Re: Phase I Environmental Site Assessment

BlueWave Carwash Express
1160 East Leland Road
Pittsburg, California 94565
Contra Costa County

Environmental Assessment Specialists, Inc. (EAS) has completed a Phase I Environmental Site Assessment (ESA) for the above referenced site in accordance with the 2021 Master Services Agreement between EAS and FirstCarbon Solutions (Client), and in substantial compliance with the scope and limitations of the American Society of Testing Materials (ASTM), Standard Practices for ESAs: The Phase I ESA Process, Designation E1527-13. For the purpose of this report the entire land area associated with the address and/or APN is referred to as the Property, Subject Property, and/or Site.

According to the Contra Costa County Assessor's Office, the Property's Assessor Parcel Number (APN) is listed as 088-230-028 and located on the south side of East Leland Road in Pittsburg, Contra Costa County, California. Per the Assessor's Office, the Property address is 1160 East Leland Road. The Property is accessible via the public right-of-way located on the south side of East Leland Road.

The approximately 1.36-acre Property is primarily occupied by a vacant grass covered lot with scattered miscellaneous trash/debris. The western portion of the Property is occupied by an approximately 40' by 100' raised soil and gravel covered area. Three approximately 3' by 3' low soil piles are located in the southern-central portion of the Property and one approximately 3' by 3' low soil pile is located in the northern-central portion of the Property. In addition, an approximately 1' by 2' stained bare soil area is located in southwest portion of the Property. A sanitary sewer manhole, storm drain manhole, and Pacific Gas & Electric (PG&E) electrical vault are located in the northwest corner of the Property.

The Property is located in an area comprised primarily of commercial and residential land uses. EAS walked the Property, visually observing all accessible features. At the time of the site visit, the Property appeared to be in good condition but irregularly maintained. Proposed improvements include the construction of a one-story carwash (BlueWave Carwash Express) and its environs with paved parking areas and driveways and landscaped areas.

Historically, the Property appears to have been occupied by vacant land until at least 1939. From at least 1942 until at least 1959, the Property appeared occupied by residential troop buildings associated with the U.S. Army's Camp Stoneman. By 1963, the Camp Stoneman residential buildings were razed and the Property appeared as subsequent residential land uses until at least

1972. Due to the poor quality of the 1979 aerial photograph, it is not clear if portions of the Property were still occupied by any residential improvements, however by 1982 until at least May 2002, the Property appeared as part of a larger vacant lot. By October 2002, the Property appeared as part of a larger construction yard/staging area for the development of the east adjoining ARCO gasoline station and carwash. By July 2003, all construction equipment had been removed and the Property appeared as part of a larger vacant lot that included the west adjoining property until at least October 2009. By at least March 2010 to at least May 2010, the Property appeared as part of a construction yard/staging area for the development of the west adjoining DaVita Dialysis Center. By July 2010, all construction equipment had been removed and the and the Property appeared as a vacant lot. Of note, the present-day approximately 40' by 100' raised soil and gravel pile area appears as early as the July 2010 aerial photograph and is likely associated with the Property's former construction yard/staging area land use. The Property has appeared similar to present-day land uses since that time.

FINDINGS AND CONCLUSIONS

We have performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of ASTM Practice E1527-13 of 1160 East Leland Road in Pittsburg, Contra Costa County, California, the Property. Any exceptions to, or deletions from, this practice are described in Section 10.0 of this report. **This assessment has revealed no evidence of recognized environmental conditions in connection with the Property.**

However, the following business environmental risks (BERs) were identified which warrant mention:

Former Land Uses & Undocumented Soil

Historically, the Property has been occupied by vacant, various residential, then vacant land uses. By October 2002, the Property appeared as part of a larger construction yard/staging area for the development of the east adjoining ARCO gasoline station and carwash. By July 2003, all construction equipment had been removed and the Property appeared as part of a larger vacant lot that included the west adjoining property until at least October 2009. By at least March 2010 to at least May 2010, the Property appeared as part of a construction yard/staging area for the development of the west adjoining DaVita Dialysis Center. By July 2010, all construction equipment had been removed and the and the Property appeared as a vacant lot. Of note, the present-day approximately 40' by 100' raised soil and gravel pile area appears as early as the July 2010 aerial photograph and is likely associated with the Property's former construction yard/staging area land use. In addition, three approximately 3' by 3' low soil piles are located in the southern-central portion of the Property; one approximately 3' by 3' low soil pile is located in the northern-central portion of the Property; and one approximately 1' by 2' stained bare soil area is located in southwest portion of the Property.

As the Property is to undergo extensive grading/soil removal as part of a future redevelopment project into a carwash facility, EAS recommends that a program of subsurface sampling and testing be conducted in the areas of discussed above, as well as throughout the remainder of the Property, prior to any ground disturbance/construction activities. Once the analysis has been completed, the results would verify that contaminated soils above action levels are/are not present.

Asbestos-Containing Material/Lead-Based Paint (ACMs/LBP)

According to Client-provided information, initially the onsite carwash development project was to "require an offsite improvement to replace the water line from the median because it is eroded and has asbestos in it." However, in a subsequent message, "The City let the applicant know that they will not be required to remove the water line. They can choose to instead install new water lines/taps for the water required for the development. It has not been decided how the applicant will proceed. If they chose to leave the older water line stub-out with asbestos in it, it would just get capped off/abandoned."

Based on the above information, EAS recommends the presence of asbestos-containing materials (ACMs) be confirmed through a program of sampling and testing prior to any impacts or removal of the water line discussed above. Once the analysis has been completed, the results would verify that asbestos is / is not present.

It is up to the Client, based on their risk tolerance and applicable law, to determine the extent of further inquiry.

In addition, the following items warrant mention:

- Standard dust mitigation measures should be implemented during any future renovation, redevelopment, and/or soil handling activities. During any grading or excavation activities at the Property, redevelopment personnel must be made aware to look for unusual conditions suggesting buried debris or other potential adverse environmental conditions that may be discovered on the Property. In addition, **if any abnormal soils are discovered during future redevelopment, such as stained soils, hydrocarbon odors, or any other unusual odors, all construction activities should be stopped immediately and EAS should be contacted for further assessment and monitoring.**

1.0 INTRODUCTION

The purpose of this Phase I ESA was to identify recognized environmental conditions associated with the Property. To achieve this objective, the Phase I ESA included visual observations of the Property and observations of the surrounding properties, a visual survey for suspect asbestos-containing materials/debris piles/lead-based paint, limited historical land use review, review of regulatory database listings, and reviews of readily available geologic and hydrogeologic data. This report represents a summary of these findings. A parcel map, site plans, area map, site photographs, historical aerial photos and topographic maps, wetlands map, flood hazard map, fire insurance map report, city directory abstract, regulatory database report, questionnaires, and supporting documentation are included as attachments to this report.

