March 2022

PlaceWorks has performed a Phase I Environmental Site Assessment (ESA) on behalf of Primestor Development, Inc. (Client) for Norwalk Entertainment District - Civic Center Specific Plan Project, located at the southeast corner of the intersection of Imperial Highway and Norwalk Boulevard, Norwalk, Los Angeles County, California (Figures 1 and 2). The Phase I ESA was performed in general conformance with the scope and limitations of the ASTM E 1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process. Exceptions to, or deletions from, this practice are described in Section 1 of this report. Our conclusions are intended to help the user evaluate the "environmental risk" associated with the project site, as defined in the ASTM E 1527-13 Standard, and discussed in the Introduction section of this report.

The project site is 13.2-acres in size consisting of Assessor's Parcel Numbers (APN) 8047-006-922, -924, and-925 which are owned by the City of Norwalk and a portion of one parcel with APN 8047-006-927, which is owned by the County of Los Angeles (County). The project site is currently developed with Norwalk City Hall, City Hall Lawn, a portion of the County accessory building, a surface parking lot, and parking structure. Norwalk City Hall has an underground storage tank (UST) for an emergency generator. The address for Norwalk City Hall is 12700 Norwalk Boulevard. Figure 3 is an aerial photograph showing the current project site conditions. The Los Angeles County Superior Court – Norwalk building borders the project site to the south. Regional access to the site is provided by the Interstate 5 Freeway, approximately 0.23-miles southwest of the project site. Local access is from Avenida Manuel Salinas to the east and Norwalk Boulevard to the west of the project site (Figures 2 and 3).

The proposed project consists of a mixed-use development with residential and commercial uses and landscaped spaces. New development would occur on the site of the existing City Hall Lawn and surface parking lot. The existing Norwalk City Hall building and the portion of the County accessory building would remain, with no changes proposed. The existing County parking structure located on the south side of the project site would remain and up to two additional levels could be added as needed to accommodate future parking demand within the civic center/entertainment district area. The proposed project would allow for the development of up to 350 multi-family residential units within the project site. The proposed project includes up to 110,000 square feet of commercial uses, consisting of a mix of retail, food, and beverage, health, and wellness facilities and/or grocery/market uses.

The objective of a Phase I ESA is to assess whether "recognized environmental conditions" (REC), historical RECs (HREC), and controlled RECs (CREC) are associated with the project site. Our conclusions are intended to help the user evaluate the "business environmental risk" associated with the project site. Our opinion regarding a REC's potential impact on the project site is based on the scope of our work, the information obtained during the course of our work, the conditions prevailing at the time our work was performed, the applicable regulatory requirements in effect at the time our work was performed, and our experience evaluating similar sites.

Based on the results of scope of service performed for this Phase I ESA, PlaceWorks makes the following conclusions and recommendations regarding the project site:

RECOGNIZED ENVIRONMENTAL CONDITIONS (RECs)

The ASTM E 1527-13 Standard defines an REC in part as "the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment."

No RECs were identified by PlaceWorks in this Phase I ESA for the project site. The presence of a diesel underground storage tank (UST) to fuel an emergency generator is not a REC because the UST is not associated with a release and is not likely to have a release due to the age, inspections, and oversight by appropriate regulatory agencies.

HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS (HRECs)

The ASTM E 1527-13 Standard defines an HREC as "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."

One HREC was identified for the project site. In 1999, an 8,000-gallon capacity diesel UST was removed from the project site under the oversight of Los Angeles County Department of Public Works (LACDPW). Twelve soil samples were collected and analyzed from beneath the tank area and stockpiled soil that was divided into suspected impacted soil stockpile and clean soil stockpile. Approximately twenty-nine tons of impacted soil were transported off site for biotreatment. Some stained soil was left in place that could not be excavated due to limited site access. LACDPW concurred that the site met closure criteria on August 16, 1999 and the Los Angeles Regional Water Quality Control Board concurred on August 15, 2000 and issued a closure letter.

CONTROLLED RECS ENVIRONMENTAL CONDITIONS

The Standard also requires the identification of controlled RECs (CRECs). The ASTM Standard defines CRECs as

"a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."

Page vi • PlaceWorks

March 2022

This assessment has revealed no evidence of CRECs in connection with the project site following the ASTM standard.

BUSINESS ENVIRONMENTAL RISK

A business environmental risk is defined by ASTM E 1527-13 as a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in this practice. Consideration of business environmental risk issues may involve addressing one or more non-scope considerations. Our review identified the following potential business environmental risks:

- Based on the age of the City Hall building it is possible that asbestos containing materials (ACM) and lead-based paint (LBP) are potentially present in the building materials at the project site.
- The project site historically was used for agriculture from at least 1928 to the early 1960s. Residual pesticides may be present in the soil from the historic agriculture usage. Because the agricultural usage was over 60 years ago if there are residual pesticides it is expected to be at low concentrations and would be considered de minimis.

SUMMARY

Based on the results of this Phase I ESA and the proposed redevelopment of the project site, PlaceWorks concludes that there are no RECs or CRECs at the project site. The HREC, the former UST, does not pose a threat to the project site and the closure of the former UST was resolved to the satisfaction of the regulatory agencies involved with the removal.

Page viii • PlaceWorks

March 2022

This Phase I Environmental Site Assessment (ESA) was performed in general conformance with the scope and limitations of the American Society for Testing and Materials (ASTM) E 1527-13 Standard on behalf of Primestor (Client) for Norwalk Entertainment District - Civic Center Specific Plan Project, located at the southeast corner of the intersection of Imperial Highway and Norwalk Boulevard, Norwalk, Los Angeles County, California (Figures 1 and 2). The Phase I ESA was performed in general conformance with the scope and limitations of the ASTM E 1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process and with the EPA "All Appropriate Inquiries" standard. Exceptions to, or deletions from, this practice are described in Section 1 of this report.

The primary purpose for performing a Phase I ESA is to "...permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations (commonly known as landowner liability protections) on Comprehensive Emergency Response Compensation and Liability Act (CERCLA) liability." An environmental site assessment meeting or exceeding this practice and completed less than 180 days prior to the date of acquisition is presumed to be valid under this standard. In order to maintain landowner liability protections, the user also has a "continuing obligation to not interfere with activity and use limitations associated with the property," must take "reasonable steps to prevent releases" and must "comply with legal release reporting obligations." (ASTM, 2013) Further, it is the goal of this study to identify business risks related to the property associated with environmental conditions.

Our conclusions are intended to help the user evaluate the "environmental risk" associated with the project site, as defined in the ASTM E 1527-13 Standard and the United States Environmental Protection Agency (EPA) All Appropriate Inquiry (AAI) standard.

1.1 OBJECTIVE

The objective of this assessment was to evaluate site history, existing observable conditions, current site use, and current and historic uses of surrounding properties to identify the potential presence of Recognized Environmental Conditions (RECs) in connection with the subject site. RECs are defined by ASTM as:

"the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. This definition does not include *de minimis* conditions defined as "a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies" (ASTM, 2013).

In addition, the Standard requires the identification of historical RECs (HRECs) and known or suspect environmental conditions in the Phase I ESA report. The standard defines historical RECs as:

"a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."

The Standard also requires the identification of controlled RECs (CRECs). The ASTM Standard defines CRECs as:

"a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."

Our conclusions are intended to help the user evaluate the "environmental risk" associated with the project site, defined by ASTM as "a risk which can have a material environmental or environmentally-driven financial impact on the business associated with the current or planned use of a parcel of commercial real estate. Consideration of environmental risk issues may involve addressing one or more non-scope considerations."

1.2 SITE IDENTIFICATION

The project site is approximately 13.2-acres in size and is located at the southeast corner of the intersection of Imperial Highway and Norwalk Boulevard in the City of Norwalk (Figures 1 and 2). The project site is currently developed with Norwalk City Hall, City Hall Lawn, a portion of the County accessory building, a surface parking lot, and parking structure. The site is landscaped with grass, trees, memorials, a water feature, and walking paths. The address for Norwalk City Hall is 12700 Norwalk Boulevard. Figure 3 is an aerial photograph showing the current site conditions. The project site is 13.2-acres in size consisting of Assessor's Parcel Numbers (APN) 8047-006-922, -924, and-925 which are owned by the City of Norwalk and a portion of one parcel with APN 8047-006-927, which is owned by the County as shown on Figure 4. The Los Angeles County Superior Court – Norwalk building borders the project site to the south.

1.3 DETAILED SCOPE OF SERVICES

PlaceWorks performed the following detailed scope of services to complete our Phase I ESA assessment:

- 1. Visual observations of site conditions, and of adjoining property use, to evaluate the nature and type of activities that have been or are being conducted at and adjacent to the project site, in terms of the potential for release or threat of release of hazardous substances or petroleum products;
- 2. Review of federal and state environmental database information within the ASTM- specified radii from the subject site using a database service to access records. Use of 7.5-minute topographic maps to evaluate the site's physical setting;
- 3. Review of federal and state environmental files, as necessary, pertaining to the subject site and nearby

Page 2 • PlaceWorks

March 2022

sites with the potential to impact the subject site;

- 4. Review of previous reports (if any) prepared for the subject site;
- 5. Review of historical aerial photographs and topographic maps;
- 6. Contacts with state and local agencies, as necessary, regarding the site and surrounding properties and structures;
- 7. Review of readily available geologic and hydrogeologic literature;
- 8. Interviews with the Key Site Manager and property tenant representatives (if any). Interpretation of information and data assembled as a result of the above work tasks, and formulation of conclusions regarding the potential presence and impact of RECs as defined by the ASTM E 1527-13 Standard;
- 9. Identifying RECs, HRECs, and CRECs; and
- 10. Identifying vapor migration environmental conditions (VEC).

1.4 NON-SCOPE CONDSIDERATIONS

The ASTM E 1527-13 Standard includes the following list of "additional issues" that are non-scope considerations outside of the scope of the ASTM Phase I ESA practice: Asbestos-Containing Materials, Biological Agents, Radon, Lead-Based Paint, Lead in Drinking Water, Wetlands, Regulatory Compliance, Cultural and Historic Risks, Industrial Hygiene, Health and Safety, Ecological Resources, Endangered Species, Indoor Air Quality unrelated to releases of hazardous substances or petroleum products in the environment and mold.

A limited assessment of the presence of polychlorinated biphenyls (PCBs) is included in the ASTM work scope. Accordingly, the assessment of the presence of PCBs is limited to those potential sources specified in the ASTM E 1527-13 Standard as "electrical or hydraulic equipment known or likely to contain PCBs" to the extent visually and or physically observed or identified from the interview or records review.

1.5 EXCEPTIONS AND DEVIATIONS

PlaceWorks has completed this assessment in substantial conformance with ASTM E 1527-13. There were no exceptions, addition, deviations, or deletions made to the ASTM work scope.

1.6 LIMITATIONS

Our work for this project was performed generally consistent with the ASTM E 1527-13 Standard for Phase I ESA. Several organizations other than ASTM, such as professional associations (e.g., ASFE and AGWSE) have also developed "guidelines" or "standards" for environmental site assessments. The Phase I ESA presented herein is consistent with the ASTM E 1527-13 Standard, which may vary from the specific "guidelines" or "standards" required by other organizations.

This Report was prepared pursuant to an Agreement between the Client and PlaceWorks. All uses of this Report are subject to, and deemed acceptance of, the conditions and restrictions contained in the Agreement.

The observations and conclusions described in this Report are based solely on the Scope of Services provided pursuant to the Agreement. PlaceWorks has not performed any additional observations, investigations, studies, or other testing not specified in the Agreement for the Phase I ESA. PlaceWorks shall not be liable for the existence of any condition the discovery of which would have required the performance of services not authorized under the Agreement for the Phase I ESA.

This Report is prepared for the exclusive use of the Client in connection with the project site. There are no intended beneficiaries other than the Client. PlaceWorks shall owe no duty whatsoever to any other person or entity on account of the Agreement or the Report. Use of this Report by any person or entity other than the Client for any purpose whatsoever is expressly forbidden unless such other person or entity obtains written authorization from the Client and from PlaceWorks. Use of this Report by such other person or entity without the written authorization of the Client and PlaceWorks shall be at such other person's or entity's sole risk and shall be without legal exposure or liability to PlaceWorks.

Use of this Report by any person or entity, including by the Client, for a purpose other than the project site, is expressly prohibited unless such person or entity obtains written authorization from PlaceWorks indicating that the Report is adequate for such other use. Use of this Report by any person or entity for such other purpose without written authorization by PlaceWorks shall be at such person's or entity's sole risk and shall be without legal exposure or liability to PlaceWorks.

This Report reflects site conditions observed and described by records available to PlaceWorks as of the date of report preparation. The passage of time may result in significant changes in site conditions, technology, or economic conditions, which could alter the findings and/or recommendations of the report. Accordingly, the Client and any other party to whom the report is provided recognize and agree that PlaceWorks shall bear no liability for deviations from observed conditions or available records after the time of report preparation. No investigation is thorough enough to absolutely rule out the presence of hazardous materials at a given site. If hazardous conditions have not been identified during the assessment, such a finding should not be construed as a guarantee of the absence of such materials on the project site, but rather as the result of the services performed within the scope, limitations, and cost of the work performed.

The findings, conclusions, and recommendations contained in this report are based on site conditions as they existed at the time of our investigation. Our review of documents, lists, databases, and public agency files have been conducted with due diligence. However, our conclusions are based on available information and are subject to constraints imposed by public agencies on review procedures and information retrieval. As a result, PlaceWorks may have been unable to identify potential concerns. PlaceWorks assumes no responsibility for conditions that did not come to our attention despite reasonable care, or for conditions that were not generally recognizable as environmentally unacceptable at the time of this Report. Opinions and judgments expressed are based on our understanding and interpretations of currently available regulatory standards and should not be construed as legal opinions or advice.

Use of this Report by any person or entity in violation of the restrictions expressed in this Report shall be deemed and accepted by the user as conclusive evidence that such use and the reliance placed on this Report,

Page 4 • PlaceWorks

March 2022

or any portions thereof, is unreasonable, and that the user accepts full and exclusive responsibility and liability for any losses, damages or other liability which may result.

This page intentionally left blank.

Page 6 • PlaceWorks

March 2022

This section describes the site location and ownership of the site as well as other pertinent details.

2.1.1 Name of Site Owner

The City of Norwalk currently own the project site. No deed was found during the search for environmental liens

2.1.2 Site Location Map

The United States Geological Survey (USGS) topographic map for the project site is the Whittier, California Quadrangle. The USGS topographic map was used as the source for project site setting information. The project site is in Los Angeles County at approximately 33.9162 north latitude and 118.0712 west longitude. The project site is in Sections 18 of Township 3 South, Range 11 West of the San Bernardino Base Line and Meridian. The address for Norwalk City Hall is 12700 Norwalk Boulevard. Figures 1 through 3 show the location of the project site.

2.2 SITE AND VICINITY DESCRIPTION

The project site consists of approximately 13.2 acres located at the southeast corner of the intersection of Imperial Highway and Norwalk Boulevard in Norwalk. The project site consists of three parcels with Assessor's Parcel Numbers (APN) 8047-006-922, -924, and-925 which are owned by the City of Norwalk and a portion of one parcel with APN 8047-006-927, which is owned by the County of Los Angeles (County). Figure 3 is an aerial photograph showing the current site conditions and the outlines of the parcels that make up the project site are shown on Figure 4. The project site is currently developed with Norwalk City Hall, City Hall Lawn, a portion of the County accessory building, a surface parking lot, and three level parking structure. The site is landscaped with grass, trees, memorials, a water feature, and walking paths. Norwalk City Hall is identified by the physical address of 12700 Norwalk Boulevard.

The project site is primarily surrounded by commercial, multiple-family residential, and institutional uses. Surrounding uses include commercial uses and accompanying surface parking lots across Imperial Highway to the north; the Norwalk Library, Norwalk Sheriff's Station, and accompanying surface parking lots across Avenida Manuel Salinas to the east; and commercial, multiple-family residential uses, and the Los Angeles County Department of Social Services building across Norwalk Boulevard to the west. The Los Angeles County Superior Courthouse – Norwalk is located southwest of the project site. Commercial uses (including the AMC Theatre), a hotel, and multi-family residential uses are located south from the project site across Civic Center Drive. Single-family and multiple-family residential neighborhoods are located to the northeast and southeast of the project site.

Specific Plan Area 1 (SPA 1)(known as the Norwalk Entertainment District) is located to the south of the project site. SPA 1 has a land use designation of Specific Plan and includes the AMC Theater, DoubleTree hotel, commercial uses, and multiple-family residential uses.

2.3 PHYSICAL SETTING

Subsurface explorations were not performed for this evaluation; therefore, site geology and hydrology were evaluated on the basis of readily available public information or references, and/or based upon our experience and understanding of subsurface conditions in the subject property area.

2.3.1 Topography

Topographically, the project site slopes slightly to the southwest. Based on a review of the USGS 7.5-minute Topographic Series, Whittier, California Quadrangle Map (USGS 2018), surface elevation of the project site is approximately 105-feet above mean sea level. The project site is approximately 6 miles east of the Los Angeles River. The project area is currently developed with Norwalk City Hall, City Hall Lawn, a portion of the County accessory building, a parking structure, and a surface parking lot.

2.3.2 Geologic Information

Based on a review of the United States Geological Survey (USGS) 7.5-minute Topographic Series, Whittier, California Quadrangle Map (USGS 2015), the property is in the Central Plain of the Los Angeles Basin within the northern part of the Peninsular Ranges Geomorphic Province. The Peninsular Ranges Geomorphic Province extends approximately nine hundred miles southward from the Los Angeles Basin to Baja California, Mexico and is characterized by elongated northwest-trending mountain ranges separated by sediment-floored valleys (Yerkes et al. 1965). The most dominant structural features of the province are the northwest-trending fault zones, most of which die out, merge with, or are terminated by the steep reverse faults at the southern margin of the San Gabriel Mountains within the Transverse Ranges Geomorphic Province north of the project site. The project site is located atop Holocene to late Pleistocene alluvial fan deposits (Saucedo et al. 2008).

