by the state-determined Regional Housing Needs Assessment. The project is located at selected sites citywide. The list of these specific sites subject to Land Use and Zoning Maps amendment, the Sites Inventory List, can be found in the Draft Housing Element at www.simivalley.org/HEupdate, and in the Mitigated Negative Declaration.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Potentially Significant Impacts identified for this project included Biological Resources, Cultural Resources, and Tribal Cultural Resources. The following Mitigation Measures proposed for the potential impacts were found to reduce impacts to less than significant levels:

Mitigation Measure BIO-1: Pre-construction Biological Surveys; Mitigation Measure BIO-2: Nesting Bird Protection; Mitigation Measure BIO-3: Minimize Indirect Impacts to Vegetation Communities; Mitigation Measure BIO-4: Minimize Direct Impacts to Special-Status Plants; Mitigation Measure BIO-5: Minimize Indirect Impacts to Special-Status Plants; Mitigation Measure BIO-6: Minimize Direct Impacts to Special-Status Amphibian and Reptile Species; Mitigation Measure BIO-7: Burrowing Owl Avoidance; Mitigation Measure BIO-8: Coastal California Gnatcatcher Avoidance; Mitigation Measure BIO-9: Minimize Indirect Impacts to Special Status Wildlife Species; Mitigation Measure CUL-1: Worker Environmental Awareness Program; Mitigation Measure CUL-2: Archaeological Resource Construction Monitoring; Mitigation Measure CUL-3: Unanticipated Discovery of Human Remains and Associated Funerary Objects; Mitigation Measure TCR-1: Retain a Native American Monitor; Mitigation Measure TCR-2: Treatment of Unanticipated Discovery of Tribal Cultural Resources;