EAS visually observed the Property on August 23, 2021, to identify potential sources or indications of chemical contamination such as USTs, aboveground storage tanks (ASTs), PCBs, chemicals and hazardous waste materials, areas with surficial staining or distressed vegetation, and visual evidence of ACMs and/or LBP. Lands immediately adjoining to the Property were visually inspected for possible sources of contamination or environmental impairment, which could migrate to the Property via surface water runoff, groundwater transport, and other pathways. EAS conducted a regulatory records review, reviewed historical aerial photographs, historical maps, building permits (upon availability), and contacted and interviewed property representatives and regulatory agencies as necessary.

2.0 SITE LOCATION and DESCRIPTION

According to the Contra Costa County Assessor's Office, the Property's Assessor Parcel Number (APN) is listed as 088-230-028 and located on the south side of East Leland Road in Pittsburg, Contra Costa County, California. Per the Assessor's Office, the Property address is 1160 East Leland Road. The Property is accessible via the public right-of-way located on the south side of East Leland Road.

The approximately 1.36-acre Property is primarily occupied by a vacant grass covered lot with scattered miscellaneous trash/debris. The western portion of the Property is occupied by an approximately 40' by 100' raised soil and gravel covered area. Three approximately 3' by 3' low soil piles are located in the southern-central portion of the Property and one approximately 3' by 3' low soil pile is located in the northern-central portion of the Property. In addition, an approximately 1' by 2' stained bare soil area is located in southwest portion of the Property. A sanitary sewer manhole, storm drain manhole, and Pacific Gas & Electric (PG&E) electrical vault are located in the northwest corner of the Property.

The Property is located in an area comprised primarily of commercial and residential land uses. EAS walked the Property, visually observing all accessible features. At the time of the site visit, the Property appeared to be in good condition but irregularly maintained. Proposed improvements include the construction of a one-story carwash (BlueWave Carwash Express) and its environs with paved parking areas and driveways and landscaped areas.

Historically, the Property appears to have been occupied by vacant land until at least 1939. From at least 1942 until at least 1959, the Property appeared occupied by residential troop buildings associated with the U.S. Army's Camp Stoneman. By 1963, the Camp Stoneman residential buildings were razed and the Property appeared as subsequent residential land uses until at least 1972. Due to the poor quality of the 1979 aerial photograph, it is not clear if portions of the Property were still occupied by any residential improvements, however by 1982 until at least May

2002, the Property appeared as part of a larger vacant lot. By October 2002, the Property appeared as part of a larger construction yard/staging area for the development of the east adjoining ARCO gasoline station and carwash. By July 2003, all construction equipment had been removed and the Property appeared as part of a larger vacant lot that included the west adjoining property until at least October 2009. By at least March 2010 to at least May 2010, the Property appeared as part of a construction yard/staging area for the development of the west adjoining DaVita Dialysis Center. By July 2010, all construction equipment had been removed and the and the Property appeared as a vacant lot. Of note, the present-day approximately 40' by 100' raised soil and gravel pile area appears as early as the July 2010 aerial photograph and is likely associated with the Property's former construction yard/staging area land use. The Property has appeared similar to present-day land uses since that time.

3.0 PHYSICAL SETTING

Based on the United States Geological Survey (USGS) *Antioch North, CA* 7.5-Minute Quadrangle (1:24,000), the Property has an average elevation of approximately 20 feet above mean sea level with slight gradients descending toward the north-northeast. Storm water runoff is expected to flow off the Property to the north-northeast.

According to the USGS, Geologic Map of California (2012), the Property appears to be underlain by Quaternary alluvial deposits consisting of unconsolidated and semi-consolidated clay, silt, sand, and gravel.

According to information obtained from the State Water Resources Control Board, GeoTracker regulated facilities database, groundwater in the vicinity of the Property is expected to be over 50 feet below the ground surface (based on the closest 2020 measurements from an investigation located approximately one mile west of the Property). Groundwater would generally be expected to follow local topography and flow towards the north-northeast. Therefore, areas and properties located south-southwest of the Property are considered upgradient. However, actual groundwater flow direction is often locally influenced by factors such as rainfall, geologic structure, seasonal fluctuations, soil and bedrock geology, production wells, and other factors beyond the scope of this study. The actual groundwater flow direction under the site can be accurately determined only by installing groundwater monitoring wells, which was beyond this scope of this project.

4.0 SITE RECONNAISSANCE and OBSERVATION

On August 23, 2021, EAS personnel conducted a site reconnaissance of the Property. The site reconnaissance is documented in the site photographs (Appendices). The EAS representative was unaccompanied at the Property during the site visit. In addition, a walk along the perimeter of the Property and a drive around roads in the immediate area were conducted. At the time of the site visit, the weather was clear.

The purpose of the site reconnaissance was to visually and physically observe the Property, any onsite structures, and adjoining properties for conditions indicating an existing release, past release, or threatened release of any hazardous substances or petroleum products into structures of the site, or into soil and/or groundwater beneath the site. This would include any evidence of contamination, distressed vegetation, petroleum-hydrocarbon staining, waste drums, illegal dumping, or improper waste storage/handling.

Underground Storage Tanks/Aboveground Storage Tanks (USTs/ASTs)

No visual evidence (e.g. pipes, vents, pumps, and stains) that would indicate the past or present use of petroleum hydrocarbon underground storage tanks (USTs) or leaking aboveground storage tanks (ASTs) on or immediately upgradient of the Property was readily apparent during the site visit. In addition, the Property was not listed in the underground or aboveground fuel storage tank databases within the government records/regulatory database report (FirstSearch Report).

Leaking Underground Storage Tanks (LUSTs)

No evidence for the presence of leaking underground storage tanks was observed on or adjacent to the Property was observed during the site reconnaissance.

Dry Cleaners

No dry-cleaning activity was observed on or adjacent to the Property during the site reconnaissance.

Solid Waste Disposal

Scattered miscellaneous trash/debris was observed throughout the Property. No evidence of significant solid waste disposal was observed on or adjacent to the Property during the site reconnaissance.

Landfills

The western portion of the Property is occupied by an approximately 40’ by 100’ raised soil and gravel covered area. Three approximately 3’ by 3’ low soil piles are located in the southern-central portion of the Property and one approximately 3’ by 3’ low soil pile is located in the northern-central portion of the Property.

No additional evidence of landfills was observed on or adjacent to the Property during the site reconnaissance.

Polychlorinated Biphenyls (PCBs)

No leaking or stained equipment that would have the potential to contain PCBs (e.g., transformers, capacitators, light ballasts, hydraulic equipment) was observed at the Property during the site reconnaissance.

Waste Management and Chemical Handling

No significant quantities of hazardous materials were observed on or adjacent to the Property during the site reconnaissance.

Underground Oil or Gas Pipelines

No markers indicating the presence of underground oil or gas pipelines were observed on or adjacent to the Property during the site reconnaissance.

Asbestos-Containing Material/Lead-Based Paint (ACMs/LBP)

No suspect asbestos-containing material or lead-based paint was observed at the Property during the site reconnaissance.

According to Client-provided information, initially the onsite carwash development project was to "require an offsite improvement to replace the water line from the median because it is eroded and has asbestos in it." However, in a subsequent message, "The City let the applicant know that they will not be required to remove the water line. They can choose to instead install new water lines/taps for the water required for the development. It has not been decided how the applicant will proceed. If they chose to leave the older water line stub-out with asbestos in it, it would just get capped off/abandoned."

