NOTICE OF PREPARATION CIVIC CENTER MASTER PLAN PROJECT

Date: May 9, 2022

To: State Clearinghouse and Interested Parties

From: City of Moorpark Parks, Recreation, and Community Services Department

Subject: Notice of Preparation (NOP) of a Draft Program Environmental Impact Report (EIR) for

the Civic Center Master Plan Project

The City of Moorpark (City) is the lead agency and will prepare an Environmental Impact Report (EIR) for the Civic Center Master Plan Project (Project). The City is soliciting comments from reviewing agencies and the public regarding the scope and content of the EIR. For reviewing agencies, the City requests comments with respect to your agency's statutory responsibility as related to the Project in accordance with California Code of Regulations, Title 14, Section 15082(b). Your agency may need to use the EIR when considering relevant permits or other approvals for the Project. The City is also seeking the input of residents, property owners, and concerned citizens regarding environmental issues that should be addressed in the EIR. The project location, project description, and the potential environmental effects are described herein below.

Comment Period: Comments may be sent anytime during the 30-day Notice of Preparation (NOP) comment period. The NOP review and comment period begins on May 9, 2022 and ends on June 8, 2022. All comments must be received during the comment period and no later than 5:00 PM on June 8, 2022. Please include the name of a contact for your agency, if applicable.

All comments should be directed to:

City of Moorpark Community Development Department Attention: Shanna Farley, Principal Planner 799 Moorpark Avenue Moorpark, California 93021

Comments may also be emailed to sfarley@moorparkca.gov.

Scoping Meeting: Oral comments may be provided at the Scoping Meeting to be held on Monday, May 23, 2022 from 5:00 PM to 6:30 PM in the Apricot Room / Council Chambers located at the Moorpark City Hall. Moorpark City Hall is located at 799 Moorpark Avenue, Moorpark, California 93021.

PROJECT LOCATION

The Project site encompasses approximately 12.5 acres in the central, downtown area of the City of Moorpark in Ventura County, California. The Project site is located west of Moorpark Avenue/Walnut Canyon Road (State Route [SR] 23). Portions of the Project site are located on the north and south sides of West High Street. The Project site currently contains a mix of land uses associated with the existing Civic Center, including city hall, a community center/active adult center, a city library, portable structures, parking areas, and vacant undeveloped areas within the western portion of the Project site. The location and limits of the Project site are depicted in Exhibit 1, Regional Location and Exhibit 2, Local Vicinity.

PROJECT DESCRIPTION

The Project would consist of the phased development of a new City Civic Center within the Project site. The Project would include the following phases:

