Form F

Summary Form for Electronic Document Submittal

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #:	0186	
Project Title:	ordova Park Underground Cable Replacement Project	
Lead Agency: <u>Sa</u>	acramento Municipal Utility District (SMUD)	
Contact Name: _	Rob Ferrera	
Email: <u>rob.ferrer</u>	a@smud.org	_ Phone Number:
Project Location:	Rancho Cordova, Sacramento County	
	City	County
Project Descripti	on (Proposed actions, location, and/or consequences).	

SMUD replaces aging electrical infrastructure as part of its routine maintenance and upgrade protocols. Accordingly, SMUD proposes to install approximately 0.6 miles of 12 kilovolt (kV) underground cable, approximately 2.12 miles of 69kV underground cable and up to 13 new utility vaults in the City of Rancho Cordova, near the location of existing 12kV and 69kV underground cables that are approaching the end of their operational lives. Installation of the new cable, conduit and utility vaults would be done by open trenching. Where possible, the new conduit will be installed to align with the existing cable, which would be abandoned in place.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Substantial adverse change in the significance of a Tribal cultural resource, including human remains. MMs: Avoid TCRs through Project Design; Prepare and implement worker cultural resources awareness and respect training program; Implement Tribal and Archaeological Monitoring; Halt Ground Disturbance Upon Discovery of Subsurface Tribal Cultural Resources and Evaluate Discovered Resource. Change the significance of a known archaeological resource. MM: Establish Work Exclusion Zones to Avoid Archeological Features. Change the significance of unknown archaeological resources. MMs: Halt Ground-Disturbing Activity Upon Discovery of Archaeological Resources and Evaluate Discovered Resource; Implement Native American and Archaeological Monitoring. Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard. MM: Implement SMAQMD Basic Construction Emission Control Practices. Result in the Loss of or Disturbance of Valley Elderberry Longhorn Beetle and Habitat. MM: Avoid and protect elderberry shrubs. Disturbance of nesting Swainson's hawk, white-tailed kite, or other avian species. MM: Avoid disturbance of Ordinances intended to protect biological resources. MM: Tree Protection. Conflict with a program, plan, ordinance or policy addressing the circulation system, including transit, roadway, bicycle, and pedestrian facilities. MM: Traffic Control Plan.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

- potential impacts to Tribal Cultural Resources;
- need for AB 52 and SB 18 compliance; and
- potential impacts to biological resources

Provide a list of the responsible or trustee agencies for the project.
