## STATE CLEARINGHOUSE

In regards to Environmental Review SCH# 2022080300.

### Comments:

- We reviewed the documents from a radio interference point of view to assess if this new construction will interfere with current CHP radio operations.
- No transmit frequencies or radio tenants were identified due to the nature of the documents (environmental documents only).
- This new tower site is approximately 6 miles from remote site Bloomer Hill which houses low-band
- There is a chance that this new tower associated with SCH# 2022080300 could cause interference, but that cannot be determined until the site is built.

*Thank you,*

**Ken S. Harris**

Ken,

This project was just sent to TS, for handling.

Note the quick turnaround.

Thank you,

Danielle Valdez, AGPA

**Subject:** Environmental Document Review – SCH # 2022080300 – Due to Lead Agency by 09/15/2022

Good morning,

I apologize for the quick turnaround. Special Projects Section (SPS) recently received the referenced

Notice of Environmental Impact document from the State Clearinghouse (SCH) outlined in the following Web site:

[MUP21-0004 Comsites West, LLC \(ca.gov\)](#)

Due to the project's geographical proximity, please use the attached checklist to assess its potential impact to local operations and public safety. This project will be reviewed by the Telecommunications Section and Oroville Area office. Divisions are CC'd for info only. **If impact is determined**, responses should be e-mailed directly to the Lead Agency with cc to SCH and myself. **If there is no impact**, please do not include SCH or the Lead Agency in your response.

For more information on the EIR review process, please check out:  [Commanders EIR Training.pdf](#).

Please feel free to e-mail me if you have any questions.

Thank you,

**Kristen Lange**, Staff Services Analyst