The project site is not within or immediately adjacent to an Alquist-Priolo Earthquake Fault Zone (CGS 2022). Based on a review of the readily available geologic literature, there are no known active or potentially active faults on or immediately adjacent to the project site (Jennings and Bryant 2010; Saucedo et al. 2008).

The soil at the project site is mapped as Urban Land-Hueneme, drained-San Emigdio complex, 0 to 2 percent slopes, which is classified as somewhat poorly drained (USDA 2018).

2.3.3 Naturally Occurring Asbestos Containing Minerals and Radon Gas

Asbestos is a naturally occurring silicate mineral of the amphibole group that has historically been utilized for a variety of purposes including fireproofing, due to its fibrous nature, which allowed it to be woven into cloth and formed into various types of construction material. Asbestos is a known carcinogen.

Page 8 • PlaceWorks

Based on a review of A General Location Guide for Ultramafic Rocks in California – Areas More Likely to Contain Naturally Occurring Asbestos (Department of Conservation, Division of Mines and Geology 2000) and Van Gosen and Clinkenbeard (2011), the project site is not located within a ten-mile radius from an area thought to contain naturally occurring asbestos (NOA). Therefore, the potential for NOA to be present at the project site from weathering and deposition of ultramafic rocks outcrops is not considered to be an environmental concern for the project site.

The Indoor Radon Abatement Act of 1988 directs the United States Environmental Protection Agency to identify and lists areas of the United States with the potential for elevated indoor radon levels. Radon is a colorless, odorless, tasteless, and radioactive gas that is produced as a natural decay product of uranium. Because of its radioactivity, studies have shown that at elevated concentrations there is a link between radon and lung cancer. Persons living in a building with elevated radon concentrations may have an increased risk of contracting lung cancer over a period of years.

The U.S. EPA's Map of Radon Zones assigns one of three zones based on radon potential:

- Zone 1 counties have a predicted average indoor radon screening level greater than 4 pico curies per liter (pCi/L)
- Zone 2 counties with a predicted average indoor radon screening level between 2 and 4 pCi/L
- Zone 3 counties with a predicted average indoor radon screening level less than 2 pCi/L

The EDR GeoCheck report indicates that the site is within Zone 2 (Appendix B). The California Department of Health Services recommends action to be taken to reduce radon levels inside buildings if they are 4 pCi/L or greater.

2.3.4 Groundwater and Surface Water Information

Based on the California Department of Water Resources (2004) the project site is situated in the Groundwater Basin of Los Angeles County coastal plain aquifer system. Based on local groundwater investigations, groundwater is locally found at a depth of approximately 64 feet below ground surface. Based on the California Geological Survey seismic hazard report for the Whittier quadrangle, historical groundwater was as high as about 10 feet below ground surface in the vicinity of the project site. Hydrogeologic investigations were not performed on the project site for this investigation; therefore, it is unknown to what extent localized variations in groundwater presence and flow occur on the project site.

According to the Flood Insurance Rate Map (FIRM) the project site is in an area of minimal flood hazard (FEMA, 2008). Sheet flow runoff on the project site would be expected during periods of intense or prolonged precipitation that would flow towards the south.

The project site is serviced by the Golden State Water Company (GSWC). GSWC primarily relies on groundwater from the Central Groundwater Basin and imported water from the Colorado River Aqueduct and the State Water Project.

Page 10 • PlaceWorks

March 2022

3.1 PREVIOUS REPORTS

No previous environmental reports for the project site were provided by the Client or reviewed by PlaceWorks in preparation of the Phase I ESA.

3.2 PAST USAGE OF THE SITE

Past usage of the project site was assessed through review of historical aerial photographs, topographic maps, and databases. Copies of historical information reviewed are included in Appendix A. The earliest documentation reviewed for site usage was a historical topographic map dated 1896 and a historical aerial photograph dated 1928. Based on a review of historical information; the project site appears to have been utilized for row crop agriculture with associated agricultural buildings from at least 1928 to around 1963. Norwalk City Hall was constructed between 1964-1965.

3.2.1 Historical Aerial Photographs

Aerial photographs for the proposed sites obtained from EDR for the years 1928, 1938, 1947, 1953, 1963, 1972, 1977, 1983, 1989, 1994, 2002, 2005, 2009, 2012, and 2016 were reviewed for the project site. Copies of the aerial photographs are included in Appendix A.

- 1928 The project site appears to be utilized for row crop agriculture on the majority of the site with exception where there are buildings located in the northwestern portion. The buildings appear to be a rural residence with outbuildings. The surrounding area is like the project site and is characterized as rural agricultural.
- 1938 The structures in the northwestern portion of the project site are no longer present. The project site including the northwest corner is being utilized for row crop agriculture. The surrounding area is still predominately agriculture, but there is a residential development southwest of the project site.
- 1947 The project site and surrounding area appear relatively unchanged in comparison to the 1938 aerial photograph.
- 1953 The project site appears relatively unchanged in comparison to the 1947 aerial photograph. There is more residential development to the west, south, and east of the project site.

- 1963 The project site appears to no longer be used for row crop agriculture and is a vacant field. The surrounding area is predominately residential development with what appears to be commercial development to the south.
- 1972 The northern portion of the project site is an undeveloped field, and the southern portion is developed with the City Hall building and paved parking lot. The court building to the south is now apparent, along with the library to the east and the Sheriff's station to the southeast. The surrounding area is built out with residential and commercial development.
- 1977 The project site and surrounding area appear relatively unchanged in comparison to the 1972 aerial photograph.
- 1983 The project site and surrounding area appear relatively unchanged in comparison to the 1977 aerial photograph.
- 1989 The project site and surrounding area appear relatively unchanged in comparison to the 1983 aerial photograph.
- 1994 The project site and surrounding area appear relatively unchanged in comparison to the 1989 aerial photograph.
- 2002 The project site and surrounding area appear relatively unchanged in comparison to the 1994 aerial photograph.
- 2005 The project site and surrounding area appear relatively unchanged in comparison to the 2002 aerial photograph.
- 2009 The project site and surrounding area appear relatively unchanged in comparison to the 2005 aerial photograph.
- 2012 The project site and surrounding areas appear relatively unchanged in comparison to the 2009 aerial photograph.
- 2016 The project site and surrounding areas appear relatively unchanged in comparison to the 2012 aerial photograph.

3.2.2 Historical Topographic Maps

Historical Topographic Maps obtained from EDR for the years 1896, 1899, 1902, 1923, 1925, 1942, 1943, 1947, 1949, 1951, 1965, 1972, 1974, 1981, 2012, 2015, and 2018 were reviewed for the project site. Copies of the topographic maps are included in Appendix A.

Page 12 • PlaceWorks

March 2022

- 1896 The project site is undeveloped vacant land. There are structures sparsely marked in the surrounding area. Railroad tracks are marked northwest, east, and southwest of the project site. The Norwalk train station is depicted to the south of the project site.
- 1899 The project site and surrounding area appear relatively unchanged in comparison to the 1896 topographic map.
- 1902 The project site and surrounding area appear relatively unchanged in comparison to the 1899 topographic map.
- 1923 There is a single structure marked in the northwest corner of the project site. There is more development depicted south of the project site.
- 1925 The project site and surrounding area appear relatively unchanged in comparison to the 1923 topographic map.
- 1942 The project site appears vacant and there are no structures marked with the project site boundaries. There is more development in the surrounding area.
- 1943 The project site and surrounding area appears relatively unchanged in comparison to the 1942 topographic map.
- 1947 The project site and surrounding area appears relatively unchanged in comparison to the 1943 topographic map.
- 1949 The project site appears relatively unchanged in comparison to the 1947 topographic maps. Areas west of the project site are highlighted in omission tint reflecting dense built out in those areas.
- 1951 The project site and surrounding area appears relatively unchanged in comparison to the 1949 topographic map.
- 1965 The project site contains city hall and more of the surrounding area is highlighted in omission tint.
- 1972 The project site appears relatively unchanged in comparison to the 1965 topographic map. The court building, library and Sheriff's station are now depicted.
- 1981 The project site and surrounding area appears relatively unchanged in comparison to the 1972 topographic map.
- 2012 Only roads and contours are depicted on modern topographic maps.

- 2015 The project site and surrounding area appears relatively unchanged in comparison to the 2012 topographic map.
- 2018— The project site and surrounding area appears relatively unchanged in comparison to the 2015 topographic map.

3.2.3 Sanborn Maps

The complete Sanborn Map Library collection was searched by EDR for the project site. According to EDR, Sanborn maps were not available for the project site. A copy of the Certified Sanborn Search Document coverage statement is included in Appendix A.

3.2.4 City Directory

PlaceWorks reviewed the EDR-City Directory for the project site. EDR searched select national repositories of business directories. City, cross reference, and telephone directories were reviewed at five-year intervals for the years spanning 1971 through 2017. EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Brad Street and Haines Company Directory. A copy of the EDR-City Directory is in Appendix A.

Norwalk City Hall which is part of the project site at 12700 Norwalk Boulevard was identified from 1971 through 2017.

1971 - Norwalk City Hall and Civil Defense Office

1976 - Norwalk City Hall and Civil Defense Office

1982 - Norwalk City Offices, Civil Defense Office, and Biola Youth Services

1987 - Norwalk City Offices and Civil Defense Office

1992 – Civil Defense Office

2005 – Area of Emergency Planning Office, City of Norwalk Community Development, Contract Cities of California, Norwalk City Hall, and Norwalk City Building Safety.

2010 – City Clerk, Norwalk Aquatics Pavilion, Norwalk Building & Safety Department, Norwalk Citizen Information Center, Norwalk City Administration, Norwalk City Recycling Information, Norwalk Parks & Recreation, and Norwalk Public Safety Department.

2014 - City of Norwalk and All Calnet

2017 - City of Norwalk and All Calnet

Page 14 • PlaceWorks

March 2022

The surrounding addresses consist of various light commercial businesses¹, residential, and government buildings.

3.2.5 Building Permit Report

PlaceWorks reviewed the EDR-Building Permit Report of the project site. Building permit data is used to identify current and/or former operations and structures of potential environmental concern. Building permit data can be used to identify current and/or former operations and structures/features of environmental concern. The data can provide information on a target property and adjoining properties such as the presence of underground storage tanks, pump islands, sumps, drywells, etc., as well as information regarding water, sewer, natural gas, electrical connection dates, and current/former septic tanks. A copy of the EDR-Building Report is in Appendix A. Building Permit Report data was searched for the project site and surrounding properties for the years spanning from 1970 through 2021. Records were searched with Los Angeles County Building and Safety for 1970-2021 and with City of Norwalk Building and Safety Division for the years 2002-2021.

12700 Norwalk Boulevard (City Hall)

2002 – Permits include one for reroofing, one for mechanical new HVAC, and a miscellaneous permit for entertainment event.

2003 – One miscellaneous permit for carnival event.

2004 – Permits include two for commercial plumbing, one for commercial electrical work, and four miscellaneous permits for entertainment events.

2005 – Permits include one for commercial electrical work, one for commercial plumbing, one for mechanical residential, one for construction of a new restroom and concession building, two for commercial tenant improvements, and seven miscellaneous permits for entertainment events.

2006 – Permits include one for commercial tenant improvements, three for commercial electrical work, and four miscellaneous permits for entertainment events

2007 – Permits include one for a commercial addition of a shade structure, two for commercial structure installation of flagpoles, one for commercial electrical work, and three miscellaneous permits for entertainment events.

2008 – One miscellaneous permit for carnival event.

2009 – One miscellaneous permit for carnival event.

2010 – Permits include two for commercial electrical work, two for replacement of electrical sign, and one miscellaneous permit for entertainment event.

March 2022 PlaceWorks • Page 15

_

¹ Light commercial refers to smaller-scale businesses, which include offices, banks, restaurants, churches, small medical offices, and small shopping centers.

- 2011 Permits include one for mechanical commercial work, one for reroofing, one for commercial electrical work, one for commercial plumbing, and three miscellaneous permits for entertainment events.
- 2012 Permits include one for commercial plumbing, one for commercial tenant improvement, one for commercial sewer repair, and one miscellaneous permit for entertainment event.
- 2013 Permits include one for commercial electrical work, one for commercial tenant improvements, one for commercial sewer repair, and two miscellaneous permits for entertainment events.
- 2014 Permits include two for residential plumbing, one for reroofing, and two miscellaneous permits for entertainment events.
- 2015 Permits include one for residential electrical work, one for mechanical residential work, one for residential electrical, one for commercial electrical work, and two miscellaneous permits for entertainment events.
- 2016 Permits include three for commercial tenant improvement, one for new mechanical HVAC, one for new commercial structure, and one miscellaneous permit for entertainment event.
- 2017 Permits include one for grading, one for commercial electrical work, and three miscellaneous permits for entertainment events.
- 2018 Permits include one for new mechanical HVAC, one for mechanical residential work, three for commercial electrical work, one for residential plumbing, and two miscellaneous permits for entertainment events.
- 2019 Permits include one for light pole and standard electrical work, two for commercial electrical work, one for mechanical commercial work, and two miscellaneous permits for entertainment events.
- 2020 Permits include one for mechanical commercial work, one for commercial electrical work, one for commercial tenant improvements, and one miscellaneous permit for entertainment event.

No permits were identified for the project site of environmental concern. For an adjoining property, permits were identified for piping for fuel, carbon canisters, and other improvements for the Chevron gas station at 12155 Imperial Highway at the northwest corner of Imperial Highway and Norwalk Boulevard. For the courthouse, permits were on file for ADA improvements for public restrooms and an elevator modification. No permits were found related to a release or spill for the project site and adjacent properties.

3.2.6 Environmental Lien and AUL Report

PlaceWorks reviewed the EDR-Environmental Lien and activity use limitations (AUL) search report of available current land title records for environmental cleanup lies and other AULs such as engineering control and institutional controls. A copy of the EDR- Environmental Lien and AUL search is in Appendix A. The search did not find the deed within the scope of the search for the project site. Records were searched with

Page 16 • PlaceWorks

March 2022

the Los Angeles County Recorder's Office, California Environmental Protection Agency, and United States Environmental Protection Agency. The current owner in the lien search was identified as "Norwalk City."

3.2.7 Prior Agricultural Use

Based on the review of historical aerial photographs, topographic maps and the site visit, the majority of the project site appears to have been used for agricultural purposes from at least 1928 until about 1963.

3.2.8 Mines

Based on the review of historical aerial photographs and topographic maps, the project site appears to not have been used for mining operations.

3.2.9 Illegal Drug Manufacturing

The project site was not identified by the California Hazardous Material Incident Report System (CHMIRS) which is maintained by the California Office of Emergency Services. The CHMIRS contains information regarding hazardous material incidents such as accidental releases or spills. Clandestine Drug Laboratory Locations (CDL) database maintained by the U.S. Department of Justice was also reviewed for the presence of drug laboratories or dumpsites. Drug-related waste was not observed on the project site during the site inspection.

3.2.10 Prior U.S. Government Ownership

Based on the review of the EDR database, historical aerial photographs, and topographic maps reviewed, there are no indications that the project site was owned by the U.S. Government or devoted to military use or operations.

3.3 SURROUNDING PROPERTY LAND USES

Based on the review of the EDR, historical aerial photographs, and topographic maps, the properties surrounding the project site are predominately commercial to the north across Imperial Highway followed by residential. To the east across Avenida Manuel Salinas is the Norwalk Library and a parking lot associated with the Los Angeles County Sheriff's Department, Norwalk Station. To the south is the Los Angeles County Superior Court - Norwalk and AMC theater across Civic Center Drive. To the west across Norwalk Boulevard are commercial uses, including restaurants, Los Angeles County Department of Social Services building, and apartment buildings.

The regulatory agency database search prepared by EDR indicates the presence of 181 agency database listings for facilities located within an approximate one-mile radius of the project site. No listed sites were near the project site that were identified that could potentially impact the project site. These facilities do not appear to represent a potential threat to soil, soil vapor and or groundwater quality of the project site. Historically, the surrounding land was used for row crops with scattered residential development.

This page intentionally left blank.

Page 18 • PlaceWorks

March 2022

4.1 STANDARD ENVIRONMENTAL RECORDS REVIEW

PlaceWorks utilized the electronic database service EDR to complete the environmental records review. To determine if the project site has any documented environmental concerns, or if other sites with documented environmental concerns exist within the search radii of the project site prescribed by ASTM 1527-13 and All Appropriate Inquiry, PlaceWorks reviewed a summary of regulatory agency database listings prepared by EDR. In addition, where appropriate, we reviewed local regulatory agency files for additional specific information regarding sites identified in the EDR report judged to be of possible concern to the project site. The EDR report presenting a summary of the agency databases reviewed and a map showing the location of the identified sites is provided as Appendix B (EDR, 2022). The results of the database search and follow-up agency file review are summarized below.

The database search was used to identify properties that may be listed in the referenced Agency records, located within the American Society for Testing and Materials (ASTM)-specified search radii indicated below:

Database	Approximate Search Distance	Subject Site Listed?	Number of Sites within Search Area
Federal NPL Sites	1 mile	No	1
Federal Delisted NPL Sites	0.5 mile	No	0
CERCLIS Sites	0.5 mile	No	0
CERCLIS-NFRAP Sites	0.5 mile	No	1
Federal ERNS	Site only	No	0
RCRA non-CORRACTS TSD Facilities	0.5 mile	No	0
RCRA CORRACTS Facilities	1 mile	No	1
RCRA Generators	Site and Adjoining	No	7
Federal Institutional/Engineering Control Registry	0.5 mile	No	0
State and Tribal Equivalent NPL Sites	1 mile	No	3
State and Tribal Hazardous Waste Facilities	1 mile	No	13
State and Tribal Registered Storage Tanks	Site and Adjoining	Yes	5
State and Tribal Landfills and Solid Waste Disposal Sites	0.5 mile	No	1
State and Tribal Leaking Storage Tanks	0.5 mile	Yes	16
State and Tribal Institutional Controls/Engineering Control	Site only	No	0
State and Tribal Voluntary Cleanup Sites	0.5 mile	No	0
State and Tribal Brownfield Sites	0.5 mile	No	0
Orphan Site List	Site and Adjoining	No	5
HAZNET	Site only	Yes	0

A review of selected regulatory agency databases for documented environmental concerns on the project site, or in close proximity to the project site, was conducted by EDR. A copy of the radius report, dated December 22, 2021 is included in Appendix B. The project site is listed on Facility Index System (FINDS), Enforcement and Compliance History Online (ECHO), California Integrated Water Quality System Project (CIWQS), California Environmental Reporting System (CERS), and historical Cortese because the site has gone through assessment and cleanup due to the former leaking UST. The site is listed for having a permitted UST for the emergency generator. A listing was also identified for the DTSC waste tracking database's HAZNET and HWTS due to the lawful disposal of hazardous materials. The site is also listed as a RCRA NonGen due to previous waste collection events. The listings for the project site are included in the discussion below.