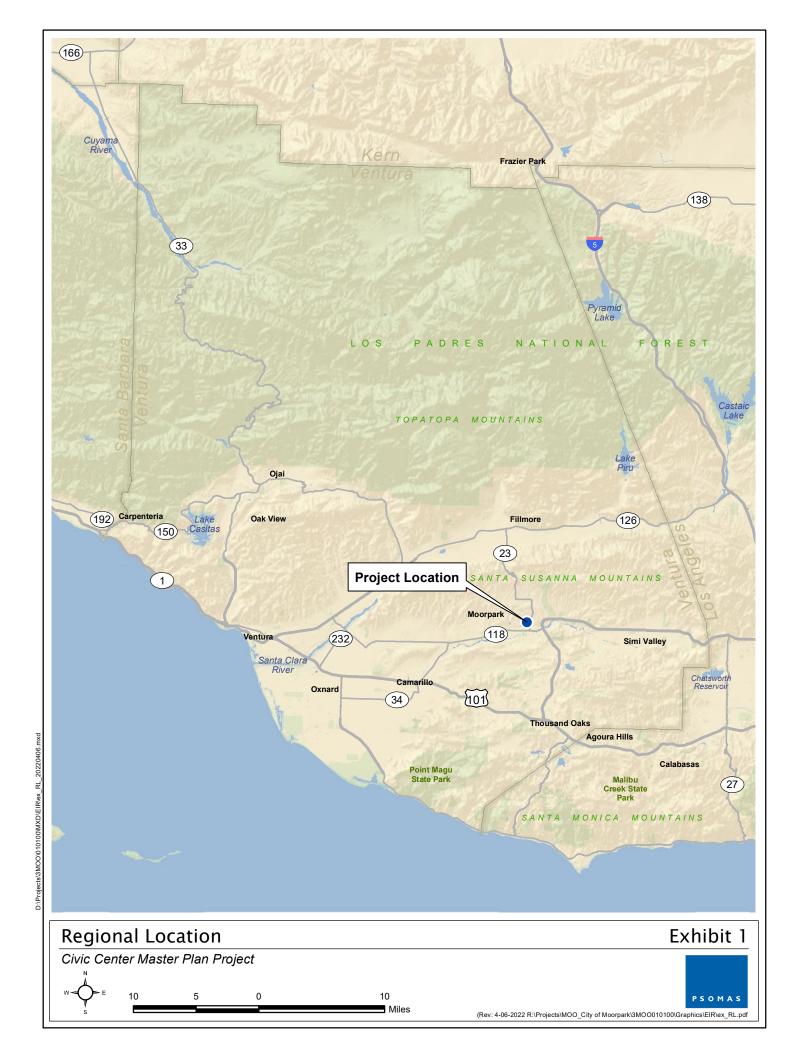

- During Phase 1, a new 18,000 square foot (sf) library with outdoor plaza would be constructed. The existing city hall would be re-purposed as 5,085 sf of office space, and the existing community center would remain as an active adult center. The existing library would be removed at the end of this phase once the library is moved to the new facility.
- During Phase 2, the west commercial site would be developed with approximately 13,000 sf of commercial uses, which would also include the development of a public park as part of that development.
- During Phase 3, the north site residential area would be developed with approximately 75 units at 25 du/acre. Phase 3 would include the removal of the existing city hall and community center/active adult center buildings.
- During Phase 4, a new 22,000 sf city hall and a mercado/market would be constructed.

AREAS OF POTENTIAL IMPACT

The City has determined that an EIR is required for this Project. An Initial Study checklist is included as Appendix A, which provides the City's preliminary assessment of potential impacts associated with the Project. The EIR will provide detailed analysis of the following topical areas.

- Aesthetics
- Agriculture and Forestry Resources
- Air Quality
- Biological Resources
- Cultural Resources
- Energy
- Geology and Soils
- Greenhouse Gas Emissions
- Hazards and Hazardous Materials
- Hydrology and Water Quality

- Land Use and Planning
- Mineral Resources
- Noise
- Population and Housing
- Public Services
- Recreation
- Transportation
- Tribal Cultural Resources
- Utilities and Service Systems
- Wildfire

APPENDIX A

INITIAL STUDY

NOTE: The following is a sample form that may be tailored to satisfy individual agencies' needs and project circumstances. It may be used to meet the requirements for an initial study when the criteria set forth in CEQA Guidelines have been met. Substantial evidence of potential impacts that are not listed on this form must also be considered. The sample questions in this form are intended to encourage thoughtful assessment of impacts, and do not necessarily represent thresholds of significance.

Civic Center Master Plan Project

Ί.	Project title:						
	Lead agency name and address: ity of Moorpark						
79	9 Moorpark Avenue, Moorpark, California 93021						
3.	Contact person and phone number: Shanna Farley (805) 517-6236						
4.	Project location:						
	5. Project sponsor's name and address: City of Moorpark, 799 Moorpark Avenue, Moorpark, California 93021						
6.	Public/Institutional, Old Town Commercial (C-OT), Downtown Specific General plan designation: Plan, General Commercial (C-2), and Specific Plan 9 (SP-9)						
7.	Zoning: Institutional (I), Old Town Commercial (C-OT), Rural Exclusive (RE), Old Town Commercial (C-OT), Industrial Park (M-1), and Limited Industrial (M-2) Description of project: (Describe the whole action involved, including but not limited to later phases of the project, and any secondary, support, or off-site features necessary for its implementation. Attach additional sheets if necessary.)						
Pro	Implementation. Attach additional sheets if necessary.) he Project would consist of the phased development of a new City Civic Center within the Project site. The roject would include the following phases: During Phase 1, a new 18,000 square foot (sf) library with outdoor plaza would be constructed. The existing						

uses, which would also include the development of a public park as part of that development.

-During Phase 3, the north site residential area would be developed with approximately 75 units at 25 du/acre.