Based on the above information, EAS recommends the presence of asbestos-containing materials (ACMs) be confirmed through a program of sampling and testing prior to any impacts or removal of the water line discussed above. Once the analysis has been completed, the results would verify that asbestos is / is not present.

Stained Soil or Asphalt Patches

An approximately 1' by 2' stained bare soil area is located in southwest portion of the Property.

No additional asphalt patches or stained soil were observed on or adjacent to the Property during the site reconnaissance.

Pits, Ponds, or Lagoons

No pits, ponds, or lagoons were observed on or adjacent to the Property during the site reconnaissance.

Radon

Radon gas is a naturally occurring radioactive gas that is invisible and odorless. Radon forms from the radioactive decay of small amounts of uranium and thorium naturally present in rocks and soils, so some radon exists in all rocks and soils. Because radon is a gas, it can easily move through soil and cracks in building slabs or basement walls and concentrate in a building's indoor air. According to the City-Data.com map of radon zones, twenty-nine (29) radon tests have taken place in sites located within the Property's zip code of 94565, and two (2) tests came back positive for radon levels of 4 picoCuries per liter (pCi/L) or above, which is the State of California's recommended action level. Contra Costa County is listed in Radon Zone 2 (Moderate Potential); counties that have a predicted average indoor radon screening level between 2 and 4 pCi/L. Based on this information, the presence of onsite radon levels above California's recommended action level is unlikely.

Clarifiers or Sumps

No clarifiers or sumps were observed on or adjacent to the Property during the site reconnaissance.

Onsite Wells

No onsite wells were observed on or adjacent to the Property during the site reconnaissance.

Septic Systems

Septic systems are important, as they can be a venue for mismanagement of hazardous or regulated wastes. No evidence of septic systems was observed on or adjacent to the Property during the site reconnaissance.

Air Emissions and Odors

No air emissions or odors were observed or noted to be emanating from the Property during the site reconnaissance.

Flood Zone

According to the Federal Emergency Management Agency (FEMA), National Flood Hazard Layer (NFHL) Viewer, Map Panel 06013C0138G (Effective Date 9/30/2015), the Property is located within Zone X, Area of Minimal Flood Hazard (flood hazard areas determined to be outside the 0.2% annual chance floodplain). Please see FEMA Flood Insurance Rate Map (FIRM) in the Appendices.

Wetlands Designation

According to a review of the U.S. fish and Wildlife Service National Wetlands Inventory Mapper as viewed on http://www.fws.gov/wetlands/Data/Mapper.html, no wetlands are located on or adjoining to the Property.

Pesticides/Herbicides

No pesticides or herbicides were observed being stored or used within the Property during the site reconnaissance.

Demolition Debris

No evidence of demolition debris was observed on or adjacent to the Property during the site reconnaissance.

Stressed Vegetation

No evidence of visibly stressed vegetation was observed on or adjacent to the Property during the site reconnaissance.

5.0 ADJOINING PROPERTIES

EAS conducted a reconnaissance of the adjoining properties to evaluate the potential for off-site impacts. These would include evidence of improper chemical storage or usage, surface staining or leakage, distressed vegetation, or evidence of dumping. A visual inspection from the public right-of-way did not reveal any issues of concern.

Direction	Description
North	East Leland Road followed by a multi-family residential development (110 Dias Circle); Planet Fitness (2240 Loveridge Road); and an IHOP Restaurant (2290 Loveridge Road)
East	ARCO gasoline station and car wash (1190 East Leland Road)
South	Multi-family residential development (500 Loveridge Circle)
West	DaVita Delta View Dialysis Center (1190 East Leland Road)
Surrounding Vicinity	Primarily commercial and residential land uses

None of the adjoining properties were identified on any regulatory databases indicative of a release, spill, or contamination condition as confirmed by a review of the State Water Resources Control Board, GeoTracker regulated facilities database. Adjoining properties of note are discussed in detail in Section 6.0 below. Based on information obtained during the Site inspection and historical records review, the adjoining properties do not appear to have any recognized environmental conditions that may impact the Property.

6.0 REGULATORY RECORDS REVIEW

EAS reviewed available databases from federal and state regulatory agencies to identify use, generation, storage, treatment and/or disposal of hazardous materials and chemicals or release incidents of such materials, which may have impacted the Property. The regulatory databases were provided to EAS from Environmental Data Resources Inc. (EDR). The Environmental FirstSearch™ Report (FirstSearch Report) is attached in the appendices of this report. The environmental and regulatory databases that were included in this review follow the ASTM standard E1527-13 guidelines.

Federal National Priorities Listing (NPL) Sites
Federal Delisted NPL Sites
Comprehensive Environmental Response Compensation And Liability Information System List (CERCLIS)
Federal CERCLIS: No Further Remedial Action Planned (NFRAP) Site List
Federal Resource Conservation And Recovery Act (RCRA) Generator's List
Federal RCRA Non-CORRACTS TSD Facilities List
Federal RCRA CORRACTS Facilities List
Federal RCRA Treatment, Storage And Disposal Facilities (TSDF's) List
Federal Institutional Control/Engineering Control (IC/EC) Registries
Federal Emergency Response Notification System (ERNS) List
State And Tribal Lists Of *Hazardous Waste Sites* Identified For Investigation Or Remediation:
State-And Tribal-Equivalent NPL
State-And Tribal-Equivalent CERCLIS
State-And Tribal-*Landfill* And/or *Solid* Waste Disposal Site Lists
State-And Tribal-Leaking Storage Tanks Lists

State And Tribal Registered Storage Tank Lists
State And Tribal *Institutional Control/Engineering Control* Registries
State And Tribal Voluntary Cleanup Sites
State And Tribal Brownfield Sites

The Property address was not identified in the FirstSearch Report.

The date of the most recent database update and a plotted map of the aforementioned listings, if any, depicting their location relative to the Property is included in the Appendices of this report.

Information obtained from the FirstSearch Report indicated that the Property has not been included on any institutional/engineering control databases that track activity and use limitations on properties.

Subject Property

No sites were found for the Property.

Of note, the FirstSearch report incorrectly identifies two facilities located at the Property: "Cameron @ Foot of Arcy Lane" and "Calpine Pittsburg, Inc. @ N. End of Loveridge Road". The facilities are actually located over 1.7-mile (Cameron) and 1.3-mile (Calpine) northeast and downgradient of the Property and are not considered a concern.

Adjoining Properties

None of the adjoining properties were identified on any regulatory databases indicative of a release, spill, or contamination condition.

Two former tenants of the adjoining properties located across East Leland Road and at least 175 to the north-northeast and downgradient of the Property are identified in HAZNET database. The HAZNET database only contains information about types and quantities of wastes that are generated and not information pertaining to release events. Based on the distance and downgradient location, these listings are not considered to have had a significant negative environmental impact on the Property no further investigation is recommended at this time.

The adjoining ARCO gasoline station located to the east and cross-gradient of the Property is identified in the UST, HAZNET, RCRA NonGen/NLR, RCRA-SQG, and FINDS databases.