4.1.1 NPL Sites

The National Priorities List (NPL) is a list of contaminated sites that are considered the highest priority for clean-up by the EPA.

- The project site is not listed on the NPL list.
- The database search identified one NPL site within a mile radius of the project site.
 - Omega Chemical Corporation's southern edge of a groundwater plume is approximately 0.61-miles north of the project site, is listed because it was a refrigerant and solvent recycling, reformulation and treatment facility that operated from about 1976 to 1991. The source of the plume at 12504 and 12512 E Whittier Boulevard is almost 4 miles northeast of the project site. As a result of spills, leaks, and other chemical releases, the soil and groundwater were contaminated with VOCs such as PCE, TCE, and freon. The EPA has overseen several cleanup operations of the Omega Chemical Superfund Site and work to address contaminated groundwater is ongoing. The groundwater extraction and treatment system began operation in 2009 and, as of December 2018, has treated more than 42 million gallons of contaminated groundwater and removed approximately 969 pounds of contaminants from the groundwater. The system is currently removing about 10 pounds of contaminants per year. Based on the distance and regulatory status, this facility is not expected to have impacted the project site.

4.1.2 Federal Delisted NPL Sites

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425 (e), sites may be deleted from the NPL where no further response is appropriate.

- The project site is not listed on the delisted NPL list.
- The database did not identify any delisted NPL sites within a mile radius of the project site.

Page 20 • PlaceWorks

March 2022

4.1.3 CERCLIS Sites

The Comprehensive Environmental Response, Compensation, and Liability Act Information System (CERCLIS) list identifies sites which are suspected to have contamination and require additional investigation to assess if they should be considered for inclusion on the NPL.

- The project site is not listed on the CERCLIS list.
- The database search did not identify any CERCLIS listings within a half mile radius of the project site.

4.1.4 CERCLIS-NFRAP Sites

CERCLIS-NFRAP status indicates that a site was once on the CERCLIS List but has No Further Response Actions Planned (NFRAP). Sites on the CERCLIS-NFRAP List were removed from the CERCLIS List in February 1995 because, after an initial investigation was performed, no contamination was found, contamination was removed quickly, or the contamination was not significant enough to warrant NPL status.

- The project site is not listed on the CERCLIS-NFRAP List.
- The database search identified one CERCLIS-NFRAP Site within a half mile radius of the project site.
 - O Stankevich II Santa Fe Springs, aka Stankovich II, at 12061 S Bloomfield Avenue in Santa Fe Springs, approximately 0.35-miles east of the project site, is listed because of hazardous waste storage and illegal dumping. The site is listed as certified as of September 1, 1984. Therefore, the facility is not expected to have had an impact on the project site.

4.1.5 RCRA CORRACTS Facilities

The RCRA CORRACTS Facilities list catalogues facilities that treat, store, or dispose of hazardous waste and have been associated with corrective action activity.

- The project site is not listed as a RCRA CORRACTS TSD Facility.
- The database search identified one RCRA CORRACTS TSD Facility within a one-mile radius of the project site.
 - Omega Chemical Corporation's southern edge of a groundwater plume is approximately 0.61-miles north of the project site, is listed because it was a refrigerant and solvent recycling, reformulation and treatment facility that operated from about 1976 to 1991. The source of the plume at 12504 and 12512 E Whittier Boulevard is almost 4 miles northeast of the project site. As a result of spills, leaks, and other chemical releases, the soil and groundwater were contaminated with VOCs such as PCE, TCE, and freon. The EPA has

overseen several cleanup operations The EPA has overseen several cleanup operations of the Omega Chemical Superfund Site and work to address contaminated groundwater is ongoing.

4.1.6 RCRA Non-CORRACTS TSD Facilities

The Resource Conservation and Recovery Act (RCRA) non-CORRACTS TSD Facilities List tracks facilities which treat, store, or dispose of hazardous waste and are not associated with corrective action activity.

- The project site is not listed as a RCRA non-CORRACTS TSD Facility.
- The database search did not identify any RCRA non-CORRACTS TSD facilities within a one-half mile radius of the project site.

4.1.7 RCRA Generators

The RCRA Generator list is maintained by the EPA to track facilities that generate hazardous waste, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

- The project site is not listed as a RCRA Generator facility. The site is listed as a RCRA NonGen for waste collection program that the city manages which is not expected to have impacted the project site. No violations or actions were found due to their waste collection program.
- The database search identified 7 RCRA Generators within a quarter mile radius of the project site.
 - o Firestone Norwalk Tire Service Inc at 12225 E Imperial Highway, approximately 0.02-miles north of the project site, is listed as a small quantity generator of hazardous waste. This site is listed as not having violations on the EPA Enforcement Compliance History Online (ECHO) website. This site is listed twice.
 - O Chevron Station No. 92149 at 12155 Imperial Highway, approximately 0.05-miles north northwest of the project site, is listed as a small quantity generator of hazardous waste. This site is listed as not having violations on the EPA Enforcement Compliance History Online (ECHO) website.
 - o Rite Aid #5505 at 12319 South Norwalk Boulevard, approximately 0.15-miles northwest of the project site, is listed as a large quantity generator of hazardous waste. This site is listed as not having violations on the EPA Enforcement Compliance History Online (ECHO) website.
 - o Palace Cleaners at 12037 South Norwalk Boulevard, approximately 0.2-miles north northwest of the project site, is listed as a small quantity generator of hazardous waste. This

Page 22 • PlaceWorks

March 2022

- site is listed as not having violations on the EPA Enforcement Compliance History Online (ECHO) website.
- O CVS Pharmacy #16761 at 12051 Imperial Highway Suite B, approximately 0.2-miles west of the project site, is listed as a conditionally exempt small quantity generator of hazardous waste. This site is listed as not having violations on the EPA Enforcement Compliance History Online (ECHO) website.
- Target Store T1424 at 12051 Imperial Highway, approximately 0.2-miles west of the project site, is listed as a large quantity generator of hazardous waste. This site is listed as not having violations on the EPA Enforcement Compliance History Online (ECHO) website.
- O Yellow Freight System at 12233 Norwalk Boulevard, approximately 0.2-miles north of the project site, is listed as a small quantity generator of hazardous waste. This site is listed as not having violations on the EPA Enforcement Compliance History Online (ECHO) website.

4.1.8 Federal Institutional Control / Engineering Controls

A listing of sites with institutional and or engineering controls in place is maintained by the EPA. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

The project site is not listed as having an institutional or engineering control.

4.1.9 Federal ERNS List

The Federal ERNS list is the Emergency Response Notification System records and stores information on reported releases of oil and hazardous substances. The list is maintained by the National Response Center United States Coast Guard.

The project site is not listed on the ERNS List.

4.1.10 State-and Tribal- equivalent NPL

Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

The project site is not listed on state- and tribal-equivalent NPL.

- The database search identified three state-and tribal equivalent NPL sites within a one-mile radius of the project site.
 - Stankovich II at 12601 Bloomfield Avenue, approximately 0.36-miles east of the project site, is listed because of hazardous waste storage and illegal dumping. The site is listed as certified as of September 1, 1984. Therefore, the facility is not expected to have had an impact on the project site.
 - O Neville Chemical Company at 12800 Imperial Highway, approximately 0.63-miles east of the project site, is listed because the facility was a former chemical manufacturing facility that operated from the 1950s to the late 1980s and the site is contaminated. Currently, the site is listed as certified operation and maintenance as of April 21, 2006. Therefore, the facility is not expected to have had an impact on the project site.
 - Shapco Inc. at 11700 Bloomfield Avenue, approximately 0.77-miles north northeast of the project site, is listed as being referred to the Regional Water Quality Control Board (RWQCB) as of April 26, 2007. Therefore, the facility is not expected to have had an impact on the project site.

4.1.11 State and Tribal- Hazardous Waste Facilities

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

- The project site is not listed on the state-and tribal-Hazardous Waste Facilities.
- The database search identified 13 state-and tribal-equivalent Hazardous Waste Facilities within a mile radius of the project site.
 - Stankovich II at 12601 Bloomfield Avenue, approximately 0.36-miles east of the project site, is listed because of hazardous waste storage and illegal dumping. The site is listed as certified as of September 1, 1984. Therefore, the facility is not expected to have had an impact on the project site.
 - Precision Control Finishing at 12150 Bloomfield Avenue, approximately 0.45-miles northeast of the project site, is listed as being referred to another agency.

Page 24 • PlaceWorks

March 2022

- Halliburton Logging Services Inc at 12320 S Bloomfield Avenue, approximately 0.47-miles northeast of the project site, is listed as a historical site that was referred to another agency as of July 23, 1982.
- O City of Norwalk Transportation Yard at 12737 Civic Center Drive, approximately 0.51-miles east of the project site, is listed because of a release in a chemical storage yard. Currently, the site is listed as no further action required as of March 16, 1994.
- Neville Chemical Company at 12800 Imperial Highway, approximately 0.63-miles east of the project site, is listed because the facility was a former chemical manufacturing facility that operated from the 1950s to the late 1980s and the site is contaminated. Currently, the site is listed as certified operation and maintenance as of April 21, 2006.
- O Polymer Concepts at 12830 Imperial Highway, approximately 0.74-miles east of the project site, is listed because the site underwent a site screening and a Preliminary Assessment report (PA) due to suspected contamination. Currently, the site is listed as no further action required as of October 3, 1996.
- O Jack in the Box #3174 at 13369 Firestone Boulevard, approximately 0.77-miles southeast of the project site, is listed because in 1985 the site had USTs removed and Caltrans was considering acquisition of the parcel. Currently, the site is listed as no further action required as of November 23, 2010.
- Shapco Inc. at 11700 Bloomfield Avenue, approximately 0.77-miles north northeast of the project site, is listed as being referred to the Regional Water Quality Control Board (RWQCB) as of April 26, 2007.
- O Life Paint Company at 12911 Sunshine Avenue, approximately 0.80-miles east of the project site, is listed as a historical site that was referred to another agency as of October 27, 1994.
- O Accuride International at 12311 Shoemaker Avenue, approximately 0.85-miles east of the project site, is listed because of contamination from PCE, TCE, and their degradation products in the soil. Currently, the site is listed as certified operation and maintenance as of October 20, 2010.
- O Goodrich International at 11120 S. Norwalk Boulevard, approximately 0.93-miles north of the project site, is listed because of site inspection and Phase I evaluation. Currently, the site is listed as no further action required as of February 14, 2001.
- o Maruichi American Corporation at 11529 S Greenstone Avenue, approximately 0.94-miles northeast of the project site, as being referred to another agency.
- O John Glenn High School at 13520 Shoemaker Avenue, approximately 0.96-miles southeast of the project site, is listed because it was a school cleanup site that was historically utilized

for agriculture. Currently, the site is listed as no further action required as of September 13, 2017.

Based on the regulatory status and distances from the project site, the above listed sites on EnviroStor are not expected to have impacted the project site.

4.1.12 State and Tribal- equivalent Landfill and/or Solid Waste Disposal Sites

The Solid Waste Information System lists active, closed, and inactive landfills for solid waste disposal facilities or landfills. They may be active or inactive facilities or open dumps that are not classified as a solid waste landfill or disposal site.

- The project site is not listed on state- and tribal- equivalent landfill and/or solid waste disposal site lists.
- The database search did not identify any state-and tribal equivalent Landfill and/or Solid Waste Disposal sites within a half mile radius of the project site.

4.1.13 State and Tribal Leaking Underground Storage Tanks

The State Water Resources Control Board Leaking Underground Storage Tank Information System contains an inventory of Leaking Underground Storage Tank (LUST) Incident Reports.

- The project site is listed on state- and tribal leaking underground storage tanks.
 - O City of Norwalk at 12700 Norwalk Boulevard had a leak of diesel reported May 12, 1992. Currently, the case is listed as completed case close as of August 15, 2000. In 1999, an 8,000-gallon capacity diesel UST was removed from the project site under the oversight of Los Angeles County Department of Public Works (LACDPW). Twelve soil samples were collected and analyzed from beneath the tank area and stockpiled soil that was divided into suspected impacted soil stockpile and clean soil stockpile. Approximately 29 tons of impacted soil were transported off site for biotreatment. Some stained soil was left in place that could not be excavated due to limited site access. LACDPW concurred that the site met closure criteria on August 16, 1999 and the Los Angeles Regional Water Quality Control Board concurred on August 15, 2000. The former 8,000-gallon UST was located to the south of the current 4,000-gallon diesel UST. The diesel UST was used to fuel a generator located inside the building near the southeast corner of the basement area. Figure 5 shows the location of the UST. Based on agency closure and former UST location, this closed LUST is not expected to impact the project.
- The database search identified 16 LUST facilities within a half-mile radius of the project site.
 - O Tosco -76 Station #6916 (Former) at 12700 Norwalk Boulevard, approximately 0.017-miles north of the project site, is listed because of a leak of gasoline reported December 14, 1995.

Page 26 • PlaceWorks

March 2022

Currently, the case is listed as completed - case close as of August 4, 2004. Based on the current regulatory status of the case, the leak is not expected to have had an impact on the project site.

- O Firestone at 12225 E Imperial Highway, approximately 0.025-miles north of the project site, is listed because of a leak of waste oil/motor/hydraulic/lubricating oil reported January 10, 1990. Currently, the case is listed as completed case close as of January 10, 1990. Based on the current regulatory status of the case, the leak is not expected to have had an impact on the project site.
- O Golden Shell at 12843 Norwalk Boulevard, approximately 0.15-miles southwest of the project site, is listed because of a leak of gasoline reported July 26, 2000. Currently, the case is listed as completed case close as of October 15, 2004. Based on the current regulatory status of the case, the leak is not expected to have had an impact on the project site.
- O Montgomery Wards at 12051 Imperial Highway, approximately 0.21-miles northwest of the project site, is listed because of a leak of gasoline reported August 9, 1985. Currently, the case is listed as completed case close as of February 4, 1987. Based on the current regulatory status of the case, the leak is not expected to have had an impact on the project site.
- o IBM Building at 12051 Imperial Highway, approximately 0.23-miles northeast of the project site, is listed because of a leak of diesel reported January 21, 1993. Currently, the case is listed as completed case close as of September 8, 1994. Based on the current regulatory status of the case, the leak is not expected to have had an impact on the project site.
- O Mobil #11-F20 at 12616 Imperial Highway, approximately 0.37-miles east of the project site, is listed because of a leak of gasoline reported August 2, 1989. Currently, the case is listed as completed case close as of February 21, 1995. Based on the current regulatory status of the case, the leak is not expected to have had an impact on the project site.
 - This case is listed twice in the EDR report.
- O Southern Reception Center at 13200 Bloomfield Avenue, approximately 0.42-miles southeast of the project site, is listed because of a leak of diesel reported May 12, 1992. Currently, the case is listed as completed case close as of October 17, 1997. Based on the current regulatory status of the case and its downgradient location from the project site, the leak is not expected to have had an impact on the project site.
 - This case is listed twice in the EDR report.
- O Griffith Company, Inc. at 12200 Bloomfield Avenue, approximately 0.43-miles southeast of the project site, is listed because of a leak of diesel reported May 12, 1992. Currently, the case is listed as completed - case close as of October 17, 1997. Based on the current

regulatory status of the case, the leak is not expected to have had an impact on the project site.

- O Precision Control Finishing at 12150 Bloomfield Avenue, approximately 0.45-miles northeast of the project site, is listed because of a leak. Currently, the case is listed as completed case close as of September 2, 2020. Based on the current regulatory status of the case, the leak is not expected to have had an impact on the project site.
- O Conoco Phillips #251021 at 12042 E Firestone Boulevard, approximately 0.45-miles southwest of the project site, is listed because of a leak of waste oil/motor/hydraulic/lubricating oil reported May 12, 2005. Currently, the case is listed as completed case close as of April 1, 2015. Based on the current regulatory status of the case and its downgradient location from the project site, the leak is not expected to have had an impact on the project site.
- O Keystone Ford at 11980 Firestone Boulevard, approximately 0.45-miles southwest of the project site, is listed because of a leak of aviation oil reported September 21, 1993. Currently, the case is listed as completed case close as of September 21, 1993. Based on the current regulatory status of the case and its downgradient location from the project site, the leak is not expected to have had an impact on the project site.
- O Halliburton Logging Services, Inc. at 12310 Bloomfield Avenue, approximately 0.47-miles northeast of the project site, is listed because of a leak of diesel reported November 28, 1989. Currently, the case is listed as completed case close as of July 27, 1993. Based on the current regulatory status of the case, the leak is not expected to have had an impact on the project site.
 - This case is listed twice in the EDR report.

All leaking underground storage tank sites are listed as being closed with the regulatory agencies following assessment and in some cases remediation. None of the former LUST sites are expected to be an environmental concern for the project site, including the closed LUST site on the project site.

4.1.14 State and Tribal Registered Underground Storage Tanks

The State Water Resources Control Board's Hazardous Substance Storage Container Database maintains a list of USTs regulated by the Resource Conservation and Recovery Act.

- The project site is listed on the registered UST list.
 - O The City of Norwalk is listed as having a permitted UST through Los Angeles County Fire Department. The Facility ID is listed as 11565 and the CERS ID is listed as 10280053. The UST permitted at the project site is a 4,000-gallon diesel tank comprised of fiberglass and steel that is located on the east side of the building south of the stairs. The fill port is in a

Page 28 • PlaceWorks March 2022

sidewalk area covered with a petroleum mat to the south of the entrance off the parking lot. No leaks were identified for the 4,000-gallon diesel UST.