-During Phase 2, the west commercial site would be developed with approximately 13,000 sf of commercial

-During Phase 3, the north site residential area would be developed with approximately 75 units at 25 du/acre. Phase 3 would include the removal of the existing city hall and community center/active adult center buildings.

city hall would be re-purposed as 5,085 sf of office space, and the existing community center would remain as an active adult center. The existing library would be removed at the end of this phase once the library is moved

-During Phase 4, a new 22,000 sf city hall and a mercado/market would be constructed.

to the new facility.

- 9. Surrounding land uses and setting: (Briefly describe the project's surroundings)
- -North: Moorpark Avenue/Walnut Canyon Road borders the Project site to the north.
- -South: A United States Post Office and the Union Pacific and Metrolink railroad tracks are located south of the Project site. Also, a commercial building is located on the northwestern corner of Moorpark Avenue at West High Street adjacent to the Project site to the south.
- -East: Land uses east of Moorpark Avenue include residential, commercial/office, and retail uses.
- -West: Land uses to the west include undeveloped parcels, the Boys & Girls Club, and Walnut Canyon School.

10.		•	agencies agreemen	approvai	IS	requirea:	(e.g.,	permits,	Tinancing	approvai,	C
	None										

11. Have California Native American tribes traditionally and culturally affiliated with the project area requested consultation pursuant to Public Resources Code section 21080.3.1? If so, is there a plan for consultation that includes, for example, the determination of significance of impacts to tribal cultural resources, procedures regarding confidentiality, etc.?

The City of Moorpark will conduct tribal consultation pursuant to Assembly Bill 52 (AB 52)

and Senate Bill 18 (SB 18).

NOTE: Conducting consultation early in the CEQA process allows tribal governments, lead agencies, and project proponents to discuss the level of environmental review, identify and address potential adverse impacts to tribal cultural resources, and reduce the potential for delay and conflict in the environmental review process. (See Public Resources Code section 21080.3.2.) Information may also be available from the California Native American Heritage Commission's Sacred Lands File per Public Resources Code section 5097.96 and the California Historical Resources Information System administered by the California Office of Historic Preservation. Please also note that Public Resources Code section 21082.3(c) contains provisions specific to confidentiality.

Appendix A

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact," as indicated by the checklist on the following pages.

	Aesthetics	Agriculture / Forestry Resources		✓ Air Quality
	✓ Biological Resources	✓ Cultural Resources		Energy
	Geology/Soils	Greenhouse Gas Emi	issions	Hazards and Hazardous Materials
	Hydrology/Water Quality	✓ Land Use / Planning		Mineral Resources
	✓ Noise	Population / Housing		Public Services
	Recreation	✓ Transportation		Tribal Cultural Resources
	Utilities / Service Systems	Wildfire		Mandatory Findings of Significance
	DETERMINATION			
	On the basis of this initial evalu	uation:		
	I find that the proposed pro NEGATIVE DECLARATION will b		significant e	effect on the environment, and a
	I find that although the prowill not be a significant effect in the to by the project proponent. A MIT	nis case because revisions	in the proje	
/	I find that the proposed ENVIRONMENTAL IMPACT REP		nificant effe	ct on the environment, and an

EVALUATION OF ENVIRONMENTAL IMPACTS

- 1. A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors, as well as general standards (e.g., the project would not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 2. All answers must take account of the whole action involved, including off-site as well as onsite, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 3. Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- 4. "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Than Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level.
- 5. Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:
 - a) Earlier Analyses Used. Identify and state where they are available for review.
 - b) Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
 - c) Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.
- 6. Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
- 7. Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.
- 8. This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.
- 9. The explanation of each issue should identify:
 - a) the significance criteria or threshold, if any, used to evaluate each question; and
 - b) the mitigation measure identified, if any, to reduce the impact to less than significance

