Re: Native American Tribal Consultation, Pursuant to the Assembly Bill 52 (AB 52), Amendments to the California Environmental Quality Act (CEQA) (Chapter 532, Statutes of 2014), Public Resources Code Sections 5097.94 (m), 21073, 21074, 21080.3.1, 21080.3.2, 21082.3, 21083.09, 21084.2 and 21084.3, Blue Wave Car Wash Project, Contra Costa County

To Dr. DePietro:

Pursuant to Public Resources Code section 21080.3.1 (c), attached is a consultation list of tribes that are traditionally and culturally affiliated with the geographic area of the above-listed project. Please note that the intent of the AB 52 amendments to CEQA is to avoid and/or mitigate impacts to tribal cultural resources, (Pub. Resources Code §21084.3 (a)) ("Public agencies shall, when feasible, avoid damaging effects to any tribal cultural resource.")

Public Resources Code sections 21080.3.1 and 21084.3(c) require CEQA lead agencies to consult with California Native American tribes that have requested notice from such agencies of proposed projects in the geographic area that are traditionally and culturally affiliated with the tribes on projects for which a Notice of Preparation or Notice of Negative Declaration or Mitigated Negative Declaration has been filed on or after July 1, 2015. Specifically, Public Resources Code section 21080.3.1 (d) provides:

Within 14 days of determining that an application for a project is complete or a decision by a public agency to undertake a project, the lead agency shall provide formal notification to the designated contact of, or a tribal representative of, traditionally and culturally affiliated California Native American tribes that have requested notice, which shall be accomplished by means of at least one written notification that includes a brief description of the proposed project and its location, the lead agency contact information, and a notification that the California Native American tribe has 30 days to request consultation pursuant to this section.

The AB 52 amendments to CEQA law does not preclude initiating consultation with the tribes that are culturally and traditionally affiliated within your jurisdiction prior to receiving requests for notification of projects in the tribe's areas of traditional and cultural affiliation. The Native American Heritage Commission (NAHC) recommends, but does not require, early consultation as a best practice to ensure that lead agencies receive sufficient information about cultural resources in a project area to avoid damaging effects to tribal cultural resources.

The NAHC also recommends, but does not require that agencies should also include with their notification letters, information regarding any cultural resources assessment that has been completed on the area of potential effect (APE), such as:

1. The results of any record search that may have been conducted at an Information Center of the California Historical Resources Information System (CHRIS), including, but not limited to:

- A listing of any and all known cultural resources that have already been recorded on or adjacent to the APE, such as known archaeological sites;
- Copies of any and all cultural resource records and study reports that may have been provided by the Information Center as part of the records search response;
- Whether the records search indicates a low, moderate, or high probability that unrecorded cultural resources are located in the APE; and
- If a survey is recommended by the Information Center to determine whether previously unrecorded cultural resources are present.

2. The results of any archaeological inventory survey that was conducted, including:

- Any report that may contain site forms, site significance, and suggested mitigation measures.

All information regarding site locations, Native American human remains, and associated funerary objects should be in a separate confidential addendum, and not be made available for public disclosure in accordance with Government Code section 6254.10.

3. The result of any Sacred Lands File (SLF) check conducted through the Native American Heritage Commission was negative.

4. Any ethnographic studies conducted for any area including all or part of the APE; and

5. Any geotechnical reports regarding all or part of the APE.

Lead agencies should be aware that records maintained by the NAHC and CHRIS are not exhaustive and a negative response to these searches does not preclude the existence of a tribal cultural resource. A tribe may be the only source of information regarding the existence of a tribal cultural resource.

This information will aid tribes in determining whether to request formal consultation. In the event that they do, having the information beforehand will help to facilitate the consultation process.

If you receive notification of change of addresses and phone numbers from tribes, please notify the NAHC. With your assistance, we can assure that our consultation list remains current.

If you have any questions, please contact me at my email address: Sarah.Fonseca@nahc.ac.gov.

Sincerely,

Sarah Fonseca
Cultural Resources Analyst

Monica Arellano, Vice Chairwoman
20885 Redwood Road, Suite 232
Castro Valley, CA, 94546

Subject: Proposed BlueWave Carwash Project

Dear Vice Chairwoman Arellano:

FirstCarbon Solutions (FCS) is preparing a cultural resources assessment for the proposed BlueWave Carwash Project on behalf of City of Pittsburg. As part of the environmental review process, we are searching for records pertaining to cultural resources in the area surrounding the project site described below. Attached is the Records Search map with a 0.5-mile buffer around the site for your reference.

BlueWave Express Car Wash and CEI Engineering (Applicant) is proposing a new stand-alone carwash to be located at 1160 E. Leland Road on an approximately 1.36-acre site. The project would include a 100-foot drive-through vehicle wash tunnel; three 12.5-foot drive-through pay lanes; three drive-through payment stations; 22 vacuum stalls and paved driveways.