- The database identified 5 registered UST facilities within a quarter mile radius of the project site.
 - O Tosco/Unocal #31242 at 12205 Imperial Highway, approximately 0.017-miles north of the project site, is listed as having a permitted UST through Los Angeles County Fire Department. The Facility ID is listed as 24751.
 - Los Angeles County Courts at 12720 Norwalk Boulevard, approximately 0.041-miles south
 of the project site, is listed as having a permitted UST through Los Angeles County Fire
 Department. The Facility ID is listed as 9802.
 - O Chevron USA #092149 at 12720 Norwalk Boulevard, approximately 0.051-miles north of the project site, is listed as having a permitted UST through Los Angeles County Fire Department. The Facility ID is listed as 9739.
 - Los Angeles Sherriff Department (LASD) Norwalk Station at 12335 Civic Center Drive, approximately 0.082-miles south of the project site, is listed as having a permitted UST through Los Angeles County Fire Department. The Facility ID is listed as 7528 and 5284.
 - O County of Los Angeles Registrar Recorder at 12400 Imperial Highway, approximately 0.120-miles east of the project site, is listed as having a permitted UST and AST through Los Angeles County Fire Department. The Facility ID is listed as 14223 and 20679.

4.1.15 State and Tribal Voluntary Cleanup Site

The DTSC maintains a list of low threat level properties with either confirmed or unconfirmed releases and where the project proponents have request that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

- The project site is not listed on the state and tribal voluntary cleanup program.
- The database search did not identify any state and tribal voluntary cleanup program sites within a half mile radius of the project site.

4.1.16 HAZNET

The California Environmental Protection Agency, Department of Toxic Substances Control maintains a list of facility and manifest data. The Hazardous Waste Information System (HAZNET) and Hazardous Waste Tracking System (HWTS) database includes information hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities (TSDFs).

The project site is listed on the HAZNET Hazardous Waste Tracking System database

- O City of Norwalk Curbside Collection Program for household hazardous waste
 - In 2014, 2013, 2012, 2010, 2008 and 2006.

4.1.17 CERS HAZ Waste and CA CERS

Cers Haz Waste is a list of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator and RCRA LQ HW Generator Program. CERS is the CalEPA database that combines data about environmentally regulated sites and facilities from a variety of regulated activities across the spectrum of environmental programs including hazardous materials and waste. The project site is listed on the Hazardous Waste Tracking System for having a UST and for lawful disposal of waste.

4.1.18 Orphan Sites

The EDR database identified five sites that were indicated as being potentially in the area and were not mapped due to incomplete address information. All five of the orphan sites were identified as being in the City of Santa Fe Springs and they are all outside of the radius of concern. Based on a review of the dates, locations, and current regulatory status, the project site is not expected to be impacted by these orphan sites.

4.2 ADDITIONAL ENVIRONMENTAL RECORDS REVIEW

In conformance with ASTM inquiry was made with the additional agencies described below.

4.2.1 Local Brownfield Lists

The DTSC's Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. No brownfield sites were identified on the EnviroStor database on the project site nor in the radius searched for the project site.

4.2.2 Local Lists of Hazardous Waste Contaminated Sites

A record search was done on the following databases: CERS HAZ Waste, Clandestine Drug Labs, HIST Cal-Sites Historical CalSites Database, and Toxic Pits Cleanup Act Sites. School Property Evaluation Program records were also searched.

- The project site was identified on the CERS Hazardous Waste databases.
 - o The City Hall is identified as a chemical storage facility because of the underground storage tank. The site ID is listed as 106228 and the CERS ID is listed as 10280053.

Page 30 • PlaceWorks

March 2022

- The database search identified 22 local hazardous waste contaminated sites within a quarter mile radius of the project site.
 - Tosco 76 Station #6916 at 12205 E Imperial Highway, approximately 0.017-miles north of the project site, is identified on the CERS Hazardous Waste databases as a tank cleanup site The site ID is listed as 196100 and the CERS ID is listed as T0603705012.
 - Firestone at 12225 E Imperial Highway, approximately 0.025-miles north of the project site, is identified on the CERS Hazardous Waste databases as a tank cleanup site. The site ID is listed as 222643 and the CERS ID is listed as T0603703125.
 - o Jim's Chevron SVC at 12155 E Imperial Highway, approximately 0.051-miles north of the project site, is identified on the CERS Hazardous Waste databases as a hazardous waste generator. The site ID is listed as 104762 and the CERS ID is listed as 10290499.
 - AT&T Mobility at 12335 Civic Center Drive, approximately 0.082-miles south of the project site, is identified on the CERS Hazardous Waste databases as a hazardous waste generator. The site ID is listed as 551044 and the CERS ID is listed as 10814821.
 - O Los Angeles County Sheriff Norwalk Station at 12335 Civic Center Drive, approximately 0.082-miles south of the project site, is identified on the CERS Hazardous Waste databases as a hazardous waste generator. The site ID is listed as 142327 and the CERS ID is listed as 10174419.
 - O Dun-Edwards Paints #145 at 12125 E Imperial Highway, approximately 0.051-miles northwest of the project site, is identified on the CERS Hazardous Waste databases as a hazardous waste generator. The site ID is listed as 112927 and the CERS ID is listed as 10304242.
 - Golden Shell 12843 Norwalk Boulevard, approximately 0.151-miles south of the project site, is identified on the CERS databases as a tank cleanup site. The site ID is listed as 233897 and the CERS ID is listed as T0603793031.
 - o Rite Aid #5505 at 12319 Norwalk Boulevard, approximately 0.156-miles north of the project site, is identified on the CERS Hazardous Waste databases as a hazardous waste generator. The site ID is listed as 61820 and the CERS ID is listed as 10304227.
 - O Los Angeles County Fire Station #020 at 12110 Adoree Street, approximately 0.175-miles southwest of the project site, is identified on the CERS Hazardous Waste databases as a hazardous waste generator. The site ID is listed as 128714 and the CERS ID is listed as 10281517.
 - O Palace Cleaners & Tailors at 12307 Norwalk Boulevard, approximately 0.191-miles north of the project site, is identified on the CERS Hazardous Waste databases as a hazardous waste generator. The site ID is listed as 55073 and the CERS ID is listed as 10280668.

- Paddison Associates at 12301 Norwalk Boulevard, approximately 0.197-miles north of the project site, is identified on the CERS Hazardous Waste databases as a hazardous waste generator. The site ID is listed as 1838 and the CERS ID is listed as 10616833.
- O Montgomery Wards at 12501 Imperial Highway, approximately 0.207-miles northwest of the project site, is identified on the CERS databases as a tank cleanup site. The site ID is listed as 192632 and the CERS ID is listed as T0603704599.
- Norwalk at 12051 E Imperial Highway, approximately 0.207-miles northwest of the project site, is identified on the CERS Hazardous Waste databases as a hazardous waste generator. The site ID is listed as 73951and the CERS ID is listed as 10279393.
- o IBM Building at 12051 E Imperial Highway, approximately 0.225-miles northwest of the project site, is identified on the CERS Hazardous Waste databases as a tank cleanup site. The site ID is listed as 235466 the CERS ID is listed as T0603704155.
- O'Reilly Auto Parts #3075 at 12233 Norwalk Boulevard, approximately 0.234-miles north of the project site, is identified on the CERS Hazardous Waste databases as a hazardous waste generator. The site ID is listed as 53103 and the CERS ID is listed as 10280986.
- Stankovich II at 12601 Bloomfield Avenue, approximately 0.361-miles east of the project site, is identified on the CERS Hazardous Waste databases as a state response site. The site ID is listed as 343493 and the CERS ID is listed as 19990018.
- Mobil #11-F20 at 12616 Imperial Highway, approximately 0.377-miles east of the project site, is identified on the CERS Hazardous Waste databases as a tank cleanup site. The site ID is listed as 200637 and the CERS ID is listed as T0603770616.
- o Southern Reception Center at 13200 Bloomfield Avenue, approximately 0.423-miles southeast of the project site, is identified on the CERS Hazardous Waste databases as a tank cleanup site. The site ID is listed as 250650 and the CERS ID is listed as T0603703960.
- Griffth Company, Inc. at 12200 Bloomfield Avenue, approximately 0.434-miles northeast of the project site, is identified on the CERS Hazardous Waste databases as a tank cleanup site. The site ID is listed as 238424 and the CERS ID is listed as T0603766963.
- O Conoco Philips #251021 12042 Firestone Boulevard, approximately 0.449-miles southwest of the project site is identified on the CERS Hazardous Waste databases as a tank cleanup site. The site ID is listed as 233489and the CERS ID is listed as T10000000564.
- o Halliburton Logging Services, Inc. at 12310 Bloomfield Avenue, approximately 0.471-miles east of the project site is identified on the CERS Hazardous Waste databases as a cleanup program site. The site ID is listed as 208244 and the CERS ID is listed as 208244.

Page 32 • PlaceWorks

March 2022

Neville Chemical Co. at 12800 E Imperial Highway, approximately 0.633-miles east of the project site, is identified on the CERS Hazardous Waste databases as a chemical storage facility. The site ID is listed as 372609 and the CERS ID is listed as 10487167.

4.2.3 Local Lists of Registered Storage Tanks

A record search was done of the local lists of registered storage tanks. The project site and nine registered UST sites were identified with 0.25 miles of the project site.

- The project site was identified on the list of registered storage tanks. .
 - City of Norwalk at 12700 Norwalk Boulevard is listed as having 1 active registered storage tank.
 - This facility is listed twice in the EDR report.
- Nine nearby sites were identified as having registered storage tanks.
 - Unocal Corporation #6916 at 12205 Imperial Highway, approximately 0.017-miles north of the project site, is listed as having 3 active registered storage tanks.
 - This facility is listed three times in the EDR report.
 - o Norwalk Tire Service Inc. at 12225 E Imperial Highway, approximately 0.025-miles north of the project site, is listed as having an active registered storage tank.
 - o Norwalk Courts at 12720 Norwalk Boulevard, approximately 0.041-miles south of the project site, is listed as having one historical registered storage tank.
 - This facility is listed twice in the EDR report.
 - o Jim's Chevron at 12155 E Imperial Highway, approximately 0.051-miles north of the project site, is listed as having 4 active registered storage tanks.
 - This facility is listed three times in the EDR Report.
 - Norwalk Sheriff Station at 12335 Civic Center Drive, approximately 0.082-miles south of the project, is listed as having 4 active registered storage tanks.
 - O Steve Carcano at 12400 Imperial Highway, approximately 0.120-miles east of the project, is listed as having an active registered storage tanks.
 - o Golden Shell at 12843 Norwalk Boulevard, approximately 0.151-miles southwest of the project, is listed as having 4 active registered storage tanks.
 - This facility is listed twice in the EDR report.

- Los Angeles County Fire Department #020 at 12110 Adoree Street, approximately 0.175-miles southwest of the project, is listed as having 2 active registered storage tanks.
 - This facility is listed twice in the EDR report.
- o IBM Corporation Building at 12501 Imperial Highway, approximately 0.22-miles east of the project site, is listed as having one historical registered storage tank.
 - This facility is listed three times in the EDR report.

4.2.4 High Risk Historical Records

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, and dry cleaners. Five historical facilities were identified within the search radius.

- O Consoli Self-Serve at 12205 E Imperial Highway, approximately 0.01-miles north of the project site, is listed has having been a petroleum bulk station and terminal for the years 1990 to 1993. From 1994 to 1998, the facility is listed as a gasoline service station.
- o Fitzpatrick James at 12613 and 12603 Norwalk Boulevard, approximately 0.02-miles west of the project site, is listed as having been a gasoline service station for the years 1969 to 1982.
- Plaza Cleaners at 12317 Imperial Highway, approximately 0.04-miles east of the project site, is listed as having been a laundry and drycleaners for the years 1995 to 2014.
- o Jim's Chevron at 12155 E Imperial Highway, approximately 0.05-miles north of the project site, is listed has having been a general automotive repair shop for the years 1987 to 2004. From 2005 to 2008, the facility is listed as a gasoline service station.
- o AAP Corporation at 12483 Norwalk Boulevard, approximately 0.07-miles north of the project site, is listed as having been a gasoline service station for the years 1997 to 2000.

4.2.5 State of California Geologic Energy Management Division

CalGEM oversees the drilling, operation, maintenance, and plugging and abandonment of oil wells, natural gas wells, and geothermal wells. The CalGEM regulatory program emphasizes the wise development of oil, natural gas, and geothermal resources in the state of California through sound engineering practices that protect the environment, prevent pollution, and ensure public safety. PlaceWorks reviewed the available CalGEM online mapping system for the Project Site at the California Department of Conservation webpage.

Page 34 • PlaceWorks

March 2022

A review of California Division of Geologic Energy Management (CalGEM) Well Finder indicates that there are no oil wells or oil fields within the boundary of the project site. The closest oil well is located approximately 242-feet south of the project site. The well is identified as a plugged and abandoned that was advanced by Lincoln Oil Syndicate and abandoned in 1923 (CalGEM 2021). The status of the well is listed as idle on CalGEM Well Finder map. The well record that was requested from CalGEM is included in Appendix A. Based on the status of the status of the plugged and abandoned well is not expected to have caused an impact to the project site.

4.2.6 Los Angeles County Public Works

A file review was implemented with Los Angeles County Department of Public Works Underground Storage Tanks program which regulates underground tanks in the unincorporated areas and 77 cities in the County of Los Angeles including the City of Norwalk. Files were found for the former 8,000-gallon diesel UST that was removed in 1999 and recent inspection reports for the current 4,000-gallon diesel UST at Norwalk City Hall. Copies are included in Appendix A.

A summary of pertinent documents in the file include:

- In 2012 a testing report indicated the tank passed annual testing, piping sump testing, fill riser
 contaminant sump testing and secondary pipe testing. The testing report indicates the 4,000-gallon
 double wall diesel UST tank and piping were manufactured by Xerxes.
- In 2016 there was a notice of violation for not uploading data to the state website and that certification for financial responsibility had expired.
- In 2017 there was a notice of violation for no flapper valve, financial responsibility certification and chief financial officer letter had expired.
- In 2018 there was a violation because the annular sensor did not come out of alarm and a permit was
 required to replace. A monitoring system certification dated February 12, 2021 indicates the annular
 space sensor was replaced and tested.
- In 2018 during testing there was a comment that the annular space failed to clear after setting it into alarm and the sensor was not reinstalled as it was not functioning. A permit is on file for the replacement of the annular space sensor.
- In 2019 the UST was inspected, and the report indicates that the Overfill Prevention Equipment Inspection Report had not been submitted and that there was no flapper valve.
- In March 2020 there was a notice of violation for no flapper valve in fill riser, no fill tube in riser.
- In 2021 there was a notice of violation for missing submittals to CERS system including monitoring plan.

There were 5 notices of violation in LACDPW files. The violations were primarily for uploading certifications to the state database and for the flapper valve. There were no violations for leaks or spills at the site, and therefore, this UST is not an environmental concern on the project site. Other documentation in the LACDPW files includes tank closure reports for the previous 8,000-gallon diesel UST.

4.2.7 Los Angeles Regional Water Quality Control Board

Files were reviewed with the Los Angeles Regional Water Quality Control Board (RWQCB) GeoTracker website for the project site. No reports or data were included on the website for the project site. The case summary indicates that LADPW was the local agency with oversight and that the RWQCB concurred with the site being closed on August 15, 2000. The case summary report from the RWQCB is included in Appendix A.

4.2.8 South Coast Air Quality Management District

The South Coast Air Quality Management District (AQMD) Facility Information Detail (FIND) database was searched for the project site. One active permit was listed for the site at 12700 Norwalk Boulevard (City Hall), and it is a permit to operate an emergency electrical generator – diesel. The permit was issued on January 1, 2010. There are no notices of violations listed for Norwalk City Hall. Permit information from AQMD is included in Appendix A.

4.2.9 Vapor Migration

The ASTM 1527-13 standard states that "for the purposes of this practice, 'migrate' and 'migration' refers to the movement of hazardous substances or petroleum products in any form, including, for example, solid and liquid at the surface or subsurface, and vapor in the subsurface". Thus, this section specifies whether we perceive a risk of vapor migration to the project site.

To assess a vapor migration, risk a review and analysis of the site-specific environmental database report and other reasonably ascertainable records was implemented to assess whether:

- 1. Off-site properties have documented chlorinated volatile organic compound (VOC) contamination located within 100 feet of the project site, or
- 2. Off-site properties have documented volatile petroleum hydrocarbon contamination within 30 feet of the project site.

Based on the records review, it is unlikely that a potential source of vapor migration currently exists beneath the project site from off-site properties. No chlorinated VOC contamination was identified, and underground storage tanks were not identified adjacent or within 30 feet of the project site. No on site or off-site properties have documented volatile petroleum hydrocarbon contamination within 30 feet of the project site.

Page 36 • PlaceWorks

March 2022

4.2.10 User-Provided Information

The ASTM Standard requires disclosure in the Phase I ESA report whether the user of the report has specialized knowledge about previous ownership or uses of the property that may be material to identifying RECs or HRECs, or whether the user has determined that the property's Title contains environmental liens or other information related to environmental condition of the property, including engineering and institutional controls and Activity and Use Limitations, as defined by ASTM. In addition, PlaceWorks' Phase I ESA specialists are required by the ASTM Standard to inquire whether the user of the report has prior knowledge that the price of the property has been reduced for environmentally-related reasons.

PlaceWorks was informed by the user that to their knowledge there are no liens or other information about the environmental condition of the property in the Title. In addition, the user was not aware of specialized knowledge about previous ownership or uses of the property that may be material to identifying RECs with the exception of the information provided above and has not indicated that the price of the property has been reduced for environmentally-related reasons.

This page intentionally left blank.

Page 38 • PlaceWorks

March 2022

Current site conditions were observed during a reconnaissance of the project site to document site conditions. PlaceWorks conducted the site reconnaissance on January 29, 2022. No weather-related conditions or other conditions that would limit PlaceWorks' ability to observe the project site occurred during the site reconnaissance. PlaceWorks personnel observed the exterior portions of the property, including the property boundaries. Site photographs from the reconnaissance are included in Appendix C. The reconnaissance was performed by walking the project site.