Registered Underground Storage Tanks (UST)

The County EHD compiles a registered underground storage tank (UST) list that identifies facilities with onsite USTs. The adjoining ARCO gasoline station (identified as Green Desert Oil Group Inc.; ARCO AM PM; BP West Coast Products LLC 06526; and ARCO Facility No. 06526) is listed as an active underground storage tank facility within the FirstSearch regulatory report and the State Water Resources Control Board GeoTracker regulated facilities database (Facility ID: 07-000-773158). The ARCO USTs are located in the northeast portion of the adjoining property, approximately 220 feet east and cross-gradient of the Subject Property's eastern property line. The ARCO facility was not identified in any databases indicative of releases, spills, or contamination conditions and no violations were listed. Based on the above information, the adjoining property USTs are not considered to have had a significant negative environmental impact on the Property and no further investigation is recommended at this time.

The HAZNET database only contains information about types and quantities of wastes that are generated and not information pertaining to release events. The EPA's Resource Conservation and Recovery Act (RCRA) facilities database identifies properties which report generation, storage, transportation, treatment, or disposal of hazardous waste. RCRA small quantity generators (SQG) are facilities which generate less than 1,000 kg/month of non-acutely hazardous waste. The RCRA NonGen/NLR database identifies properties which report generation, storage, transportation, treatment, or disposal of hazardous waste. Non-Generators do not presently generate hazardous waste. The Facilities Index System (FINDS) contains both facility information and 'pointers' to other sources that contain more detail.

Of note, ARCO's self-serve drive-thru car wash and associated drains are located approximately 25 feet east of the Property and the in-ground car wash clarifiers are located approximately 50 feet east of the Property. No ARCO car wash wastewater was observed outside of the car wash structure.

No violations were identified. Based on the above information, including observations made during the Site visit, adjoining ARCO listings are not considered to have had a significant negative environmental impact on the Property and no further investigation is recommended at this time.

Surrounding Area Properties

Due to the Property's location in a densely developed area, numerous sites were identified within various databases in the regulatory agency report. No facilities listed in a database indicative of open case/pending spills, releases, or contamination conditions are located within 0.5-mile of the Property as confirmed by a review of the State Water Resources Control Board, GeoTracker regulated facilities database. Based on the distance, hydraulic gradient, and/or regulatory status, none of the sites identified in the FirstSearch Report are suspected of having had a negative impact on the Property.

Orphan Sites

Two (2) additional facilities were listed as unmapped sites in the FirstSearch report. These facilities cannot be plotted due to errors or missing information in the regulatory records. EAS reviewed the unmapped sites in the database report and determined the facilities are not considered to represent a concern to the Property.

7.0 INFORMATION AND INTERVIEWS

City of Pittsburg Community Development

EAS contacted the City of Pittsburg Community Development Department for information regarding potential environmental concerns and recognized environmental conditions for the Property. According to Office Clerk Ms. Cathleen Slaga, no open or closed permits were identified for the Property (see Community Development Department email in Appendices).

Contra Costa County Fire Protection District

EAS contacted the Contra Costa County Fire Protection District via telephone for information regarding potential environmental concerns and recognized environmental conditions for the Property. According to on-duty desk officer, no incident report records are on file for the Property.

Contra Costa County Health Services, Hazardous Materials Programs/Contra Costa County Certified Unified Program Agency (CUPA)

EAS contacted the Contra Costa County Health Services, Hazardous Materials Programs/Contra Costa County Certified Unified Program Agency (CUPA) for files related to possible recognized environmental conditions for the Property. According to a response from the Hazardous Materials Programs clerical supervisor, no hazardous materials records are on file for the Property (see County Health Services email in Appendices).

Contra Costa County Department of Conservation & Development, Records Research Division

EAS contacted the Contra Costa County Department of Conservation & Development, Records Research Division for files related to possible recognized environmental conditions for the Property. According to a response from Records Research Division personnel, no hazardous materials records are on file for the Property (see Department of Conservation & Development, Records Research Division email in Appendices).

Bay Area Air Quality Management District (AQMD), Facility Information Detail (FINDS) database

EAS reviewed the Bay Area Air Quality Management District (AQMD) online portal for permits/files related to possible recognized environmental conditions for the Property. No permits were identified for the Property or any adjoining properties.

Contra Costa County Assessor's Office

EAS contacted the Contra Costa County Assessor's Office, for files related to possible recognized environmental conditions for the Property. According to the Assessor's Office online portal, the Property's parcel number is 088-230-028 corresponding to 1160 East Leland Road in Pittsburg, CA. No records of environmental concern were identified for the Property.

California Environmental Protection Agency, State Water Resources Control Board, GeoTracker regulated facilities database

EAS reviewed the California Environmental Protection Agency, State Water Resources Control Board, GeoTracker regulated facilities database for files related to possible recognized environmental conditions for the Property. According to the State GeoTracker database, no records are on file for the Property.

State of California, Department of Toxic Substances Control EnviroStor database

EAS reviewed the Department of Toxic Substances Control EnviroStor database for files related to possible recognized environmental conditions for the Property. According to the EnviroStor database, no records are on file for the Property.

Site Contact Interview

As of the date of this report, EAS has not received completed User and Property Representative questionnaires. Copies of the questionnaires provided by EAS are attached in the Appendices.

Former Site Contact Interview

No former property representative contact information was provided to EAS during the course of preparation of this report.

Specialized Knowledge

There is no specialized knowledge about the Subject Property as provided by the User (MLC Holdings, Inc.) of this Environmental Site Assessment. Therefore, no specialized knowledge was supplied to the environmental professional.

8.0 HISTORICAL USE INFORMATION REVIEW

Vapor Intrusion Condition (VIC)

As the Property and the adjacent properties are not identified in any open case/pending Leaking UST, CERCLIS, or Institutional/Engineering Controls databases, and no evidence for the presence of leaking USTs or hazardous materials usage, storage, or disposal was observed within a 100-foot radius of the lease Site during the site visit, a potential vapor intrusion condition (VIC) does not appear to exist in connection with the Property.

Aerial Photographs

Aerial photographs were reviewed to identify historical land development and any uses, which may have impacted the Property. Photographs and maps provided by EDR were reviewed at approximately 5 to 10-year intervals dating back to 1939 (See Appendices). Historically, the Property appears to have been occupied by vacant land until at least 1939. From at least 1942 until at least 1959, the Property appeared occupied by residential troop buildings associated with the U.S. Army's Camp Stoneman. By 1963, the Camp Stoneman residential buildings were razed and the Property appeared as subsequent residential land uses until at least 1972. Due to the poor quality of the 1979 aerial photograph, it is not clear if portions of the Property were still occupied by any residential improvements, however by 1982 until at least May 2002, the Property appeared as part of a larger vacant lot. By October 2002, the Property appeared as part of a larger construction yard/staging area for the development of the east adjoining ARCO gasoline station and carwash. By July 2003, all construction equipment had been removed and the Property appeared as part of a larger vacant lot that included the west adjoining property until at least October 2009. By at least March 2010 to at least May 2010, the Property appeared as part of a construction yard/staging area for the development of the west adjoining DaVita Dialysis Center. By July 2010, all construction equipment had been removed and the and the Property appeared as a vacant lot. Of note, the present-day approximately 40' by 100' raised soil and gravel pile area appears as early as the July 2010 aerial photograph and is likely associated with the Property's former construction yard/staging area land use. The Property has appeared similar to present-day land uses since that time.