As part of the cultural resources assessment, FCS conducted a Sacred Lands File (SLF) search and California Historical Resource Information System (CHRIS). However, due to delays related to the Global Pandemic, CHRIS results have not been received. The results of the SLF records search was negative and the Native American Heritage Commission (NAHC) suggested you might be able to provide further information. If you have any additional information regarding potential historic or cultural resources in proximity or relation to the proposed project area, we would greatly appreciate your input.

Please note that this letter is a request for information pertaining to a cultural resources assessment and is not notification of a project under Senate Bill (SB) 18, Assembly Bill (AB) 52 or Section 106 of the National Historic Preservation Act. Designated lead agencies under the California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA) are handling project notification and consultation requirements. Please feel free to contact me at 925.357.2562 or via email at sgriffin@fcs-intl.com and thank you for your valuable assistance.

Subject: Proposed BlueWave Carwash Project

Dear Steven Hutchason:

FirstCarbon Solutions (FCS) is preparing a cultural resources assessment for the proposed BlueWave Carwash Project on behalf of City of Pittsburg. As part of the environmental review process, we are searching for records pertaining to cultural resources in the area surrounding the project site described below. Attached is the Records Search map with a 0.5-mile buffer around the site for your reference.

BlueWave Express Car Wash and CEI Engineering (Applicant) is proposing a new stand-alone carwash to be located at 1160 E. Leland Road on an approximately 1.36-acre site. The project would include a 100-foot drive-through vehicle wash tunnel; three 12.5-foot drive-through pay lanes; three drive-through payment stations; 22 vacuum stalls and paved driveways.

As part of the cultural resources assessment, FCS conducted a Sacred Lands File (SLF) search and California Historical Resource Information System (CHRIS). However, due to delays related to the Global Pandemic, CHRIS results have not been received. The results of the SLF records search was negative and the Native American Heritage Commission (NAHC) suggested you might be able to provide further information. If you have any additional information regarding potential historic or cultural resources in proximity or relation to the proposed project area, we would greatly appreciate your input.

Please note that this letter is a request for information pertaining to a cultural resources assessment and is not notification of a project under Senate Bill (SB) 18, Assembly Bill (AB) 52 or Section 106 of the National Historic Preservation Act. Designated lead agencies under the California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA) are handling project notification and consultation requirements. Please feel free to contact me at 925.357.2562 or via email at sgriffin@fcs-intl.com and thank you for your valuable assistance.

CITY OF PITTSBURG
BLUE WAVE CAR WASH

July 6, 2021

Nashville Enterprise Miwok-Maidu-Nishinam Tribe
Cosme Valdez, Chairperson
P.O. Box 580986
Elk Grove, CA, 95758-0017

Subject: Proposed BlueWave Carwash Project

Dear Chairperson Valdez:

FirstCarbon Solutions (FCS) is preparing a cultural resources assessment for the proposed BlueWave Carwash Project on behalf of City of Pittsburg. As part of the environmental review process, we are searching for records pertaining to cultural resources in the area surrounding the project site described below. Attached is the Records Search map with a 0.5-mile buffer around the site for your reference.

BlueWave Express Car Wash and CEI Engineering (Applicant) is proposing a new stand-alone carwash to be located at 1160 E. Leland Road on an approximately 1.36-acre site. The project would include a 100-foot drive-through vehicle wash tunnel; three 12.5-foot drive-through pay lanes; three drive-through payment stations; 22 vacuum stalls and paved driveways.

As part of the cultural resources assessment, FCS conducted a Sacred Lands File (SLF) search and California Historical Resource Information System (CHRIS). However, due to delays related to the Global Pandemic, CHRIS results have not been received. The results of the SLF records search was negative and the Native American Heritage Commission (NAHC) suggested you might be able to provide further information. If you have any additional information regarding potential historic or cultural resources in proximity or relation to the proposed project area, we would greatly appreciate your input.

Please note that this letter is a request for information pertaining to a cultural resources assessment and is not notification of a project under Senate Bill (SB) 18, Assembly Bill (AB) 52 or Section 106 of the National Historic Preservation Act. Designated lead agencies under the California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA) are handling project notification and consultation requirements. Please feel free to contact me at 925.357.2562 or via email at sgriffin@fcs-intl.com and thank you for your valuable assistance.

CITY OF PITTSBURG
BLUE WAVE CAR WASH

From: Corrina Gould <cvltribe@gmail.com>

Sent: Friday, July 30, 2021 2:44 PM

To: Regan Del Rosario <rdelrosario@fcs-intl.com>

Subject: Re: 3746.0003 Tribal Consultation Request for the Proposed BlueWave Carwash Project

Dear Regan,

Thank you for your email. The Tribe is always concerned when a project is within half mile from a water source. The body of water that is included in the buffer zone that you have created, could you let us know if this is a man made water area or if it is pre/historical? Also are there other water ways that have been culverted in the area of the proposed project?

Thanks so much.

'Uni (Respectfully),

Corrina Gould, Tribal Chair

Confederated Villages of Lisjan Tribe
