

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Groundwater Sustainability Improvements Program

Lead Agency: Pleasant Valley County Water District (PVCWD)

Contact Name: Jared Bouchard, General Manager

Email: jared@pvcwater.com Phone Number: (805) 482-2119

Project Location: unincorporated Ventura County
City *County*

Project Description (Proposed actions, location, and/or consequences).

The proposed project includes construction of approximately 9,000 linear feet of new 18-inch recycled water pipeline that would interconnect two existing transmission laterals located along Wood Road and Las Posas Road. The purpose of the project is to facilitate increased transfer of existing water supplies available to both the PVCWD service area and adjacent United Water Conservation District's Pumping Trough Pipeline system, specifically water supplied by the City of Oxnard's Advanced Water Purification Facility and the Conejo Creek Diversion Structure. The project would not enable the use of new water supply sources in the PVCWD service area.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project would result in potentially significant effects to biological resources, cultural resources, paleontological resources, hazards and hazardous materials, hydrology/water quality, transportation, and wildfire. However, implementation of the following mitigation measures was determined in the IS-MND to reduce these project effects to less-than-significant levels:

- BIO-1 (Nesting Bird Pre-Construction Survey and Avoidance Buffers)
- BIO-2 (Avoidance Buffers and Best Management Practices for Aquatic Resources)
- CR-1 (Worker's Environmental Awareness Program)
- CR-2 (Unanticipated Discovery of Cultural Resources)
- GEO-1 (Unanticipated Discovery of Paleontological Resources)
- HAZ-1 (Hazardous Materials Management and Spill Control Plan)
- HAZ-2 (Traffic Control Plan)

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None.

Provide a list of the responsible or trustee agencies for the project.

- California Department of Water Resources Division of Drinking Water
- County of Ventura
- Fox Canyon Groundwater Management Agency
