Highway 101 between postmiles 14.60 and 16.20 on near the City of Santa Barbara.

Project Location—City: Santa Barbara Project Location—County: Santa Barbara

Description of Nature, Purpose and Beneficiaries of Project:

The purpose of this project is to reduce maintenance personnel exposure to roadway hazards and to improve the safety of personnel and the traveling public. The project is needed because the aging irrigation system and declining vegetation has led to the reduction of quality corridor plantings and increased maintenance activities and exposure. Issues with these lines have led to increased needs for maintenance along a heavily trafficked section of Highway 101. The project will improve problem portions of irrigation pressure supply lines, upgrade gate valves, remote control valves, controller wires, and replace dead or dying vegetation.