ASTM requires that the current site owner or Key Site Manager and user, if different from the current owner or Key Site Manager, be asked if there are any helpful documents or information that can be made available for review. These consist of environmental site assessment reports, audits, permits, tank registrations, Material Safety Data Sheets, Community Right-to-Know plans, safety plans, hydrogeologic or geotechnical reports, or hazardous waste generator reports.

5.1 CURRENT USE OF THE PROPERTY

The project site is comprised of approximately 13.2 acres located at the southeast corner of the intersection of Imperial Highway and Norwalk Boulevard in Norwalk. The project site consists of three parcels with Assessor's Parcel Numbers (APN) 8047-006-922, -924, and-925 which are owned by the City of Norwalk and a portion of one parcel with APN 8047-006-927, which is owned by the County of Los Angeles. The project site consists of existing Norwalk City Hall building, parking lot, parking structure, a portion of an accessory building associated with the Los Angeles County Court and City Hall Lawn and memorials. No modifications are proposed to the existing Norwalk City Hall building or the small portion of the County accessory building that are within the project site, and the existing uses within these structures would continue.

5.2 SITE VISIT OBSERVATIONS

5.2.1 General Description of Structures

Norwalk City Hall is a one-story square shaped building clad in tinted glass and panels covered with blue and green tile mosaic. Some of the mosaic tile pieces have come off in some locations around the building. The building was constructed in the 1960s with an open area in the center. There is a three-story parking structure located toward the southwest area of the project site that has one elevator. The City Hall building, and County accessory building will not be altered as part of the project. There is a memorials for veterans at the east entrance of city hall and a memorial to public servants near the northeast corner of the City Hall Lawn. A memorial for Manuel Salinas is located near the parking lot entrance off Avenida Manuel Salinas. A time capsule is located near the flagpole near the northeast corner of City Hall. At the northwest corner of the site

is an electronic sign and water feature with statues of children playing. No other structures were identified within the project area.

5.2.2 Heating and Cooling System

City Hall has a HVAC system and a heating system.

5.2.3 Potable Water Supply and Sewage Disposal System or Septic Systems

The City of Norwalk receives water from local wells and water purveyors including the City of Cerritos, City of Santa Fe Springs, Golden State Water Company, and Liberty Utilities. The project site's water is provided by Golden State Water Company. The project site is hooked up to sewer lines maintained by the City of Norwalk Sewer Maintenance Department.

5.2.4 Use and Storage of Petroleum Products and Hazardous Materials

A 4,000-gallon underground storage tank (UST) is located near the eastern entrance of City Hall. The diesel UST is for powering the emergency generator in the building. The fill port for the UST is covered by a petroleum mat located in a sidewalk area south of the east entrance. No staining was observed in the fueling area.

5.2.5 Vehicle Maintenance Lifts

No vehicle maintenance lifts were observed at the project site.

5.2.6 Emergency Generators and Sprinkler System Pumps

An emergency generator is located in the City Hall's basement level which was not inspected.

5.2.7 Polychlorinated Biphenyls (PCBs) Associated with Electrical or Hydraulic Equipment

No pole mounted transformers are located on or adjacent to the project site. Based on the information above, PCBs are not expected to have impacted the project site. Pad mounted transformers were observed across the project site that are in good condition with labels indicating no PCB containing materials.

5.2.8 Floor Drain and Sumps

No floor drains and sumps were observed at the project site.

5.2.9 Catch Basins

No catch basins were observed at the project site.

Page 40 • PlaceWorks

March 2022

5.2.10 Dry Wells

No dry wells were observed at the project site.

5.2.11 Pits, Ponds, Lagoons, and Pools of Liquid

No pits, ponds, lagoons, or pools of liquid were observed at the project site.

5.2.12 Odors

Petroleum hydrocarbon odors were not noted near the UST fill area. No odors were noted across the project site.

5.2.13 Stains or Corrosion on Floors, Walls, or Ceilings

Oil staining was not observed with the exception of minor staining in the surface parking lot where some vehicles had parked which is considered de minimis.

5.2.14 Stained Soil or Pavement

No stained soil or pavement was observed at the project site.

5.2.15 Stressed Vegetation

No stressed vegetation was observed at the project site.

5.2.16 Solid Waste and Evidence of Waste Filling

No evidence of solid water for waste filling was observed.

5.2.17 Wastewater and Stormwater Discharge

No wastewater discharge was observed on the project site. Stormwater is expected to exit the project site via overland flow to storm drain infrastructure on local roadways.

5.2.18 Monitoring, Water Supply, or Irrigation Wells

No monitoring, water supply or irrigation wells were observed at the project site. For the water feature located at the northwest corner of the site there is equipment for the fountain water supply.

5.3 INTERVIEWS

Beth Chow, senior planner with the Community Development Department of the City of Norwalk, completed a questionnaire on February 28, 2022. Ms. Chow was not aware of any leaks, spills, or discharges of hazardous materials to the parcels or adjacent to the parcels. Ms. Chow was not aware of any

environmental cleanup liens against the properties nor was she aware of any land use limitations due to environmental issues. She was also not aware of any environmental cleanups, spills, or chemical releases that may have occurred on the project site.

Ms. Chow stated that she was aware of the 4,000-gallon diesel UST that that the tank is dedicated to the emergency generator located in the basement of City Hall. She also indicated that the elevators are hydroelectric, hydraulic cylinder for the lifting mechanism. She also indicated that there are parking agreements in place for use of parking on the surface parking lot with the LA County Courthouse and also with the AMC development to the south.

Page 42 • PlaceWorks

March 2022

6. Data Gap Identification

Adjacent landowners were not interviewed for this Phase I Environmental Site Assessment and the interior of the City Hall building was not inspected. No changes are planned for the City Hall building. No adjacent sites of concern were identified in the database search. The database search contained in Appendix B indicates that the project site is not on the Recorded Environmental Cleanup Liens database which is maintained by the DTSC and contains a listing of liens placed upon real properties. The project site is also not listed on the DTSC's Deed Restriction database which lists sites with DTSC with restricted land use. The project site is not listed on NPL Liens, a database the EPA maintains on real property, in order to recover remedial action expenditures when the property owner has received notification of potential liability.

6. Data Gap Identification

Page 44 • PlaceWorks

March 2022

PlaceWorks has performed a Phase I Environmental Site Assessment (ESA) on behalf of Primestor (Client) for Norwalk Entertainment District - Civic Center Specific Plan Project, located at the southeast corner of the intersection of Imperial Highway and Norwalk Boulevard, Norwalk, Los Angeles County, California (Figures 1 and 2). The project site consists of two parcels totaling approximately 10.17-acres that are currently owned by the City of Norwalk (APNs 8047-006-924 and 8047-006-925).. The Phase I ESA was performed in general conformance with the scope and limitations of the ASTM E 1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process. Exceptions to, or deletions from, this practice are described in Section 1 of this report. Our conclusions are intended to help the user evaluate the "environmental risk" associated with the project site, as defined in the ASTM E 1527-13 Standard, and discussed in the Introduction section of this report.

The project site is 13.2-acres in size consisting of Assessor's Parcel Numbers (APN) 8047-006-922, -924, and-925 which are owned by the City of Norwalk and a portion of one parcel with APN 8047-006-927, which is owned by the County of Los Angeles (County). The project site is currently developed with Norwalk City Hall, City Hall Lawn, a portion of the County accessory building, a surface parking lot, and parking structure. Norwalk City Hall has an underground storage tank (UST) for an emergency generator. The address for Norwalk City Hall is 12700 Norwalk Boulevard. Figure 3 is an aerial photograph showing the current project site conditions. The Los Angeles County Superior Court – Norwalk building borders the project site to the south. Regional access to the site is provided by the Interstate 5 Freeway, approximately 0.23-miles southwest of the project site. Local access is from Avenida Manuel Salinas to the east and Norwalk Boulevard to the west of the project site (Figures 2 and 3).

The proposed project consists of a mixed-use development with residential and commercial uses and landscaped spaces. New development would occur on the site of the existing City Hall Lawn and surface parking lot. The existing Norwalk City Hall building and the portion of the County accessory building would remain, with no changes proposed. The existing County parking structure located on the south side of the project site would remain and up to two additional levels could be added as needed to accommodate future parking demand within the civic center/entertainment district area. The proposed project would allow for the development of up to 350 multi-family residential units within the project site. The proposed project includes up to 110,000 square feet of commercial uses, consisting of a mix of retail, food, and beverage, health, and wellness facilities and/or grocery/market uses.

The objective of a Phase I ESA is to assess whether "recognized environmental conditions" (REC), historical RECs (HREC), and controlled RECs (CREC) are associated with the project site. Our opinion regarding a REC's potential impact on the project site is based on the scope of our work, the information obtained during the course of our work, the conditions prevailing at the time our work was performed, the applicable regulatory requirements in effect at the time our work was performed, and our experience evaluating similar sites.

RECOGNIZED ENVIRONMENTAL CONDITIONS (RECs)

The ASTM E 1527-13 Standard defines an REC in part as "the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment."

No RECs were identified for the project site. The presence of a diesel underground storage tank to fuel an emergency generator is not a REC because the UST is not associated with a release and is not likely to have a release due to the inspections and oversight by appropriate regulatory agencies.

HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS (HRECs)

The ASTM E 1527-13 Standard defines an HREC as "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."

One HREC was identified for the project site. In 1999, an 8,000-gallon capacity diesel UST was removed from the project site under the oversight of Los Angeles County Department of Public Works (LACDPW). Twelve soil samples were collected and analyzed from beneath the tank area and stockpiled soil that was divided into suspected impacted soil stockpile and clean soil stockpile. Approximately twenty-nine tons of impacted soil were transported off site for biotreatment. Some stained soil was left in place that could not be excavated due to limited site access. LACDPW concurred that the site met closure criteria on August 16, 1999 and the Los Angeles Regional Water Quality Control Board concurred on August 15, 2000 and issued a closure letter.

CONTROLLED RECS ENVIRONMENTAL CONDITIONS

The Standard also requires the identification of controlled RECs (CRECs). The ASTM Standard defines CRECs as "a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."

This assessment has revealed no evidence of CRECs in connection with the project site following the ASTM standard.

Page 46 • PlaceWorks

March 2022

BUSINESS ENVIRONMENTAL RISK

A business environmental risk is defined by ASTM E 1527-13 as a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in this practice. Consideration of business environmental risk issues may involve addressing one or more non-scope considerations. Our review identified the following potential business environmental risks:

- Based on the age of the City Hall building, it is possible that asbestos containing materials (ACM) and lead-based paint (LBP) are potentially present in the building materials at the project site.
- The project site historically was used for agriculture from at least 1928 to the early 1960s. Residual
 pesticides may be present in the soil from the historic agriculture usage. Because the agricultural
 usage was over 60 years ago if there are residual pesticides it is expected to be at low concentrations
 and would be considered de minimis.

SUMMARY

Based on the results of this Phase I ESA and the proposed redevelopment of the project site, PlaceWorks concludes that there are no RECs or CRECs at the project site. The HREC, the former UST, does not pose a threat to the project site and the closure of the former UST was resolved to the satisfaction of the regulatory agencies involved with the removal.

8. Credentials

We declare to the best of our professional knowledge and belief, that we meet the definition of Environmental Professional as defined in the ASTM Standard. We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the project site property. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Qualifications information for the project personnel is provided in Appendix E.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EDR BUILDING PERMIT REPORT

About This Report

The EDR Building Permit Report provides a practical and efficient method to search building department records for indications of environmental conditions. Generated via a search of municipal building permit records gathered from more than 1,600 cities nationwide, this report will assist you in meeting the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

Building permit data can be used to identify current and/or former operations and structures/features of environmental concern. The data can provide information on a target property and adjoining properties such as the presence of underground storage tanks, pump islands, sumps, drywells, etc., as well as information regarding water, sewer, natural gas, electrical connection dates, and current/former septic tanks.

ASTM and EPA Requirements

ASTM E 1527-13 lists building department records as a "standard historical source," as detailed in § 8.3.4.7: "Building Department Records - The term building department records means those records of the local government in which the property is located indicating permission of the local government to construct, alter, or demolish improvements on the property." ASTM also states that "Uses in the area surrounding the property shall be identified in the report, but this task is required only to the extent that this information is revealed in the course of researching the property itself."

EPA's Standards and Practices for All Appropriate Inquires (AAI) states: "§312.24: Reviews of historical sources of information. (a) Historical documents and records must be reviewed for the purposes of achieving the objectives and performance factors of §312.20(e) and (f). Historical documents and records may include, but are not limited to, aerial photographs, fire insurance maps, building department records, chain of title documents, and land use records."

Methodology

EDR has developed the EDR Building Permit Report through our partnership with BuildFax, the nation's largest repository of building department records. BuildFax collects, updates, and manages building department records from local municipal governments. The database now includes 30 million permits, on more than 10 million properties across 1,600 cities in the United States.

The EDR Building Permit Report comprises local municipal building permit records, gathered directly from local jurisdictions, including both target property and adjoining properties. Years of coverage vary by municipality. Data reported includes (where available): date of permit, permit type, permit number, status, valuation, contractor company, contractor name, and description.

Incoming permit data is checked at seven stages in a regimented quality control process, from initial data source interview, to data preparation, through final auditing. To ensure the building department is accurate, each of the seven quality control stages contains, on average, 15 additional quality checks, resulting in a process of approximately 105 quality control "touch points."

For more information about the EDR Building Permit Report, please contact your EDR Account Executive at (800) 352-0050.

EXECUTIVE SUMMARY: SEARCH DOCUMENTATION

Asearch of building department records was conducted by Environmental Data Resources, Inc (EDR) on behalf of PlaceWorks on Dec 22, 2021.

TARGET PROPERTY

Norwalk Boulevard/Imperial Highway Norwalk, CA 90650

SEARCH METHODS

EDR searches available lists for both the Target Property and Surrounding Properties.

RESEARCH SUMMARY

Building permits identified: YES

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

TARGET PROPERTY DETAIL

Norwalk Boulevard/Imperial Highway Norwalk, CA 90650

No Permits Found

ADJOINING PROPERTY DETAIL

The following Adjoining Property addresses were researched for this report. Detailed findings are provided for each address.

IMPERIAL BLD 3

12251 IMPERIAL BLD 3

Date: 9/19/2011
Permit Type: **B-SIGN**

Description: NEW MOUNTED L.E.D ILLUMINATED WALL SIGN., SIGN TO READ "ADRIANA'S

INSURANCE"

Permit Description: SIGN

Work Class: Proposed Use:

Permit Number: 11090177 Status: CLOSED Valuation: \$2,300.00

Contractor Company:

Contractor Name: SIGN SOLUTIONS OF CALIFORNIA

Date: 9/19/2011
Permit Type: E-SIGNS

Description: SIGN W/ONE BRANCH CIRCUIT, SIGN TO READ "ADRIANA'S, INSURANCE"

Permit Description: SIGNS ELECTRICAL

Work Class: Proposed Use:

Permit Number: 11090178 Status: CLOSED Valuation: \$0.00

Contractor Company:

Contractor Name: SIGN SOLUTIONS OF CALIFORNIA

Date: 9/8/2010
Permit Type: E-COMMERCI

Description: Reinstallation of 9 original signs (9 SIGNS W/ONE, BRANCH CIRCUIT)

Permit Description: COMMERCIAL ELECTRICAL PERMIT

Work Class: Proposed Use:

Permit Number: 10090070 Status: OPEN Valuation: \$0.00

Contractor Company:

Contractor Name: BLACK COFFEE SIGN FABRICATORS

Date: **7/14/2010**Permit Type: **B-REROOF C**

Description: Tear-off and reroof with GAFGLAS Energy Cap BUR, Mineral Surfaced Cap Sheet,

CRRC listed, (Bldg 1,, 12251-53, 12315-29, 12331-45, 12371-75.

Permit Description: REROOF

Work Class: Proposed Use:

Permit Number: 10070155 Status: CLOSED Valuation: \$55,000.00

Contractor Company:

Contractor Name: PRIMUS CONTRACTING GROUP

Date: **7/8/2010**Permit Type: **B-SIGN**

Description: INSTALLING ONE SET OF REVERSE ILLUMINATED CHANNEL, LETTERS. SIGN TO

READ "LA FINANCIAL CREDIT UNION"

Permit Description: SIGN

Work Class: Proposed Use:

Permit Number: 10070090 Status: CLOSED Valuation: \$3,900.00

Contractor Company:

Contractor Name: ENCORE IMAGE

Date: 7/8/2010
Permit Type: B-SIGN

Description: INSTALLING ONE SET OF REVERSE ILLUMINATED CHANNEL, LETTERS. SIGN TO

READ "LA FINANCIAL CREDIT UNION"

Permit Description: SIGN

Work Class: Proposed Use:

Permit Number: 10070091 Status: VOID Valuation: \$3,900.00

Contractor Company:

Contractor Name: ENCORE IMAGE

Date: 7/8/2010
Permit Type: E-SIGNS

Description: SIGN W/ONE BRANCH CIRCUIT.

Permit Description: SIGNS ELECTRICAL

Work Class: Proposed Use:

Permit Number: 10070092 Status: CLOSED Valuation: \$0.00

Contractor Company:

Description: DEMO & REMOVE (E) FLOORING, CABINET, CEILING TILES PROVIDE NEW

CARPET, MODULAR FURNITURE, COUNTER, SINK, CEILING TILES.