Topographic Maps

Topographic maps were reviewed to identify historical land development and any uses, which may have impacted the Property. Maps provided by EDR and the USGS were reviewed dating back to 1896 (See Appendices). The Property, adjoining properties and immediate surrounding vicinity were not depicted on the 1896, 1898, 1943, 1973, or 1994 topographic maps. The 1907, 1908, and 1918 maps depict the Property, adjoining properties and immediate surrounding vicinity as vacant land including an unimproved road to the east. The 1953 and 1968 maps depict the Property and all adjoining properties as improved lands within Camp Stoneman. An oil tank farm is depicted approximately one mile to the southeast. Based on the distance and hydraulic gradient, this area is not considered a concern. The 1978 map depicts the Property and all adjoining properties as vacant land; East Leland Road and Loveridge Road are located in their present-day configurations. The 2012 map depicts the Property and all adjoining properties as built-up land.

Sanborn Fire Maps

EAS contacted EDR to obtain Sanborn fire insurance maps for the Property and surrounding areas. According to the Certified Sanborn Map Report, the Property is identified as an Unmapped Property.

Oil and Gas Fields

Based on the California Geologic Energy Management Division (CalGEM), online mapping application Well Finder, no production wells are shown on, adjoining, or within one mile of the Property.

City Directories

EAS reviewed historical city directory information provided by EDR for information pertaining to possible environmental concerns for the Property and surrounding properties. The City Directory Abstract (See Appendices) dates back to 1975.

The Property was not identified in the City Directory Abstract. The adjoining ARCO AM PM gasoline station was first identified in 2010. The adjoining DaVita Dialysis Center was first identified in 2014. No additional adjoining properties were identified as environmentally significant.

Summary of Previous Environmental Site Assessments

EAS was not provided with any environmental reports including Phase I Environmental Site Assessments that were prepared previously by others.

Title Report

No Title Report was provided to EAS during the course of preparation of this report.

Historical Data Gaps

During the historical research process of the preparation of this report, there were no gaps exceeding five years in which EAS was unable to ascertain the probable onsite land use.

9.0 FINDINGS AND CONCLUSIONS

We have performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of ASTM Practice E1527-13 of 1160 East Leland Road in Pittsburg, Contra Costa County, California, the Property. Any exceptions to, or deletions from, this practice are described in Section 10.0 of this report. **This assessment has revealed no evidence of recognized environmental conditions in connection with the Property.**

However, the following business environmental risks (BERs) were identified which warrant mention:

Former Land Uses & Undocumented Soil

Historically, the Property has been occupied by vacant, various residential, then vacant land uses. By October 2002, the Property appeared as part of a larger construction yard/staging area for the development of the east adjoining ARCO gasoline station and carwash. By July 2003, all construction equipment had been removed and the Property appeared as part of a larger vacant lot that included the west adjoining property until at least October 2009. By at least March 2010 to at least May 2010, the Property appeared as part of a construction yard/staging area for the development of the west adjoining DaVita Dialysis Center. By July 2010, all construction equipment had been removed and the and the Property appeared as a vacant lot. Of note, the present-day approximately 40' by 100' raised soil and gravel pile area appears as early as the July 2010 aerial photograph and is likely associated with the Property's former construction yard/staging area land use. In addition, three approximately 3' by 3' low soil piles are located in the southern-central portion of the Property; one approximately 3' by 3' low soil pile is located in the northern-central portion of the Property; and one approximately 1' by 2' stained bare soil area is located in southwest portion of the Property.

As the Property is to undergo extensive grading/soil removal as part of a future redevelopment project into a carwash facility, EAS recommends that a program of subsurface sampling and testing be conducted in the areas of discussed above, as well as throughout the remainder of the Property, prior to any ground disturbance/construction activities. Once the analysis has been completed, the results would verify that contaminated soils above action levels are/are not present.

Asbestos-Containing Material/Lead-Based Paint (ACMs/LBP)

According to Client-provided information, initially the onsite carwash development project was to "require an offsite improvement to replace the water line from the median because it is eroded and has asbestos in it." However, in a subsequent message, "The City let the applicant know that they will not be required to remove the water line. They can choose to instead install new water lines/taps for the water required for the development. It has not been decided how the applicant will proceed. If they chose to leave the older water line stub-out with asbestos in it, it would just get capped off/abandoned."

Based on the above information, EAS recommends the presence of asbestos-containing materials (ACMs) be confirmed through a program of sampling and testing prior to any impacts or removal of the water line discussed above. Once the analysis has been completed, the results would verify that asbestos is / is not present.

It is up to the Client, based on their risk tolerance and applicable law, to determine the extent of further inquiry.

In addition, the following items warrant mention:

- Standard dust mitigation measures should be implemented during any future renovation, redevelopment, and/or soil handling activities. During any grading or excavation activities at the Property, redevelopment personnel must be made aware to look for unusual conditions suggesting buried debris or other potential adverse environmental conditions that may be discovered on the Property. In addition, **if any abnormal soils are discovered during future redevelopment, such as stained soils, hydrocarbon odors, or any other unusual odors, all construction activities should be stopped immediately and EAS should be contacted for further assessment and monitoring.**

Resources Consulted

- California Environmental Protection Agency;
- California State Water Resources Control Board;
- State of California, Department of Toxic Substances Control

10.0 LIMITATIONS

The purpose of this Phase I ESA was to identify recognized environmental conditions associated with the Property, if any. It is up to the Client, based on their risk tolerance and applicable law, to determine the extent of further inquiry. The professional opinions contained in this report are based solely on the laws, regulations, and technical data known to EAS at the time of report preparation. The conclusions of this assessment rely on reasonably obtainable information from site reconnaissance, interviews with onsite personnel and public officials, and public records. No warranty is made regarding the accuracy of the publicly documented information or the opinions of officials or personnel consulted for the study. All known information has been disclosed and a good-faith effort has been made to consult pertinent sources.

It should be noted that all environmental assessments are inherently limited in the sense that conclusions are drawn, and recommendations developed, from information obtained from limited research and site evaluation. Subsurface conditions were not investigated as part of this study and may differ from the conditions implied by visual observations. Additionally, the passage of time may result in a change in environmental characteristics at this site and on surrounding properties. This report does not warrant against future operations, activities, or conditions that may occur. This report is not a regulatory compliance audit. A regulatory compliance audit of the tenant operation would analyze compliance of the operation with regulatory requirements and accepted industry practices. The scope of the Phase I ESA focused on the likelihood or potential presence of recognized environmental conditions at the subject property, according to ASTM standards.