		Potentially Significant	Less Than Significant With Mitigation	Less Than Significant	No
	Issues	Impact	Incorporated	Impact	Impact
I. A	ESTHETICS. Except as provided in Public Resources Code Secti	on 21099, would	I the project:		
a)	Have a substantial adverse effect on a scenic vista?			\checkmark	
b)	Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?			\checkmark	
c)	In nonurbanized areas, substantially degrade the existing visual character or quality of public views of the site and its surroundings? (Public views are those that are experienced from publicly accessible vantage point). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?			√	
d)	Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?			\checkmark	
	AGRICULTURE AND FORESTRY RESOURCES. In dete environmental effects, lead agencies may refer to the California prepared by the California Dept. of Conservation as an optional determining whether impacts to forest resources, including timbe to information compiled by the California Department of Forestrincluding the Forest and Range Assessment Project and the Forest enthodology provided in Forest Protocols adopted by the California	a Agricultural La model to use in rland, are signifi y and Fire Prote prest Legacy As	and Evaluation and assessing impacts cant environmental action regarding the assessment project;	Site Assessment s on agriculture ar effects, lead ager e state's inventory and forest carbon	Model (1997) and farmland. In acies may refer of forest land,
a)	Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to nonagricultural use?			√	
b)	Conflict with existing zoning for agricultural use, or a Williamson Act contract?			\checkmark	
c)	Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code Section 12220(g)), timberland (as defined by Public Resources Code Section 4526), or timberland zoned Timberland Production (as defined by Government Code Section 51104(g))?			√	
d)	Result in the loss of forest land or conversion of forest land to non-forest use?			\checkmark	
e)	Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use or conversion of forest land to non-forest use?			√	
III. A	AIR QUALITY. Where available, the significance criteria establis control district may be relied upon to make the following determination.			nagement district	or air pollution
a)	Conflict with or obstruct implementation of the applicable air quality plan?	ations. Would the	e project.		
b)	Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard?	✓			
c)	Expose sensitive receptors to substantial pollutant concentrations?	\checkmark			
d)	Result in other emissions (such as those leading to odors) adversely affecting a substantial number of people?	\checkmark			

		Potentially Significant	Less Than Significant With Mitigation	Less Than Significant	No
IV	Issues BIOLOGICAL RESOURCES. Would the project:	Impact	Incorporated	Impact	Impact
a)	Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service?	√			
b)	Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service?			✓	
c)	Have a substantial adverse effect on state or federally protected wetlands (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?			✓	
d)	Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?		\checkmark		
e)	Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?			√	
f)	Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?			✓	
V. (CULTURAL RESOURCES. Would the project:				
a)	Cause a substantial adverse change in the significance of a historical resource pursuant to § 15064.5?	✓			
b)	Cause a substantial adverse change in the significance of an archaeological resource pursuant to § 15064.5?			\checkmark	
c)	Disturb any human remains, including those interred outside of dedicated cemeteries?			\checkmark	
VI.	ENERGY. Would the project:				
a)	Result in potentially significant environmental impact due to wasteful, inefficient, or unnecessary consumption of energy resources, during project construction or operation?			\checkmark	
b)	Conflict with or obstruct a state or local plan for renewable energy or energy efficiency?			\checkmark	
VII.	GEOLOGY AND SOILS. Would the project:				
a)	Directly or indirectly cause potential substantial adverse effects, including the risk of loss, injury, or death involving:				
	i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map, issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.		✓		
	ii) Strong seismic ground shaking?			\checkmark	
	iii) Seismic-related ground failure, including liquefaction?		\checkmark		
	iv) Landslides?			\checkmark	
b)	Result in substantial soil erosion or the loss of topsoil?			✓	

		Potentially Significant	Less Than Significant With Mitigation	Less Than Significant	No
,	Issues	Impact	Incorporated	Impact	Impact
c)	Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?		\checkmark		
d)	Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial direct or indirect risks to life or property?		\checkmark		
e)	Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?			√	
f)	Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?		\checkmark		
VIII	. GREENHOUSE GAS EMISSIONS. Would the project:				
a)	Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?		\checkmark		
b)	Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases?		\checkmark		
IX.	HAZARDS AND HAZARDOUS MATERIALS. Would the proj	iect:			
a)	Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?			\checkmark	
b)	Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?		✓		
c)	Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?			\checkmark	
d)	Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code § 65962.5 and, as a result, would it create a significant hazard to the public or the environment?			\checkmark	
e)	For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard or excessive noise for people residing or working in the			√	
f)	project area? Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?			√	
g)	Expose people or structures, either directly or indirectly, to a significant risk of loss, injury or death involving wildland fires?			√	
X. F	HYDROLOGY AND WATER QUALITY. Would the project:				
a)	Violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or ground water quality?			\checkmark	
b)	Substantially decrease groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin?			\checkmark	
c)	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river or through the addition of impervious surfaces, in a manner which would:			✓	