Permit Description: Commercial Addition/Alteration/TI Building Permit - County

Work Class: Proposed Use:

Permit Number: UNC-BLDC180425000151

Status: In Review Valuation: \$30,000.00

Contractor Company: Contractor Name:

Date: 5/1/2014
Permit Type: ME

Description: REMOVE & REPLACE 2 EXISTING COOLING TOWERS

Permit Description: MECHANICAL PERMIT

Work Class: Proposed Use:

Permit Number: 1405010009 Status: FINALED Valuation: \$0.00

Contractor Company:

Contractor Name: ACCO ENGINEERED SYSTEMS

Date: 8/3/2010
Permit Type: S-COMM

Description: RELOCATE SEWER PIPING

Permit Description: COMMERCIAL SEWER PERMIT

Work Class: Proposed Use:

Permit Number: 10080012 Status: OPEN Valuation: \$0.00

Contractor Company:

Contractor Name: WEEGER BROS INC

Date: 8/3/2010
Permit Type: P-COM

Description: RELOCATE GAS METER AND SUPPLY PIPING

Permit Description: COMMERCIAL PLUMBING

Work Class: Proposed Use:

Permit Number: 10080013 Status: OPEN Valuation: \$0.00

Contractor Company:

Date: 10/11/2007

Permit Type: PL

Description: UPGRADE ADA PUBLIC RESTROOMS

Permit Description: PLUMBING PERMIT

Work Class: Proposed Use:

Permit Number: 0710110032 Status: FINALED Valuation: \$0.00

Contractor Company:

Contractor Name: MACKONE DEVELOPMEN, INC.

Date: 7/31/2007

Permit Type: BL

Description: UPGRADE ADA PUBLIC RESTROOMS

Permit Description: **BUILDING PERMIT**Work Class: ALTERATION/REPAIR

Proposed Use:

Permit Number: 0702210067 Status: FINALED Valuation: \$78,000.00

Contractor Company:

Contractor Name: MACKONE DEVELOPMEN, INC.

Date: 5/13/2004

Permit Type: **ME**

Description: **ELEVATOR MODIFICATION/HAVC**

Permit Description: MECHANICAL PERMIT

Work Class: Proposed Use:

Permit Number: 0405130004 Status: FINALED Valuation: \$0.00

Contractor Company:

Contractor Name: 9095990947 ATHENAENGINEERING

Date: 5/4/2004
Permit Type: BL

Description: **ELEVATOR MODIFICATION/HAVC**

Permit Description: **BUILDING PERMIT**Work Class: ALTERATION/REPAIR

Proposed Use:

Permit Number: 0312100053 Status: FINALED Valuation: \$100,000.00

Contractor Company:

Contractor Name: 9095990947 ATHENAENGINEERING

Date: 10/30/2002

Permit Type: **EL**

Description: REPLACE INTERIOR BUSSING AND CIRCUIT BREAKERS OF ELECTRICAL

PANELS.

Permit Description: **ELECTRICAL PERMIT**

Work Class: Proposed Use:

Permit Number: 0210300011 Status: PERMISUD Valuation: \$0.00

Contractor Company:

Contractor Name: A. R. C. ELECTRIC

Date: 10/14/1998

Permit Type: BL

Description: INSTALL FIRE WALL & DOOR

Permit Description: BUILDING PERMIT

Work Class: Proposed Use:

Permit Number: 9810140043 Status: PERMISUD Valuation: \$2,000.00

Contractor Company: Contractor Name:

Date: 4/28/1998

Permit Type: BL

Description: EARTHQUAKE REPAIR

Permit Description: **BUILDING PERMIT**Work Class: ALTERATION/REPAIR

Proposed Use:

Permit Number: 9804280007 Status: PERMISUD Valuation: \$11,460.00

Contractor Company: Contractor Name:

Date: 4/15/1996

Permit Type: **EL**

Description: ALTERATION ON MISC. MIXING BOXES

Permit Description: **ELECTRICAL PERMIT**

Work Class: Proposed Use:

Permit Number: 9602210024 Status: PERMISUD Valuation: \$0.00

Contractor Company:

Contractor Name: SISCO

Date: 4/11/1996

Permit Type: **ME**

Description: ALTERING DUCT WORK

Permit Description: MECHANICAL PERMIT

Work Class: Proposed Use:

Permit Number: 9602210007 Status: PERMISUD Valuation: \$0.00

Contractor Company:

Contractor Name: SISCO

12727 NORWALK BLVD

Date: 4/26/2000

Permit Type: **EL**

Description: 374 OUTLETS FOR LEADER PROJECT

Permit Description: **ELECTRICAL PERMIT**

Work Class: Proposed Use:

Permit Number: 0004260005 Status: FINALED Valuation: \$0.00

Contractor Company:

Contractor Name: COMET ELECTRIC

Date: 3/1/2000 Permit Type: EL

Description: TEMPORARY POWER POLES

Permit Description: **ELECTRICAL PERMIT**

Work Class: Proposed Use:

Permit Number: 0003010002 Status: FINALED Valuation: \$0.00

Contractor Company:

Contractor Name: PERFORMANCE POWER SYSTEMS, INC.

Date: 2/17/2000

Permit Type: BL

Description: TEMPORARY OFFICE TRAILER (STATE APPROVED)

Permit Description: **BUILDING PERMIT**Work Class: NEW COMMERCIAL

Proposed Use:

Permit Number: 0002140016 Status: FINALED Valuation: \$350,000.00

Contractor Company:

Contractor Name: GIBRALTAR CONSTRUCTION CO., INC.

Date: 2/9/2000
Permit Type: EL

Description: HVAC ON THE ROOF, INSTALL (5) 200A, (1) 400A, (2) 600A SERVICE PANELS, ETC.

JOB NO. B990124

Permit Description: **ELECTRICAL PERMIT**

Work Class: Proposed Use:

Permit Number: 0002030006 Status: FINALED Valuation: \$0.00

Contractor Company:

Contractor Name: GIBRALTAR CONSTRUCTION CO., INC.

Date: 2/9/2000 Permit Type: ME

Description: HVAC ON THE ROOF, INSTALL (1) BOILER >500 KBTU, (240) AIR INLETS/OUTLETS,

(2) AIR HANDLING UNIT, (30) FIRE DAMPERS JOB NO. B990124

Permit Description: MECHANICAL PERMIT

Work Class: Proposed Use:

Permit Number: 0002070011 Status: FINALED Valuation: \$0.00

Contractor Company:

Contractor Name: GIBRALTAR CONSTRUCTION CO., INC.

Date: 2/9/2000
Permit Type: PL

Description: HVAC ON THE ROOF, INSTALL (1) BACKFLOW DEVICE, (1) FLOOR SINK AND (1)

LOW PRESSURE GAS SYSTEM. JOB NO. B990124.

Permit Description: PLUMBING PERMIT

Work Class: Proposed Use:

Permit Number: 0002070022 Status: FINALED Valuation: \$0.00

Contractor Company:

Contractor Name: GIBRALTAR CONSTRUCTION CO., INC.

Date: 2/2/2000
Permit Type: BL

Description: HVAC ON THE ROOF, ALTERATION OF CORRIDORS (EXPANSION) ON ALL THREE

FLOORS.

Permit Description: **BUILDING PERMIT**Work Class: ALTERATION/REPAIR

Proposed Use:

Permit Number: 9910130023 Status: FINALED Valuation: \$200,000.00

Contractor Company:

Contractor Name: GIBRALTAR CONSTRUCTION CO., INC.

GLOSSARY

General Building Department concepts

- ICC: The International Code Council. The governing body for the building/development codes used by all jurisdictions who've adopted the ICC guidelines. MOST of the US has done this. Canada, Mexico, and other countries use ICC codes books and guides as well. There are a few states who have added guidelines to the ICC codes to better fit their needs. For example, California has added seismic retrofit requirements for most commercial structures.
- Building Department (Permitting Authority, Building Codes, Inspections Department, Building and Inspections): This is the department in a jurisdiction where an owner or contractor goes to obtain permits and inspections for building, tearing down, remodeling, adding to, re-roofing, moving or otherwise making changes to any structure, Residential or Commercial.
- Jurisdiction: This is the geographic area representing the properties over which a Permitting Authority has responsibility.
- GC: General Contractor. Usually the primary contractor hired for any Residential or Commercial construction work.
- **Sub:** Subordinate contracting companies or subcontractors. Usually a "trades" contractor working for the GC. These contractors generally have an area of expertise in which they are licensed like Plumbing, Electrical, Heating and Air systems, Gas Systems, Pools etc. (called "trades").
- **Journeymen:** Sub contractors who have their own personal licenses in one or more trades and work for different contracting companies, wherever they are needed or there is work.
- HVAC (Mechanical, Heating & Air companies): HVAC = Heating, Ventilation, and Air Conditioning.
- ELEC (Electrical, TempPole, TPole, TPower, Temporary Power, Panel, AMP Change, Power Release):

 Electrical permits can be pulled for many reasons. The most common reason is to increase the AMPs of power in an electrical power panel. This requires a permit in almost every jurisdiction. Other commons reason for Electrical permits is to insert a temporary power pole at a new construction site. Construction requires electricity, and in a new development, power has yet to be run to the lot. The temporary power pole is usually the very first permit pulled for new development. The power is released to the home owner when construction is complete and this sometimes takes the form of a Power Release permit or inspection.
- "Pull" a permit: To obtain and pay for a building permit.
- **CBO:** Chief Building Official
- Planning Department: The department in the development process where the building /structural plans are reviewed for their completeness and compliance with building codes
- **Zoning Department:** The department in the development process where the site plans are reviewed for their compliance with the regulations associated with the zoning district in which they are situated.
- **Zoning District:** A pre-determined geographic boundary within a jurisdiction where certain types of structures are permitted / prohibited. Examples are Residential structure, Commercial/Retail structures, Industrial/Manufacturing structures etc. Each zoning district has regulations associated with it like the sizes of the lots, the density of the structures on the lots, the number of parking spaces required for certain types of structures on the lots etc.
- PIN (TMS, GIS ID, Parcel#): Property Identification Number and Tax Map System number.
- State Card (Business license): A license card issued to a contractor to conduct business.
- **Building Inspector (Inspector):** The inspector is a building department employee that inspects building construction for compliance to codes.
- **C.O.:** Certificate of Occupancy. This is the end of the construction process and designates that the owners now have permission to occupy a structure after its building is complete. Sometimes also referred to as a Certificate of Compliance.

GLOSSARY

Permit Content Definitions

- Permit Number: The alphanumerical designation assigned to a permit for tracking within the building department system. Sometimes the permit number gives clues to its role, e.g. a "PL" prefix may designate a plumbing permit.
- Description: A field on the permit form that allows the building department to give a brief description of the work being done. More often than not, this is the most important field for EP's to find clues to the prior use (s) of the property.
- Permit Type: Generally a brief designation of the type of job being done. For example BLDG-RES, BLDG-COM, ELEC, MECH etc.

Sample Building Permit Data

Date: Nov 09, 2000 Permit Type: Bldg -

New Permit Number: 101000000405 Status: Valuation: \$1,000,000.00

Contractor Company: OWNER-BUILDER

Contractor Name:

Description: New one store retail (SAV-ON) with drive-thru pharmacy. Certificate of Occupancy.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Brad street. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

Inquiry Number: 6798148.7S

DECEMBER 25, 2021

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.

Please contact EDR at 1-800-352-0050 with any questions or comments.

The EDR Property Tax Map Report

EDR Property Tax Map Report

Environmental Data Resources, Inc.'s EDR Property Tax Map Report is designed to assist environmental professionals in evaluating potential environmental conditions on a target property by understanding property boundaries and other characteristics. The report includes a search of available property tax maps, which include information on boundaries for the target property and neighboring properties, addresses, parcel identification numbers, as well as other data typically used in property location and identification.

Thank you for your business.

Please contact EDR at 1-800-352-0050 with any questions or comments.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OR DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT. Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction orforecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

Los Angeles, November 4, 1925

Mr. R. D. Bush, State Oil and Gas Supervisor, San Francisco, California.

Dear Sir:

I have been informed by the scouting department of one of the large oil companies that Lincoln Oil Syndicate No. 1 well No. 1, Sec. 18, T. 3 S., R. 11 W., S.B.B. & M., Los Angeles County, was apudded in on April 15, 1923 and abandoned shortly thereafter, after drilling to a depth of only 27 feet. The rig has been removed.

This information is undoubtedly authentic and therefore, I am closing the records of this well and removing the location from our map.

Yours truly.

HVD-ES

Deputy Supervisor

CALIFORNIA STATE MINING BUSEAU DEPARTMENT OF PETROLEUM AND GAS

Report on Proposed Operations

	No. p-1-5222
Ios Angeles,	Cal. Feb. 5, 1923.
Mr. J. M. NcCadden,	
Los Angeles, Cal.	
Agent for LINCOLN OIL SYNDICATE NO. 1. XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX	
DEAR SIR:	
Your proposal todrillWell No, Section18.	T. 38. R. 11W. S. B. B. & M.
Sents Pe Springs Oil Field Los Angeles	County, dated_Jane_11,1923_,
has been examined in conjunction with records filed in this office.	Received Jan. 31, 1923.
Present conditions as shown by the records and the proposal are as follows:	
THE NOTICE STATES:	10
"The well is 407 feet S., and 905 feet E. from Side lines of The elevation of the derrick floor above sea level is fee	
We estimate that the first productive oil or gas sand should	
of about feet, more or less."	
PROPOSAL:	
"We propose to use the following strings of casing either cen	menting or landing them as
here indicated:	
	th Landed or Cemented
	00 landed 00 landed
	00 landed
It is understood that if changes in this plan become necessary	ary we are to notify you be-
fore cementing or landing casing."	
Recommendation:	
This department is not in possession of sufficient informati	ion to determine the depth at
which oil or gas bearing formations should be encountered at	t this location or the depth
which water should be shut off. The proposal to drill is, therefore, approved with the following the should be shut off.	wing provisions.
This department shall be notified as follows:	
(a) When the first showing of oil or gas is noted in drilling	ıg.
(b) Before landing or cementing any possible water string. Recommendations as to the proper cementing depths for such a	
tective mudding considered necessary will be made when this d	
provided above.	
You will also notify this office to witness a test of shut-	off on each possible water
NOTE: Your attention is called to the fact that the notice	does not sive the elevation
of the derrick floor. We would thank you to furnish	this information at once.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OF DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT. Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

Copyright 2020 by Environmental Data Resources, Inc. All rights reserved. Reproduction in any media or format, in whole or in part, of any report or map of Environmental Data Resources, Inc., or its affiliates, is prohibited without prior written permission.

EDR and its logos (including Sanborn and Sanborn Map) are trademarks of Environmental Data Resources, Inc. or its affiliates. All other trademarks used herein are the property of their respective owners.

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527-21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 10/20/2021 has revealed that there is 1 NPL site within approximately 1 mile of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
OMEGA CHEMICAL CORPO Cerclis ID:: 903349	12504 AND 12512 E. W	N 1/2 - 1 (0.616 mi.)	0	9
EPA Id: CAD042245001				

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 10/20/2021 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 09/13/2021 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

Lists of Federal RCRA generators

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 09/13/2021 has revealed that there are 2 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 09/13/2021 has revealed that there are 5 RCRA-SQG sites within approximately 0.25 miles of the target property.

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 09/13/2021 has revealed that there is 1 RCRA-VSQG site within approximately 0.25 miles of the target property.

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 07/22/2021 has revealed that there are 13 ENVIROSTOR sites within approximately 1 mile of the target property.

Local Lists of Hazardous waste / Contaminated Sites

HIST Cal-Sites: Formerly known as ASPIS, this database contains both known and potential hazardous substance sites. The source is the California Department of Toxic Substance Control. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

A review of the HIST Cal-Sites list, as provided by EDR, and dated 08/08/2005 has revealed that there are 2 HIST Cal-Sites sites within approximately 1 mile of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 09/13/2021 has revealed that there are 27 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

HAZNET: The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000-1,000,000 annually, representing approximately 350,000-500,000 shipments. Data from non-California manifests & continuation sheets are not included at the present time. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, & disposal method. The source is the Department of Toxic Substance Control is the agency. This database begins with calendar year 1993.

A review of the HAZNET list, as provided by EDR, and dated 12/31/2019 has revealed that there are 2 HAZNET sites within approximately 0.001 miles of the target property.

CERS: The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

A review of the CERS list, as provided by EDR, and dated 07/15/2021 has revealed that there are 3 CERS sites within approximately 0.001 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 5 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there is 1 EDR Hist Cleaner site within approximately 0.125 miles of the target property.

Summary Details:

Conditions at Proposal September 29, 1998): The Omega Chemical Corporation Omega) site is a former ha ardous waste treatment and storage facility that operated from 1976 to 1991 on a 40,000-square foot property in Whittier, Los Angeles County, California. Omega conducted solvent recovery using an on-site fractionation and distillation process and operated as a storage and transfer facility for various ha ardous waste classifications. Ha ardous wastes stored on site contained mainly chlorinated and aromatic solvents. In June 1995, before removal activities, the Omega site consisted of thousands of drums of ha ardous waste, two roll-off bins of hardened resin material, hundreds of empty but contaminated drums, numerous cylinders with capacities ranging from 15 to 20,000 pounds, and various other smaller containers of waste and/or ha ardous

1000232419

waste. Inside the on-site warehouse there were hundreds more 55-gallon drums that Omega claimed to be product and assorted smaller containers of ha ardous material. Since 1991, the California Department of Toxic Substances Control DTSC) and EPA s Ha ardous Waste Management Division have been actively trying to get the owner/operator to remove the wastes and clean up the site.In March 1995, the site owner/operator plead guilty to two felony counts of illegal storage and disposal of ha ardous wastes. On May 9, 1995, EPA issued CERCLA Administrative Order No. 95-15 to the owner of Omega and to generators of ha ardous waste that had shipped major quantities of material to Omega. During 1995, EPA s Superfund Emergency Response Office oversaw Phase I removal activities, during which contractors to a responsible party group removed all ha ardous materials and wastes from the site. Phase II site activities began in November 1995 and included collection and analyses of subsurface soil and ground water at the site. Analytical results indicated that subsurface soil samples were mainly contaminated with tetrachloroethene PCE), with lesser amounts of trichloroethene, dichloroethene and other chlorinated hydrocarbons, Freons and metals. PCE contamination was detected in soil at concentrations ranging from 1.9 milligrams per kilogram mg/kg) to 510 mg/kg. Ground water samples collected at the site contained PCE up to 86,000 micrograms per liter as well as significant concentrations of other chlorinated hydrocarbons and Freons. Phase II activities documented the presence of PCE in shallow ground water ina plume that extends almost 1 mile downgradient of the site. Although the ground water samples were collected in the shallow regional aquifer of the Lakewood Formation and most of the municipal drinking water wells draw water from the San Pedro Formation, California Department of Water Resources hydrogeologic cross-sections of the Lakewood and Upper San Pedro Formations indicate that aguifers are interconnected within 2 miles of the site. Eight water purveyors draw ground water from 35 wells within 4 miles of the site to supply drinking water to approximately 284,270 people. The nearest well to the site is 1.3 miles to the west. This and nearly two-thirds of the wells within 4 miles draw water from the Lakewood and Upper San Pedro formation aguifers. The San Gabriel River is the nearest surface water body at approximately 2.5 miles from the site. The site is located in a mixed industrial and residential community, with residences located across Whittier Boulevard tothe northeast. Status January 1999): EPA is considering various alternatives for the site. The description of the site release) is based on information available at the time the site was scored. The description may change as additional information is gathered on the sources and extent of contamination. See 56 FR 5600, February 11, 1991, or subsequent FR notices.