This study is not intended to assess or otherwise determine if any soil contamination, waste emplacement, or groundwater contamination exists on the subject property. This investigation has been based only upon prior site history, previous documentation, and observable conditions. Existing hazardous materials and contaminants can escape detection using these methods. If the results of this study suggest that it is possible that hazardous materials contamination exists at the subject property, then further investigation (regulatory file review, subsurface testing) may be necessary to make a definite assessment. Our conclusions regarding the potential environmental impact from offsite facilities near the subject property are based on readily available information from the environmental databases and the assumed groundwater flow direction. A detailed file review of each facility was beyond the scope of work.

We appreciate your selection of EAS for this project and look forward to assisting you further on this and other projects. If you have any questions, comments, or concerns regarding the information within this report, or if further assistance is required, please contact us by e-mail at jr1996@easenv.com and gjl1999@easenv.com.

Sincerely,

ENVIRONMENTAL ASSESSMENT SPECIALISTS, INC

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental professional as defined in Section 312.10 of 40 CFR 312 and I have the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject Property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

N

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 8/16/2021 at 6:20 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

U.S. Fish and Wildlife Service

National Wetlands Inventory

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Env. Assessment Specialists were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

ID/Status: 07520001
ID/Status: Inactive - Needs Evaluation

SOURCE: CA Department of Toxic Substances Control

Completed Date: 05/22/2003
Comments: DTSC completed site screening. Site contaminated with petroleum. Site referred to the RWQCB.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 09/23/1999
Comments: The site screening was approved by US EPA. No further action is required under CERCLA. Additional site characterization required; Site re-evaluated under DTSC lead.

Database Descriptions

NPL: NPL National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices. NPL - National Priority List Proposed NPL - Proposed National Priority List Sites.

NPL Delisted: Delisted NPL The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate. Delisted NPL - National Priority List Deletions

CERCLIS: SEMS SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL. SEMS - Superfund Enterprise Management System

NFRAP: SEMS-ARCHIVE SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site. SEMS-ARCHIVE - Superfund Enterprise Management System Archive

RCRA COR ACT: CORRACTS CORRACTS identifies hazardous waste handlers with RCRA corrective action activity. CORRACTS - Corrective Action Report

RCRA TSD: RCRA-TSDF RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste. RCRA-TSDF - RCRA - Treatment, Storage and Disposal

RCRA GEN: RCRA-LQG RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. RCRA-LQG - RCRA - Large Quantity Generators RCRA-SQG - RCRA - Small Quantity Generators. RCRA-VSQG - RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators).

Federal IC / EC: US ENG CONTROLS A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health. US ENG CONTROLS - Engineering Controls Sites List US INST CONTROLS - Institutional Controls Sites List.

Database Descriptions

ERNS: ERNS Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances. ERNS - Emergency Response Notification System

State/Tribal NPL: RESPONSE Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk. RESPONSE - State Response Sites

State/Tribal CERCLIS: ENVIROSTOR The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites. ENVIROSTOR - EnviroStor Database

State/Tribal SWL: SWF/LF (SWIS) Active, Closed and Inactive Landfills. SWF/LF records typically contain an inve ntory of solid waste disposal facilities or landfills. These may be active or i nactive facilities or open dumps that failed to meet RCRA Section 4004 criteria for solid waste landfills or disposal sites. SWF/LF (SWIS) - Solid Waste Information System

State/Tribal LTANKS: RIVERSIDE CO. LUST LUST REG 3 - Leaking Underground Storage Tank Database. LUST REG 7 - Leaking Underground Storage Tank Case Listing. ORANGE CO. INDIAN LUST R7 - Leaking Underground Storage Tanks on Indian Land. CPS-SLIC - Statewide SLIC Cases (GEOTRACKER). SLIC REG 1 - Active Toxic Site Investigations. SLIC REG 2 - Spills, Leaks, Investigation & Cleanup Cost Recovery Listing. SLIC REG 3 - Spills, Leaks, Investigation & Cleanup Cost Recovery Listing. SLIC REG 4 - Spills, Leaks, Investigation & Cleanup Cost Recovery Listing. SLIC REG 5 - Spills, Leaks, Investigation & Cleanup Cost Recovery Listing. SLIC REG 6V - Spills, Leaks, Investigation & Cleanup Cost Recovery Listing. SLIC REG 6L - SLIC Sites. SLIC REG 7 - SLIC List. SLIC REG 8 - Spills, Leaks, Investigation & Cleanup Cost Recovery Listing. Sacramento Co. CS - Toxic Site Clean-Up List. SLIC REG 9 - Spills, Leaks, Investigation & Cleanup Cost Recovery Listing.

State/Tribal Tanks: UST MILITARY UST SITES - Military UST Sites (GEOTRACKER). UST CLOSURE - Proposed Closure of Underground Storage Tank (UST) Cases. Military ust sites UST CLOSURE - Military UST Sites (GEOTRACKER) AST - Aboveground Petroleum Storage Tank Facilities. INDIAN UST R10 - Underground Storage Tanks on Indian Land. INDIAN UST R9 - Underground Storage Tanks on Indian Land. INDIAN UST R5 - Underground Storage Tanks on Indian Land. INDIAN UST R4 - Underground Storage Tanks on Indian Land. INDIAN UST R6 - Underground Storage Tanks on Indian Land. INDIAN UST R7 - Underground Storage Tanks on Indian Land. INDIAN UST R8 - Underground Storage Tanks on Indian Land. INDIAN UST R1 - Underground Storage Tanks on Indian Land.

Database Descriptions

State/Tribal VCP: VCP Contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have request that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs. VCP - Voluntary Cleanup Program Properties

US Brownfields: US BROWNFIELDS Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs. US BROWNFIELDS - A Listing of Brownfields Sites

Other SWF: WMUDS/SWAT CA LA LF - City of Los Angeles Landfills. VENTURA CO. LF - Inventory of Illegal Abandoned and Inactive Sites. SAN DIEGO CO. LF - Solid Waste Facilities. LOS ANGELES CO. LF - List of Solid Waste Facilities. Waste Management Unit Database System. WMUDS is used by the State Water Resources Control Board staff and the Regional Water Quality Control Boards for program tracking and inventory of waste management units. WMUDS is composed of the following databases: Facility Information, Scheduled Inspections Information, Waste Management Unit Information, SWAT Program Information, SWAT Report Summary Information, SWAT Report Summary Data, Chapter 15 (formerly Subchapter 15) Information, Chapter 15 Monitoring Parameters, TPCA Program Information, RCRA Program Information, Closure Information, and Interested Parties Information. LOS ANGELES CO. LF - Waste Management Unit Database

Other Haz Sites: SCH This category contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. In some cases, these properties may be listed in the CalSites category depending on the level of threat to public health and safety or the environment they pose. SCH - School Property Evaluation Program SAN DIEGO CO. HMMD - Hazardous Materials Management Division Database. CERS HAZ WASTE - CERS HAZ WASTE. US CDL - Clandestine Drug Labs. PFAS - PFAS Contamination Site Location Listing.