			Potentially Significant	Significant With	Less Than Significant	No
	ls	ssues	Impact	Mitigation Incorporated	Impact	Impact
	i) result in a substantial	erosion or siltation on- or off-site;			\checkmark	
		e the rate or amount of surface nich would result in flooding on- or			√	
	capacity of existing o	unoff water which would exceed the r planned stormwater drainage ubstantial additional sources of			/	
	iv) impede or redirect flo	od flows?			\checkmark	
d) e)	pollutants due to project in Conflict with or obstruct im	plementation of a water quality			✓

	LAND USE AND PLANN	· · ·				
a)	Physically divide an establ	•			\checkmark	
b)	any land use plan, policy, o	nmental impact due to a conflict with or regulation adopted for the gating an environmental effect?	\checkmark			
XII.	MINERAL RESOURCES	6. Would the project:				
a)		bility of a known mineral resource e region and the residents of the			\checkmark	
b)		bility of a locally important mineral neated on a local general plan, use plan?			√	
XIII.	. NOISE. Would the project	result in:				
a)	in ambient noise levels in t of standards established in	I temporary or permanent increase he vicinity of the project in excess the local general plan or noise andards of other agencies?	\checkmark			
b)	Generation of excessive groundborne noise levels?		/			
c)	0	the vicinity of a private airstrip or	ب		ш	
	adopted, within two miles of	where such a plan has not been of a public airport or public use xpose people residing or working in ve noise levels?			√	
XIV	. POPULATION AND HO	DUSING. Would the project:				
a)	either directly (for example	ned population growth in an area, , by proposing new homes and or example, through extension of e)?			\checkmark	
b)		ers of existing people or housing, ion of replacement housing			\checkmark	
XV.	PUBLIC SERVICES. Wo	uld the project:				
a)	Result in substantial adver the provision of new or phy facilities, need for new or p facilities, the construction of	se physical impacts associated with sically altered governmental hysically altered governmental of which could cause significant order to maintain acceptable nes, or other performance				

		Potentially Significant	Significant With Mitigation	Less Than Significant	No
	Issues Fire protection?	Impact	Incorporated	Impact	Impact
	Police protection?	H	H	<u>v</u>	H
	Schools?	H	H	[<u>/</u>	H
	Parks?	H	H	V	H
	Other public facilities?	H	H	\	H
V\/I	. RECREATION.				
a)	Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?			√	
b)	Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?			√	
XVI	I. TRANSPORTATION. Would the project:				
a)	Conflict with a program, plan, ordinance or policy addressing the circulation system, including transit, roadway, bicycle and pedestrian facilities?	\checkmark			
b)	Conflict or be inconsistent with CEQA Guidelines § 15064.3, subdivision (b)?	\checkmark			
c)	Substantially increase hazards due to a geometric design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?			✓	
d)	Result in inadequate emergency access?			\checkmark	
XVI	II. TRIBAL CULTURAL RESOURCES.				
a)	Would the project cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code § 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is:				
	 i) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code section 5020.1(k), or 		✓		
	ii) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code § 5024.1. In applying the criteria set forth in subdivision (c) of Public Resource Code § 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.		√		
XIX	. UTILITIES AND SERVICE SYSTEMS. Would the project:				
a)	Require or result in the relocation or construction of new or expanded water, wastewater treatment or storm water drainage, electric power, natural gas, or telecommunications facilities, the construction or relocation of which could cause significant environmental effects?			\checkmark	

			Significant		
	Issues	Potentially Significant Impact	With Mitigation Incorporated	Less Than Significant Impact	No Impact
b)	Have sufficient water supplies available to serve the project and reasonably foreseeable future development during normal, dry and multiple dry years?			✓	
c)	Result in a determination by the waste water treatment provider, which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?			\checkmark	
d)	Generate solid waste in excess of state or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals?			\checkmark	
e)	Comply with federal, state, and local management and reduction statutes and regulations related to solid waste?			\checkmark	
XX.	WILDFIRE. If located in or near state responsibility areas o project:	r lands classified a	as very high fire h	azard severity zo	nes, would the
a)	Substantially impair an adopted emergency response plan or emergency evacuation plan?			✓	
b)	Due to slope, prevailing winds, and other factors, exacerbate wildfire risks, and thereby expose project occupants to pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire?			\checkmark	
c)	Require the installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment?			\checkmark	
d)	Expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of runoff, post-fire slope instability, or drainage changes?			\checkmark	
XXI	MANDATORY FINDINGS OF SIGNIFICANCE.				
a)	Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	√			
b)	Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)	√			
c)	Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?	\checkmark