Hazardous Waste Summary:

Waste Code: D001

Waste Description: IGNITABLE WASTE

Waste Code: D002

Waste Description: CORROSIVE WASTE

Waste Code: D028

Waste Description: 1,2-DICHLOROETHANE

Waste Code: D029

Waste Description: 1,1-DICHLOROETHYLENE

Waste Code: D039

Waste Description: TETRACHLOROETHYLENE

Waste Code: D040

Waste Description: TRICHLORETHYLENE

Waste Code: F002

Waste Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE,

METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE,

CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE,

ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2,

TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND

SPENT SOLVENT MIXTURES.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

corrective action activities required under RCRA.

Environmental Interest/Information System:

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the

discharge does not adversely affect water quality.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of

events and activities related to facilities that generate, transport,

and treat, store, or dispose of hazardous waste, RCRAInfo allows RCRA

program staff to track the notification, permit, compliance, and

corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal

facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

corrective action activities required under RCRA.

Violation Description: Failure to have an approved UST Monitoring Plan.

Violation Notes: Returned to compliance on 04/25/2019.

Violation Division: Los Angeles County Department of Public Works

Violation Program: UST Violation Source: CERS

Site ID: 104762

Site Name: CHEVRON #9-2149

Violation Date: 01-04-2019

Citation: 23 CCR 16 2716(e) - California Code of Regulations, Title 23, Chapter

16, Section(s) 2716(e)

Violation Description: For designated operator (DO) monthly inspections conducted before

October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded

to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of

liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30

days.

Violation Notes: Returned to compliance on 04/25/2019.

Chapter 16, Section(s) 2712(b)(1)(G)

Violation Description: Failure to comply with one or more of the following overfill

prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet

equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1,- 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain

records of overfill prevention equipment inspection for 36 months.

Citation: 23 CCR 16 2712(b)(1)(F) - California Code of Regulations, Title 23,

Chapter 16, Section(s) 2712(b)(1)(F)

Violation Description: "Failure to conduct secondary containment testing, or one or more of

the following requirements: Perform the test of the secondary containment system upon installation, within six months of installation and every 36 months thereafter. Perform the test of a secondary containment component within 30 days of a repair or discontinuing vacuum, pressure or hydrostatic monitoring. Use a procedure that demonstrates the system works as well as at installation. Use applicable manufacturer guidelines, industry codes, engineering standard or professional engineer approval. Performed by

engineering standard, or professional engineer approval. Performed by a certified service technician. Maintain records of secondary

containment testing for 36 months."

23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Citation:

Chapter 16, Section(s) 2712(b)(1)(G)

Failure to comply with one or more of the following overfill Violation Description:

> prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention

equipment that does not use flow restrictors on vent piping to meet

overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1,- 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain

records of overfill prevention equipment inspection for 36 months. NO EMERGENCY SHUTT-OFF. NO PUMP SHUT DOWN WITH SENSOR TRIGGERED. NO

AUDIO/ VISUAL ALARMS ON SENSORS. REPAIR AND SUBMIT.

product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October-1,-2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

09-20-2017 Violation Date:

22 CCR 11 66261.7 - California Code of Regulations, Title 22, Chapter Citation:

11, Section(s) 66261.7

Failure to manage empty containers greater than 5 gallons in capacity Violation Description:

that previously held a hazardous material/waste in accordance with 22 CCR 11 66261.7 including but not limited to the following: (e)(2)By reclaiming its scrap value onsite or shipping the container or inner

liner to a person who reclaims its scrap value; or (3) By

reconditioning or remanufacturing the container or inner liner onsite for subsequent reuse, or shipping the container or inner liner to a person who reconditions or remanufactures the container or inner liner; or (4) By shipping the container or inner liner to a supplier or to another intermediate collection location for accumulation prior to managing the container or inner liner pursuant to subsections (e)(2) or (e)(3) of this section; or (i) By shipping the container or inner liner back to the supplier for the purpose of being refilled. (f) A container or an inner liner removed from a container larger than five gallons in capacity which is managed pursuant to subsection (e) of this section shall be marked with the date it has been emptied and

shall be managed within one year of being emptied.

Violation Notes: Returned to compliance on 12/27/2017, OBSERVATION: One empty 55 gallon

drum was observed inside the hazardous waste cabinet without label. CORRECTIVE ACTION: Submit photos/documentation to this department demonstrating that the empty containers listed above have been marked with the date they were emptied and are being properly managed

pursuant to 22 CCR 11 66261.7.

Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter

6.95, Section(s) 25508(a)(1)

Violation Description: Failure to annually review and electronically certify that the

business plan is complete and accurate on or before the annual due

date.

Violation Notes: Returned to compliance on 10/11/2017. OBSERVATION: The business failed

to electronically submit and certify that the business plan is

complete, accurate, and in compliance with EPCRA on or before the annual due date. Review of the California Environmental Reporting System (CERS) database revealed the last submittal was on 3/31/2015. CORRECTIVE ACTION: Electronically submit and certify that the business plan is complete, accurate, and in compliance with EPCRA within 30 days. On an ongoing basis, electronically submit and certify the

business plan annually on or before the annual due date.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

corrective action activities required under RCRA.

Violation Date: 04-26-2018

Citation: HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95,

Section(s) 25507

Violation Description: Failure to adequately establish and implement a business plan when

storing/handling a hazardous material at or above reportable

quantities.

Violation Notes: Returned to compliance on 10/19/2018. OBSERVATION: The business failed

to establish and implement a business plan when handling hazardous materials at or above the reportable threshold quantities. Observed a Realstar KM503 dry cleaning machine with a total capacity of 126 gallons for solvent CORRECTIVE ACTION: Establish and implement a business plan for the facility. Submit documentation of correction to

the unified program agency.

Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter

12, Section(s) 66262.12

Violation Description: Failure to obtain an Identification Number prior to treating, storing,

disposing of, transporting or offering for transportation any

hazardous waste.

Violation Notes: Returned to compliance on 11/08/2018. OBSERVATION: The generator has

not obtained an active EPA ID number to manage hazardous waste. A

hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without an active EPA ID number. Observed an inactive EPA ID under the old ownership. New owner submitted an online request for a new EPA ID at the time of inspection. CORRECTIVE ACTION: Submit documentation to the

CUPA demonstrating that you have obtained an EPA ID number.

Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter

6.5, Section(s) 25123.3(h)(1)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or

disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month

if all of the following conditions are met: (1) The quantity of

hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount

greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 06/17/2019. OBSERVATION: A 30 gallon drum

containing oily sludge stored by the back door of the facility with an accumulation dated 2011. New owner will contact licensed hazardous

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal

facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport,

and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA

program staff to track the notification, permit, compliance, and

corrective action activities required under RCRA.

for transport shall be kept until receiving a signed copy from the

designated facility which received the waste.

Violation Notes: Returned to compliance on 12/03/2020. OBSERVATION: Copies of waste

disposal records (manifest/bill of lading/receipts, etc) were not available at the time of inspection for the following: - used oil - drained oil filters - retail hazardous wastes including but not limited to flammable, aerosol, alkaline, ignitable/toxics, acidic, reactive - universal waste Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three (3) years and have them readily available for review. CORRECTIVE ACTION: Locate the copies of the hazardous waste disposal records (manifest/bill of lading/receipts, etc) for the last 3 years and send a copy via email to CUPA inspector. Complete then submit the Certification of Compliance via email to CUPA inspector on or before

the compliance date

Violation Division: Los Angeles County Fire Department

Violation Source: CERS

Site ID: 53103

Site Name: O'REILLY AUTO PARTS #3075

Violation Date: 11-02-2020

Citation: 40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter

1, Section(s) 265.31

Violation Description: Failure to maintain and operate the facility to minimize the

possibility of a fire, explosion, or any unplanned sudden or

non-sudden release of hazardous waste or hazardous waste constituents

to air, soil, or surface water which could threaten human health or

the environment.

Violation Notes: Returned to compliance on 12/03/2020. OBSERVATION: A canister with

missing spray nozzle containing refrigerant and three 1-gallon jug used to store antifreeze were stored on the shelf for haz waste

storage bins. CORRECTIVE ACTION: Submit a photo showing hazwaste are

properly managed. Complete, sign and send a copy of the Certification

of Compliance by email.

Violation Program: HW
Violation Source: CERS

Site ID: 53103

Site Name: O'REILLY AUTO PARTS #3075

Violation Date: 11-02-2020

Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter

6.5, Section(s) 25123.3(h)(1)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or

disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month

if all of the following conditions are met: (1) The quantity of

hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount

greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 12/03/2020. OBSERVATION: A haz waste bin

labeled Green - Aerosol with accumulation start date of 6/10/2019. Operator unable to locate copy of hazardous waste disposal record.

Site History: Precision Control Plating (Facility) has been involved since 2000 in

> cadmium plating, zinc nickel plating, chemical conversion, and passivation. The Facility completed and submitted to the Los Angeles Water Board a "Chrome Plating Facilities Chemical Storage and Use Questionnaire" (CUQ). Based on the information provided in the CUQ and information available on the South Coast Air Quality Management District's website, on September 2, 2020, the Los Angeles Water Board issued a "No Further Action for Per-and Polyfluoroalkyl Substances

(PFAS) Investigation".

Completed Document Type: Removal Action Completion Report

Completed Date: 06/14/1994

Comments: Approximately 15 cubic yards of soil contaminated with Lindane was

excavated from an area within the chemical storage shed. The cinder block and concrete adjacent to the excavation were also chipped to remove contamination. The contaminated soil and cement were disposed at Laidlaw Environmental's Imperial Valley facility and USPCI's Utah

facility.

EDR ID Number

Completed Sub Area Name: Not reported

Completed Document Type: Preliminary Endangerment Assessment Report

Completed Date: 03/16/1994

Comments: The PEA phase completed with "No Further Action" recommend- ation.

The 16 x 5 x 5 feet block of cement and soil contaminated with lindane was removed and backfilled upon completion of the PEA phase. Portions of block wall and concrete adjacent to excavation area were chipped to remove residual contamination. Trace level of lindane remaining in concerte wall below surface level does not constitute a

threat to human health or the environment.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 06/24/1993

Comments: City of Norwalk reps submitted letter of intent to conduct a PEA at

the City of Norwalk Transportation yard. PEA is to cover solely the chemical storage yard. Analytical data indicates that a release Lindane has occurred within a 8x4x3 area. City intends to remdiate

prior to submittal of pea.

Completed Document Type: * CEQA
Completed Date: 05/08/1995

Comments: The final Remedial Action Plan and the CEQA documents for the Neville

Chemical Company site were approved as final. A range of technologies was evaluated in the FS Report for remediating the site and six altenatives were developed. Of the six, Capping with Groundwater Containment and Treatment was selected by DTSC and Neville Chemical Company. The selected alternative consists of three components: 1) instituting access controls and deed restrictions; 2) repairing and maintaining the existing asphalt and concrete surface on the NCC Facility, inspection and maintenance of the existing cap on the Santa Fe Springs Parcel as part of future O&M activity, and grading of the NCC Leasehold to minimize ponding/infiltration; and 3) operating the ground- water containment and treatment system originally designed as an interim removal action. Construction of the groundwater extraction and treatment system started on April 25, 1995. Operations of this

system started on December 18, 1998.

Completed Document Type: * CEQA
Completed Date: 05/08/1995

Comments: The final Remedial Action Plan and the CEQA documents for the Neville

Chemical Company site were approved as final. A range of technologies was evaluated in the FS Report for remediating the site and six altenatives were developed. Of the six, Capping with Groundwater Containment and Treatment was selected by DTSC and Neville Chemical Company. The selected alternative consists of three components: 1) instituting access controls and deed restrictions; 2) repairing and maintaining the existing asphalt and concrete surface on the NCC Facility, inspection and maintenance of the existing cap on the Santa Fe Springs Parcel as part of future O&M activity, and grading of the NCC Leasehold to minimize ponding/infiltration; and 3) operating the ground- water containment and treatment system originally designed as an interim removal action. Construction of the groundwater extraction and treatment system started on April 25, 1995. Operations of this

system started on December 18, 1998.

with the cleanup.

Site Description: Neville Chemical Company is a former chemical manufacturing and sales facility.

It is owned by Neville Chemical Company which is located on Neville Island,

Pittsburgh, PA.

Hazardous Waste Desc: Dichlorobenzenes (DCBs), dibenzodioxins (TCDD, PCDD), and dibenzofurans (TCDF,

> PCDF) are the primary contaminants detected in soils at the site. Other contaminants are chlorinated paraffins, carbon tetrachloride, and metals. Dichlorobenzenes have been detected in the ground water beneath the site. The site is approximately 100 yards from a residential area. Contaminant

Threat To Public Health & Env:

migration is possible via airborne emissions and ground water. The former is limited due to the facility ceasing operation in November, 1987 and as most site areas are paved. The upper aquifer is as shallow as 90 feet and is

Direction Distance

EDR ID Number Elevation Site Database(s) **EPA ID Number**

NEVILLE CHEMICAL COMPANY (Continued)

S100833286

contaminated; deeper aquifers are used for domestic water supply. There is no

known exposure at this time.

Neville initiated remedial investigation site activities in February, 1988. The Site Activity Status:

Phase I remedial investigation report was completed in December, 1988.

Alternate Address: 12800 EAST IMPERIAL HIGHWAY
Alternate City,St,Zip: SANTA FE SPRINGS, CA 90670

Alternate Address: 12800 IMPERIAL HWY

Alternate City, St, Zip: SANTA FE SPRINGS, CA 90670

Background Info:

earthen trenches, burial of drums containing hazardous wastes, and significant leaks and product spills. The major contaminants include DCB, benzene, carbon tetrachloride,

xylene, toluene, dioxin, furan, and HCI. These contaminants are found throughout the facility to depths of approximately 100 feet. The areas exhibiting the greatest contamination include former tank, still, and trench locations, and product loading areas. Possible exposure pathways include direct contact, groundwater, surface water, and air (although much of the site is capped). Possible receptors include onsite workers and visitors, groundwater users, and neighboring residents if contaminated soil is disturbed. Air

has been monitored at the site and does not exhibit excessive emissions. Exposures from the other pathways are not occurring at this time.

Six previous investigations were conducted prior to the present RI. These investigations were conducted by EPA, Los Angeles County, DHS, and Cal OSHA. Cleanup activities to date (1985-1989) have included demolition of the facility and removal of all surface structures, tanks, and equipment. All sumps and trenches have been cleaned and filled with sand. Except for former tank and reactor locations, the

facility is capped.

The RI/FS, including a Risk Assessment, was approved on December 16, 1994.

The final RAP and CEQA docs were approved on May 8, 1995. The selected remedy includes capping of the Neville facility, recontouring of the Neville leasehold, operation of the groundwater treatment system, and deed restriction. The Remedial Action Workplan/Design was approved on March 26.1996.

Remedial Action implementation pursuant to the RAP was completed on October 21, 1996.

The Engineer's Certification of Completion Report was completed on January 28, 1997. This certification is for the capping, grading and fencing of the Neville Site pursuant to the approved RAP.

The Operation and Maintenance Plan, for the remedies implemented pursuant to the approved Remedial Action Plan, was approved on August 12, 1997.

Not reported

The environmental deed restrictions were recorded on August 29,

Neville Chemical Company is a former chemical manufacturing facility which operated from the 1950s through 1988. The facility produced chlorinated paraffins, dichlorobenzene (DCB), and hydrochloric acids (HCL). The site is signifi-

Comments: The Department received a notification from Mr. Michael L. Coates,

Attorney representing Mr. Conrad Baker, the Receiver appointed by the Los Angeles Superior Court. The correspon- dence includes a Phase II Environmental Assessment Report and Additional Phase II Environmental Assessment and Subsurface Investigation Report. The soil and groundwater at the site are contaminated with several chemicals. The most prevalent compounds detected in the soil are methane, acetone, chlorobenzene, dichlorobenzenes (1,2-DCB, 1,3-DCB and 1,4-DCB) and ethylbenzene. Other compounds detected in the soil including some pesticides (4,4-DDD, 4,4-DDE and methoxychlor) and PCBs. TRPH in concentrations exceeding 1,000 mg/kg were also found in the soil. Hydrocarbon contaminants detected in the soil were also found in the groundwater. In addition, benzene, bis(2-ethylhexyl) phthlate, cis-1,2-dichloroethane and dimethyl-phthalate were also found in groundwater. The subject property is currently occupied by Polymer Concepts, a blow molding company which manufactruing plastic drums and trash containers and recycles 5-gallon plastic containers used for commercially bottled water. A Unocal oil pipeline runs east-west a few feet south of the build-ings. Former Neville Chemical Company (NCC), which used to manufacture chlorinated paraffins, lies west of the subject property. NCC is a California Superfund site in which various chemical contaminants related to previous operations have been detected in the soil and groundwater. Also, Kalico #2 landfill underlies the southern area of the subject site. Due to evidence of contamination at the site, staff recommends a PEA. The Department

notified the Receiver that a PEA be conducted to determine whether conditions at the site present a threat to public health or the

environ- ment.