Other Tanks: SWEEPS UST Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list. SWEEPS UST - SWEEPS UST Listing ALAMEDA CO. UST - Underground Tanks. KERN CO. UST - Underground Storage Tank Sites & Tank Listing. MARIN CO. UST - Underground Storage Tank Sites. NAPA CO. UST - Closed and Operating Underground Storage Tank Sites. ORANGE CO. UST - List of Underground Storage Tank Facilities. RIVERSIDE CO. UST - Underground Storage Tank Tank List. SAN FRANCISCO CO. UST - Underground Storage Tank Information. SOLANO CO. UST - Underground Storage Tanks. SUTTER CO. UST - Underground Storage Tanks. VENTURA CO. UST - Underground Tank Closed Sites List. YOLO CO. UST - Underground Storage Tank Comprehensive Facility Report. LOS ANGELES UST - Active & Inactive UST Inventory. EL SEGUNDO UST - City of El Segundo Underground Storage Tank. LONG BEACH UST - City of Long Beach Underground Storage Tank. UST SAN JOAQUIN - San Joaquin Co. UST. TORRANCE UST - City of Torrance Underground Storage Tank. UST MENDOCINO - Mendocino County UST Database. LOS ANGELES AST - Active & Inactive AST Inventory. SAN FRANCISCO AST - Aboveground Storage Tank Site Listing. CA FID UST - Facility Inventory Database. CERS TANKS - California Environmental Reporting System (CERS) Tanks.

Local Land Records: DEED Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners. DEED - Deed Restriction Listing

Database Descriptions

Spills: HMIRS Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT. HMIRS - Hazardous Materials Information Reporting System CHMIRS - California Hazardous Material Incident Report System. Orange Co. Industrial Site - List of Industrial Site Cleanups. SPILLS 90 - SPILLS90 data from FirstSearch.

Other: RCRA NonGen / NLR RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste. RCRA NonGen / NLR - RCRA - Non Generators / No Longer Regulated FEDLAND - Federal and Indian Lands. TSCA - Toxic Substances Control Act. E1527-13 STANDARD PRACTICE FOR ENVIRONMENTAL SITE ASSESSMENTS:

PHASE I ENVIRONMENTAL SITE ASSESSMENT PROCESS

USER QUESTIONNAIRE

Bluewave Carwash Express – 1160 East Leland Road, Pittsburg, California 94565

INTRODUCTION: In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the user must provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete.

(1.) Environmental cleanup liens that are filed or recorded against the site.

Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law? Yes_____ No_____

(2.) Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry.

Are you aware of any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law? Yes_____ No_____

(3.) Specialized knowledge or experience of the person seeking to qualify for the LLP.

As the user of this ESA do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business? Yes_____ No_____

(4.) Relationship of the purchase price to the fair market value of the property if it were not contaminated.

Does the purchase price being paid for this property reasonably reflect the fair market value of the property?* Yes___ No___
*If you conclude the purchase price being paid for this property DOES NOT reasonably reflect the fair market value, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?

(5.) Commonly known or reasonably ascertainable information about the property.

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user,

(a.) Do you know the past uses of the property? Yes_____ No_____

(b.) Do you know of specific chemicals that are present or once were present at the property? Yes_____ No_____

(c.)Do you know of spills or other chemical releases that have taken place at the property? Yes_____ No_____

(d.) Do you know of any environmental cleanups that have taken place at the property? Yes_____ No_____

(6.) The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation.

As the user of this ESA, based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of contamination at the property? Yes_____ No_____

Landowner Liability Protections, or *LLPs*, is the term used to describe the three types of potential defenses to Superfund liability in EPA's Interim Guidance Regarding Criteria Landowners Must Meet in Order to Qualify for Bona Fide Prospective Purchaser, Contiguous Property Owner, or Innocent Landowner Limitations on CERCLA Liability ("Common Elements" Guide) issued on March 6, 2003.

Questionnaire Completed By: Name_____Date_____, 2021

PHASE I ENVIRONMENTAL SITE ASSESSMENT PROPERTY REPRESENTATIVE QUESTIONNAIRE

Bluewave Carwash Express
1160 East Leland Road
Pittsburg, California 94565

Question	Response			If yes, provide description
1a. Is the *property* used for an industrial use?	Yes	No	Unk	
1b. Is any *adjoining property* used for an industrial use?	Yes	No	Unk	
2a. Did you observe evidence or do you have any prior knowledge that the *property* has been used for an industrial use in the past?	Yes	No	Unk	
2b. Did you observe evidence or do you have any prior knowledge that any *adjoining property* has been used for an industrial use in the past?	Yes	No	Unk	
3a. Is the *property* used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?	Yes	No	Unk	
3b. Is any *adjoining property* used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?	Yes	No	Unk	
4a. Did you observe evidence or do you have any prior knowledge that the *property* has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?	Yes	No	Unk	
4b. Did you observe evidence or do you have any prior knowledge that any *adjoining property* has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?	Yes	No	Unk	

Question	Response			If yes, provide description
5a. Are there currently any damaged or discarded automotive or industrial batteries, pesticides, paints, or other chemicals in individual containers of >5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the *property* or at the facility?	Yes	No	Unk	
5b. Did you observe evidence or do you have any prior knowledge that there have been previously any damaged or discarded automotive or industrial batteries, pesticides, paints, or other chemicals in individual containers of >5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the *property* or at the facility?	Yes	No	Unk	
6a. Are there currently any industrial *drums* (typically 55 gal (208 L)) or sacks of chemicals located on the *property* or at the facility?	Yes	No	Unk	
6b. Did you observe evidence or do you have any prior knowledge that there have been previously any industrial *drums* (typically 55 gal (208 L)) or sacks of chemicals located on the *property* or at the facility?	Yes	No	Unk	
7a. Did you observe evidence or do you have any prior knowledge that *fill dirt* has been brought onto the *property* that originated from a contaminated site?	Yes	No	Unk	
7b. Did you observe evidence or do you have any prior knowledge that *fill dirt* has been brought onto the *property* that is of an unknown origin?	Yes	No	Unk	
8a. Are there currently any *pits, ponds*, or *lagoons* located on the *property* in connection with waste treatment or waste disposal?	Yes	No	Unk	
8b. Did you observe evidence or do you have any prior knowledge that there have been previously, any *pits, ponds*, or *lagoons* located on the *property* in connection with waste treatment or waste disposal?	Yes	No	Unk	
9a. Is there currently any stained soil on the *property*?	Yes	No	Unk	

Question	Response			If yes, provide description
9b. Did you observe evidence or do you have any prior knowledge that there has been previously, any stained soil on the *property*?	Yes	No	Unk	
10a. Are there currently any registered or unregistered storage tanks (above or underground) located on the *property*?	Yes	No	Unk	
10b. Did you observe evidence or do you have any prior knowledge that there have been previously, any registered or unregistered storage tanks (above or underground) located on the *property*?	Yes	No	Unk	
11a. Are there currently any vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground on the *property* or adjacent to any structure located on the *property*?	Yes	No	Unk	
11b. Did you observe evidence or do you have any prior knowledge that there have been previously, any vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground on the *property* or adjacent to any structure located on the *property*?	Yes	No	Unk	
12a. Is there currently evidence of leaks, spills or staining by substances other than water, or foul odors, associated with any flooring, drains, walls, ceilings, or exposed grounds on the *property*?	Yes	No	Unk	
12b. Did you observe evidence or do you have any prior knowledge that there have been previously any leaks, spills or staining by substances other than water, or foul odors, associated with any flooring, drains, walls, ceilings, or exposed grounds on the *property*?	Yes	No	Unk	
13a. If the *property* is served by a private well or non-public water system, is there evidence or do you have prior knowledge that contaminants have been identified in the well or system that exceed guidelines applicable to the water system?	Yes	No	Unk	
13b. If the property is served by a private well or non-pubic water system, is there evidence or do you have prior knowledge that the well has been designated as contaminated by any government environmental/health agency?	Yes	No	Unk	

