Project Title: Coachella Valley Water District Colorado River Water Conservation Program 2022

Project Location: CVWD Service Area, and Riverside County

Description of Nature, Purpose, and Beneficiaries of Project:

The proposed action consists of CVWD implementing a fallowing program under which CVWD will enter into agreements with participating growers within the CVWD Colorado River Water irrigation service area which is located in the eastern Coachella Valley, Southeastern Riverside County. The program will compensate the participating growers in consideration for water that is conserved by the following agricultural farmland with a history of irrigation. The water conserved will not be consumptively used by CVWD or other Colorado River contractors and will instead be made available by forbearance to assist in the management of reservoir levels in the Colorado River in the Lower Basin during the current drought conditions. The program is intended to operate temporarily, conserving up to 10,000 Acre feet per year (AFY) in 2022 and 2023. CVWD on average provides approximately 245,000 AFY of Colorado River Water for agricultural irrigation. The program is not a long-term program intended to permanently change agricultural land use designations. The program is anticipated to begin in October 2022 and end in December 2023, but may be extended if drought conditions persist. A participating grower will be responsible for any required weed control and dust control on the fallowed land and will agree not to change land maintenance and crop cultivation practices on other lands within CVWD so as to result in increased consumptive use of water on those lands. Participants in the program will be prohibited from shifting water use to pumped groundwater while in the following program.

Lead Agency Approving Project and Contact: Coachella Valley Water District; William Patterson, Environmental Supervisor, Phone: (760) 398-2651

Exempt Status:

- ☐ **Not a project:** State CEQA Guidelines §15378
- ☐ **Review for Exemption/Common Sense Exemption:** State CEQA Guideline §15061(b)(3)
- ☐ **Ministerial:** (Pub. Res. Code §21080(b)(1); State CEQA Guideline §15268)
- ☐ **Declared Emergency:** (Pub. Res. Code §21080(b)(3); State CEQA Guideline §15269(a))
- ☐ **Emergency Project:** (Pub. Res. Code §21080(b)(4); State CEQA Guideline §15269(b)(c))
- ☒ **Statutory Exempt:** State CEQA Guidelines § 15277
- ☒ **Categorically Exempt:** State CEQA Guidelines §15301

NOTICE OF EXEMPTION (Continued)
Coachella Valley Water District

Reasons why project is exempt:

This program will not result in expansion of use of CVWD's existing irrigation distribution system or its irrigation drainage system. Accordingly, since the proposed program involves operation and implementation of CVWD's existing irrigation distribution facilities and irrigation drainage system facilities with no or negligible expansion of use beyond that existing at the time of the lead agency's determination, these actions qualify for a Class 1 Categorical Exemption (State CEQA Guidelines Section 15301).

Environmental impacts expected from the implementation of the *2007 Interim Guidelines For Lower Basin Shortages and the Coordinated Operations of Lake Powell and Lake Mead (Guidelines)* were analyzed in an Environmental Impact Statement (EIS), pursuant to the National Environmental Policy Act (NEPA) of 1969 (refer to the following link (<http://www.usbr.gov/lc/region/programs/strategies/FEIS/index.html>)). The proposed action of using conserved water from the proposed Conservation Program to assist in managing reservoir elevations is within the scope of analysis of actions that were previously analyzed in that EIS. Thus, to the extent the proposed actions involve or may affect areas outside of California, such as at Lake Mead or on the portions of the Colorado River in Nevada or Arizona, they are exempt from CEQA under a Statutory Exemption (Public Resources Code Section 21080(b)(14) and State CEQA Guidelines Section 15277). The proposed action of adopting the Coachella Valley Water District Colorado River Water Conservation Program for 2022 and 2023 is exempt under the provisions of CEQA and the State CEQA Guidelines.

Date: 6/30/2022

Sylvia Bermudez
Clerk of the Board
