Project Name and Number: Organic Materials Zoning Ordinance Update, PDS2020-POD-20-015; PDS2020-ER-20-00-001

State Clearinghouse No.: 2022050545

Project Location: County-wide – Unincorporated Area

Project Applicant: Planning & Development Services, County of San Diego

Project Description: The project includes an amendment to the County of San Diego Zoning Ordinance and Code of Regulatory Ordinances to reduce barriers and expand allowances for organic materials processing in the unincorporated county. Ordinance amendments would expand the areas of the unincorporated county where organic material processing may occur, reduce associated permits and regulations while protecting public health and safety. The amendments would clearly define what organic material processing practices are allowed and where commercial sales of compost products may occur. The updates will align local requirements with State procedures to simplify regulatory processes for time and cost efficiency. These changes will also help to improve market conditions for finished compost by streamlining access to organic materials and removing barriers to processing them.