Question	Response			If yes, provide description
14. Does the *owner* or *occupant* of the *property* have any knowledge of *environmental liens* or governmental notification relating to past or recurrent violations of environmental laws with respect to the *property* or any facility located on the *property*?	Yes	No	Unk	
15a. Has the *owner* or *occupant* of the *property* been informed of the past existence of hazardous substances of *petroleum products* with respect to the *property* or any facility located on the *property*?	Yes	No	Unk	
15b. Has the *owner* or *occupant* of the *property* been informed of the current existence of hazardous substances of *petroleum products* with respect to the *property* or any facility located on the *property*?	Yes	No	Unk	
15c. Has the *owner* or *occupant* of the *property* been informed of the past existence of environmental violations with respect to the *property* or any facility located on the *property*?	Yes	No	Unk	
15d. Has the *owner* or *occupant* of the *property* been informed of the current existence of environmental violations with respect to the *property* or any facility located on the *property*?	Yes	No	Unk	
16. Does the *owner* or *occupant* of the property have any knowledge of any *environmental site assessment* of the property or facility that indicated the presence of *hazardous substances* or *petroleum products* on, or contaminations of, the property or recommended further assessment of the *property*?	Yes	No	Unk	
17. Does the *owner* or *occupant* of the *property* know of any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened release of any *hazardous substance* or *petroleum products* involving the *property* by any *owner* or *occupant* of the *property*?	Yes	No	Unk	
18a. Does the *property* discharge *waste-water* (not including sanitary waste or storm water) onto or adjacent to the *property* and/or into a storm water system?	Yes	No	Unk	

Question	Response	If yes, provide description
18b. Does the *property* discharge waste water (not including sanitary waste or storm water) onto or adjacent to the *property* and/or into a sanitary sewer system?	Yes No Unk	
19. Did you observe evidence or do you have any prior knowledge that any hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries, or any other waste materials have been dumped above grade, buried and/or burned on the *property*?	Yes No Unk	
20. Is there a transformer, capacitor, or any hydraulic equipment for which there are any records indicating the presence of PCBs?	Yes No Unk

Subject: RE: records request for 1160 East Leland Road, Pittsburg, CA 94565

Good Afternoon,

After exhausting all forms of records research (digital, microfiche and physical), no plans have been located for the address of '1160 East Leland Road.' The address is located within the **City of Pittsburg's** jurisdiction, not in unincorporated Contra Costa County. The City of Pittsburg issues their own permits; therefore, this office has no information about the property.

Please contact the City of Pittsburg's Building Division. The Building Division is responsible for managing general public information, plan submittal, plan review, permit issuance, inspection and document retention. I have included the Building Division's web address and physical site to visit as follows:

Web address: Building | City of Pittsburg (pittsburgca.gov)

City of Pittsburg Building Division
Phone: (925) 252-4910
Fax: (925) 252-4814
Email: permit@ci.pittsburg.ca.us

Please keep in mind that no jurisdiction is required to keep any information on file for longer than 180 days from the date of the final inspection as explained in the California Residential Code R106.5 Retention of Construction documents.

I hope you find this information useful.

Regards,

Monika Ashman

BAY AREA AIR QUALITY MANAGEMENT DISTRICT (/)

A HEALTHY BREATHING ENVIRONMENT FOR EVERY BAY AREA RESIDENT

Interactive Data Maps

View interactive maps showing weather and air quality monitoring data from sites throughout the Bay Area.

The Air District provides information about local air quality, air monitoring, and permitted facilities in a series of interactive maps. You can toggle the map nterface below to select the following map views:

Air Quality Forecast Map (Default Map View)
Air Quality Monitoring Map
Facilities Map
mpacted Communities Map
Open Burning Map

Map View Descriptions

Air Quality Forecast Map

The Air District issues a daily air quality forecast that predicts air pollution levels for the coming five-day period. This forecast uses the U.S. EPA's Air Quality Index scale. For forecasting purposes, cities in the Bay Area have been divided into five reporting zones.

Air Quality Monitoring Map

Air quality data from the Air District Air Monitoring Network sites shown in the map are available to view online. Pollutants measured include ozone, oxides of nitrogen, carbon monoxide, sulfur dioxide, hydrogen sulfide, particulate matter, hydrocarbons, elemental and organic carbon, and various hazardous air pollutants. Click on a station of interest to view more information about the monitoring site.

Ground-level monitors are air quality monitoring stations placed near certain large industrial facilities, such as oil refineries, as required by the facility's permit. The facility operates the monitoring equipment, but the Air District validates and audits the data collected by the station.

Meteorological data from the monitoring sites is also available for viewing.

Facilities Map

Learn about facilities that are regulated by the Air District. Zoom in to see individual facilities and learn about their locations and emissions.

Impacted Communities Map

The Community Air Risk Evaluation (CARE) program identifies areas with high concentrations of air pollution and populations most vulnerable to air pollution's health impacts. The maps, along with information about pollutants and their sources that lead to the impacts, help prioritize a broad array of actions designed to foster healthy communities.

Open Burning Map

Open burning is generally prohibited in the Bay Area, with the exception of 17 types of fires that are regulated under the Air District's Open Burning Regulation 5. Certain fires for agricultural purposes, flood control, fire training, and the prevention of fire hazards, among other purposes, are allowed when weather conditions are favorable for dispersal and dilution of smoke. Many of these fires are only allowed during specified periods - or burn seasons - throughout the year.

Subject: RE: UPDATE - REQUEST SITE INFO TO PROCEED - SIGNED - EAS POR25695 for UPDATE - Phase 1 ESA for proposed Blue Wave Carwash project

Hi Jeff,

I've requested a report from the City and will let you know if they get back to me.

I also wanted to let you know that we have some new information about the fate of the water line. The City let the applicant know that they will not be required to remove the water line. They can choose to instead install new water lines/taps for the water required for the development. It has not been decided how the applicant will proceed. If they chose to leave the older water line stubout with asbestos in it, it would just get capped off/abandoned.

Thanks!

Thanks Maddie,

Can we get a copy of the report stating asbestos? Otherwise, we'll just reference your last email.

Have a nice nice evening!!

-Jeff

Hi Jeff,

Just wanted to let you know that the project will require an offsite improvement to replace the water line from the median because it is eroded and has asbestos in it, in case this will be relevant for your report.

Thank you!

Best,