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 09/13/2021 Date Data Arrived at EDR: 09/15/2021 Date Made Active in Reports: 10/12/2021

Number of Days to Update: 27

Source: Environmental Protection Agency

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 09/13/2021 Date Data Arrived at EDR: 09/15/2021 Date Made Active in Reports: 10/12/2021

Number of Days to Update: 27

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation
and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database
includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste
as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate
less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 09/13/2021 Date Data Arrived at EDR: 09/15/2021 Date Made Active in Reports: 10/12/2021

Number of Days to Update: 27

Federal institutional controls / engineering controls registries

LUCIS: Land Use Control Information System

LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 07/12/2021 Date Data Arrived at EDR: 08/06/2021 Date Made Active in Reports: 10/22/2021

Number of Days to Update: 77

Source: Department of the Navy Telephone: 843-820-7326 Last EDR Contact: 11/08/2021

Next Scheduled EDR Contact: 02/21/2022 Data Release Frequency: Varies

US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 08/23/2021 Date Data Arrived at EDR: 08/23/2021 Date Made Active in Reports: 11/12/2021

Number of Days to Update: 81

Source: Environmental Protection Agency

Telephone: 703-603-0695 Last EDR Contact: 11/18/2021

Next Scheduled EDR Contact: 03/06/2022 Data Release Frequency: Varies

US INST CONTROLS: Institutional Controls Sites List

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 08/23/2021 Date Data Arrived at EDR: 08/23/2021 Date Made Active in Reports: 11/12/2021

Lists of state- and tribal (Superfund) equivalent sites

RESPONSE: State Response Sites

Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity.

These confirmed release sites are generally high-priority and high potential risk.

Date of Government Version: 07/22/2021 Date Data Arrived at EDR: 07/22/2021 Date Made Active in Reports: 10/08/2021

Number of Days to Update: 78

Source: Department of Toxic Substances Control

Telephone: 916-323-3400 Last EDR Contact: 10/26/2021

Next Scheduled EDR Contact: 02/07/2022 Data Release Frequency: Quarterly

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Date of Government Version: 07/22/2021 Date Data Arrived at EDR: 07/22/2021 Date Made Active in Reports: 10/08/2021

Number of Days to Update: 78

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

USGS TOPOGRAPHIC MAP

Target Property Map: 11997982 WHITTIER, CA

Version Date: 2018

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

- 1. Groundwater flow direction, and
- 2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General South

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

underlying the site.

Sole Source Aquifer: No information about a sole source aquifer is available
Data Quality: Information based on site-specific subsurface investigations is

documented in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

LOCATION GENERAL DIRECTION

MAP ID FROM TP GROUNDWATER FLOW

Not Reported

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

GEOLOGIC AGE IDENTIFICATION

Era: Cenozoic Category: Stratifed Sequence

System: Quaternary Series: Quaternary

Code: Q (decoded above as Era, System & Series)

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: URBAN LAND

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 10 inches

Depth to Bedrock Max: > 10 inches

Soil Layer Information							
	Bou	ndary		Classif	ication		
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: loam

clay silt loam loamy sand sandy loam fine sand clay loam

gravelly - sandy loam

coarse sand gravelly - sand

sand

Surficial Soil Types: loam

clay silt loam loamy sand sandy loam fine sand clay loam

gravelly - sandy loam coarse sand

Shallow Soil Types: fine sandy loam

gravelly - loam

sand silty clay

Deeper Soil Types: stratified

clay loam silty clay loam gravelly - sandy loam

coarse sand

sand

weathered bedrock very fine sandy loam

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory Source: Department of Fish and Wildlife

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program

State Water Resources Control Board

Telephone: 916-341-5577

The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations

Appendix D. Questionnaire

March 2022 PlaceWorks

Appendix

This page intentionally left blank.

PlaceWorks March 2022

Environmental Site Assessment Questionnaire for Client

The following information is requested to evaluate the potential for environmentally related impacts and property contamination. This questionnaire is to be completed by the User of the Phase I Environmental Site Assessment, as defined by ASTM E-1527-13, or its authorized representative.

PART I

- Project description: Primestor is proposing the construction of a mixed-use development of two buildings. The proposed project would include approximately 400 dwelling units and approximately 150,000 square feet of nonresidential space. Development of the proposed project would require removal of the existing City Hall Lawn and surface parking lot. The Client requested the preparation of a Phase I Environmental Site Assessment (ESA) as part of its due diligence responsibilities for the proposed project.
- 2. <u>Property address(es) and Assessor Parcel Number(s) (APN)</u>: The project site is located at the southeast corner of the intersection of Imperial Highway and Norwalk Boulevard, Norwalk, Los Angeles County, California. The APNs for the project site are 8047-006-922, 8047-006-924, 8047-006-925 and apportion of 8047-006-927.
- 3. <u>Current property owner (name, address, telephone number)</u>:
 The City of Norwalk currently owns the parcels associated with 8047-006-922, 8047-006-924, 8047-006-925 and the County of Los Angeles is the landowner associated with APN 8047-006-927.
- 4. <u>Current property development/improvements</u>: The project site currently contains City Hall, City Hall Lawn, a paved parking lot and parking structure.
- 5. <u>Date(s) of current property development/improvements</u>: The project site appears to have been utilized for row crop agriculture from at least 1928 until around 1963. City Hall was constructed around 1972.
- 6. <u>Past property use, development/improvements</u>: No identified land uses prior to 1928 Topographic maps show one structure on the project site in 1923, but the structure is removed around 1942. City Hall, City Hall Lawn, and parking lots were constructed by 1972.
- 7. <u>Neighboring property uses</u>: Norwalk Courthouse is south of the project site, commercial properties are north, commercial, and multifamily residential are west of the project site, and the Norwalk Library and Los Angeles County Register Recorder buildings are east of the project site.

Specific Questions:

Could you provide the size of the diesel underground storage tank located on the east side of the building and confirm if the fuel is for the emergency generator only? UST is 4,000 gallon and dedicated to the emergency generator.

What is the type of mechanism used for the elevator in City Hall and the elevator in the parking structure? Freight elevator is Hydro-Electrict, Hydraulic cylinder for the lifting mechanism.

PART II

1.	Are you aware of any environmental cleanup liens against the property that are filed under federal, tribal, local, or state law?	Yes	No
2.	Are you aware of any activity and land use limitations, such as engineering controls, land use restrictions, or institutional controls that are in place at the property and/or have been filed or recorded in a registry under federal, tribal, state, or local law?	Yes	No
3.	Do you have any specialized knowledge or experience related to the <i>property</i> or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the <i>property</i> or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?	Yes	No
4.	Are you aware of any commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example,	Yes	No
	(a) do you know of specific chemicals that are present at the property?		
	(b) do you know of spills or other chemical releases that have taken place at the property	?	
	(c) do you know of any environmental cleanups that have taken place at the property?		
5.	Based on your knowledge and experience related to the <i>property</i> , are there any obvious indicators that point to the presence or likely presence of contamination at the <i>property?</i>	Yes	No
6.	If a property transaction is occurring in conjunction with this environmental assessment, does the purchase price of this <i>property</i> reasonably reflect the fair market value of the <i>property?</i> If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the <i>property?</i>	Yes	No
7.	Are you aware of any past or present above ground or underground storage tanks on the <i>property</i> ? To your knowledge, has there ever been any hazardous substances or wastes stored on the <i>property</i> ?	Yes	No
8.	Does the Client have any additional environmental investigation reports for the project site? For example, when the property was acquired.	Yes	No
	"Yes" response was provided to Questions $1-5$ or a "No" response was provided to Questiovide details below:	ion 6,	olease
	ify that the information provided herein is true and correct to the best of my knowled signed below.	ge as	of the

PlaceWorks March 2022

DENISE CLENDENING, PhD

Associate Principal, Site Assessment Services

Denise has over 27 years of experience providing technical oversight and performing human health risk assessments, site assessments, and investigations of chemical waste at multiple sites including Resource Conservation & Recovery Act (RCRA) and Superfund sites. She is adept at applying alternatives that are economical yet protective of human health and the environment. She conducts realistic assessments and calculates target cleanup levels based on site-specific exposure scenarios. Her work has involved pesticides, heavy metals, solvents, and petroleum-contaminated soils. She assists multiple school districts in California with site assessment, public relations, and the Department of Toxic Substance Control (DTSC) school site approval process. She participates in public hearings and school board meetings and coordinates her projects with the CEQA process.

Before joining PlaceWorks, Denise managed large divestiture environmental due diligence projects for the electric power industry and was involved in numerous environmental projects for oil field operation. Her experience also includes the development and testing of risk assessment software and teaching training courses in risk assessment using different software programs.

Denise has established a very good reputation with regulatory agencies and negotiates risk-related issues on behalf of her clients. She is a member of the Los Angeles Regional Water Quality Control Board Underground Storage Tank Advisory Board and has extensive experience with site closure activities with the DTSC, Environmental Protection Agency, Regional Water Quality Control Boards, and local oversight agencies throughout California.

HIGHLIGHTS OF EXPERIENCE

ENVIRONMENTAL & HEALTH RISK ASSESSMENTS

- » Xerox Corporation Preliminary Environmental Assessment and Health Risk Assessment | Santa Ana CA
- » Human Health Risk Evaluation, Literature Research for American Petroleum Institute
- » City of Redlands Health Risk Assessment | Redlands CA
- » Caltrans Risk Assessment and Groundwater Impact Analysis | California
- » Risk Assessments and Indoor Air Sampling for Confidential Client(s) | Various Locations
- » Human Health & Ecological Risk Assessment Technical Review | Various Locations
- » Landfill Risk Assessments | Various Locations
- » Risk Assessments for Pesticide Contaminated Soil | Various Locations
- » Human Health Risk Assessment for Confidential Mineral Resources Client | Arizona
- » Human Health Risk Assessment at Whites Point Nike Missile Site | Los Angeles County CA
- » Human Health Risk Assessment at Fort MacArthur | Los Angeles County CA

EDUCATION

- » PhD, Soil Physics, University of California, Riverside
- » MS, Soil Science, University of California, Riverside
- » BS, Geology, University of California, Riverside

CERTIFICATIONS

» Oil Spill Response Training

AFFILIATIONS

- » Soil Science Society of America
- » American Geophysical Union
- » American Chemical Society
- » Society of Risk Analysis
- » Coalition of Adequate School Housing

Team member since 2005

SITE ASSESSMENTS

- » Site Remediation for Hull Middle School | Torrance CA
- » PEA for New High School, William S. Hart UHSD | Castaic CA
- » Phase I for Property at East Briar Drive | San Bernardino County CA
- » PEA for Stella Academy Middle School | Los Angeles CA
- » Phase I for Valley Boulevard Widening | City of Industry CA
- » Oil Field Preliminary Environmental Assessment | Culver City CA
- » Lead-Based Paint Evaluations | Various Locations
- » Cogeneration Facilities Permit Applications | Various Locations throughout California
- » NRG Energy Environmental Due Diligence Investigations | California
- » AES Environmental Due Diligence Work Plans | California
- » Remedial Investigation and Remedial Action for Jersey Avenue Elementary School Site (Congresswomen Grace Napolitano presented award for special congressional recognition for project), Little Lake City School District | City of Santa Fe Springs CA
- » Preliminary Environmental Assessments for over 100 school sites throughout California
- » Phase I ESA and PEAs for four school sites, Moreno Valley USD
- » Phase I ESAs, PEAs, SSIs and RAWs for eight school sites, San Bernardino County Superintendent of Schools
- » Phase I ESA for Elementary School No. 19, Rialto USD
- » PEA and SSI for the New High School No. 3 Site, Colton Joint USD
- » Phase I ESA and PEAs for four school sites, Lynwood USD
- » Phase I ESA for the Proposed Elementary School No. 8, San Ysidro School District
- » Phase I ESA for the Proposed K-8 Parker Dam School, Needles USD
- » PEAs for three school sites and environmental and legislative support services, Santa Ana USD
- » Phase I ESA, PSHA, and PEA for Community Day School, Eastside USD
- » PEAs for five school sites in Clovis | Clovis CA
- » PEA for redevelopment project for the City of South Gate | South Gate CA
- » Phase I ESA for Arrowhead Springs Resort I | San Bernardino CA
- » Phase I ESA for two Charter Schools for Green Dot Public Schools | Los Angeles CA
- » Phase I and Phase II ESA for Former Service Station | Los Angeles CA
- » Phase I ESAs, PEA, SSIs, and fill testing for multiple school sites, Pomona USD
- » PEA and methane gas testing, Encinitas USD
- » Phase I ESA and lead testing for multiple sites, Fontana USD
- » Proponent's Environmental Assessment for PUC | Long Beach CA
- » Initial Site Assessments for Street Widening Projects | Santa Ana CA
- » Phase I ESAs for Renaissance Community Fund | Corona CA

TITLE 5/CDE RISK ASSESSMENTS

- » Geohazard Assessment for Inglewood Site, Today's Fresh Start Charter School
- » PEAs and Title 5 Assessments for three school sites, Redlands USD
- » Title 5 Compliance Study Reports for four sites, Whittier Union High School District
- » Prairie Vista Lead Testing, Hawthorne USD
- » Environmental Support and Risk Assessment for school sites, San Dieguito Union High School District
- » Human Health Risk Assessment School Site, Pomona USD
- » Title 5 Hazard and Constraints Analysis for four school sites, Irvine USD
- » Title 5 Hazard and Constraints Analysis for school site, Rialto USD

DENISE CLENDENING

Associate Principal dclendening@placeworks.com

DANIELLE CLENDENING

Project Planner

Danielle is a quick study. In a relatively short period of time, she has proven herself amongst principals, senior managers, and peers to be a highly versatile planner and valuable member both our Planning and Environmental teams. On the Planning side, Danielle has shown interest and aptitude in housing and the preparation of housing studies. A highly effective researcher, analyst, and writer with strong attention to detail, Danielle is already adept at census data and statistics organization and presentation, rental housing and accessory dwelling unit (ADU) surveys, and land inventory analysis. She has significantly contributed to housing element updates for the cities of La Habra, San Dimas, Yucaipa, Palm Springs, and Moorpark.

Danielle began her professional career and also still assists the Environmental Planning and Technical Services Group with CEQA research, analysis, and writing of CEQA compliance documentation and various technical studies, including environmental site assessments, geology and hazards assessments, operations and maintenance reports, and removal action workplans and completion reports for private- and public-sector clients, including local jurisdictions, school districts and private developers throughout California.

HIGHLIGHTS OF EXPERIENCE

COMPREHENSIVE PLANNING

- » La Habra Housing and Safety Elements Update | La Habra CA
- » Moorpark Housing Element Update | Moorpark CA
- » Palm Springs Housing Element Update | Palm Springs CA
- » San Dimas Housing Element Update | San Dimas CA
- » Yucaipa Housing Element Update | Yucaipa CA
- » Contract Planning and CEQA Staff Assistance | Wildomar CA

ENVIRONMENTAL PLANNING

- » Midtown Specific Plan EIR Addendum | Long Beach CA
- » Century Villages EIR and Technical Studies | Long Beach CA
- » LA Countywide Voting Systems Assessment | Los Angeles County
- » Health Risk Assessment for New Child Care Facility at SR-133 | Irvine CA
- » Relinquished SR 84 Complete Streets Project | Fremont CA
- » Categorical Exemption for Irvine Animal Care Center Expansion | Irvine CA
- » Creekside Planned Community EIR | San Juan Capistrano CA
- » Whitmore Village Residential Development IS/MND | Monterey Park CA
- » Penske Dealership IS/MND | Industry CA
- » Moreno Elementary School Replacement IS/MND | Moreno Valley CA
- » CEQA for Promenade School Site Acquisition | Dublin CA
- » Grand View Elementary School Renovation IS/MND | Manhattan Beach CA
- » Jackson Ranch Specific Plan EIR and Technical Services | Kings County CA
- » Residential Project at 11752 Beach Boulevard | Stanton CA
- » Biological Report Review for Royal Golf Course | Rowland Heights CA

EDUCATION

- » Master of Urban & Regional Planning, California Polytechnic State University, Pomona
- » BA, History and Minor in Anthropology, University of California, Santa Cruz

Team member since 2018

PHASE I ENVIRONMENTAL SITE ASSESSMENTS

- » Longfellow Elementary School Expansion Parcels | Riverside CA
- » Phase I and Addendum for Bright Star School Site | Los Angeles CA
- » Eastside School | Riverside CA
- » Proposed Nuview School District Expansion | Nuevo CA
- » Proposed Rise Kohyang High School | Los Angeles CA
- » Granite Hills High School Expansion Parcels | Apple Valley CA
- » Solana Vista Elementary School Modernization Project | Solana Beach CA
- » Parcel Located at 120 East 3rd Street | Perris CA
- » Baseline Parcel | Fontana CA
- » Proposed Residential Development at 11752 Beach Boulevard | Stanton CA
- » LaVerne Elementary Preparatory Academy | Hesperia CA
- » Age Qualified Community English Road | Chino Hills CA
- » Proposed School District Office | Colton CA

GEOLOGIC AND ENVIRONMENTAL HAZARD ASSESSMENTS

- » Proposed Rise Kohyang High School | Los Angeles CA
- » Proposed Promenade School Site | Dublin CA
- » Napa Vintage High School Site | Napa CA
- » Heritage Fields K-8 School #2 Site B | Irvine CA
- » Potential School Site | Lake Forest CA

PRELIMINARY ENVIRONMENTAL ASSESSMENTS

- » Proposed Nuview School | Nuevo CA
- » Proposed Moreno Valley Elementary School-Nason Street | Moreno Valley CA
- » Eastside School | Riverside CA
- » Heritage Fields K-8 School #2 Site B | Irvine CA
- » Wedgeworth Elementary School Site | Hacienda Heights CA

OPERATIONS AND MONITORING AND INSPECTION REPORT

- » Murray Middle School-Burial Cell | Ridgecrest CA
- » Gas Mitigation System Monitoring for New High School | El Segundo CA
- » Hull Middle School | Torrance CA
- » New Middle and Elementary School | San Jacinto CA
