## Exemption Worksheet for Public Agency Projects Water Supply Permits State Water Resource Control Board Division of Drinking Water (DDW)

	Wate	r Syst	em Number:	CA3410001	Lead Agency (LA):	Sacramento Suburban WD					
Wat		r Syst	em Name:	Sacramento Suburban Water District	Date LA NOE Filed:	11/16/2022					
	Coun	ity:		Sacramento	State Clearinghouse #:						
	DDW Reviewing Engineer: Salvador Turrubiartes, P.E. Date: November 18, 2022										
Ρ	Project Title: Whitney/Concetta Well 60 (CA3410001_042_042)  Project Location (Address, City/description): Between 4528 & 4534 Whitney Ave. (APN 256-0231-023)  Project Description Reference: NOE dated 11/16/2022										
cł	<b>CEQA Exemptions:</b> Determine whether any exemptions apply. Reference the full text of the exemptions in articles 18 and 19 of chapter 3 of division 6 of title 14 of the California Code of Regulations. Also reference section 60101 of title 22 for DDW specifics. (See following pages for excerpts of regulatory text.)										
	☑ Class 1 Existing Facilities (art. 19, § 15301)			ities (art. 19, § 15301)	Operation, repair, mainte structure with no or negl	enance or minor alteration of an existing igible expansion of use.					
	□c	☐ Class 2 Replacement or Reconstruction (art. 19, § 15302)			Replacement or reconstructure is located substantially the same p	ruction of an existing structure where the on the same site and will have urpose and capacity.					
		☐ Class 3 New Construction or Conversion of Small Structures (art. 19, § 15303)			equipment n a small stru structure from one use to	new structure or installation of small new ucture, or conversion of an existing small o another with only minor modifications.					
		☐ Class 4 Minor Alteration to Land (art. 19, § 15304)		with no negative impact							
		☐ Class 6 Information Collection (art. 19, § 15306)		disturbance to the enviro							
		☐ Class 11 Accessory Structures (art. 19, § 15311)			ent of minor structures accessory to , like signs or seasonal structures.						
	☐ Emergency Projects (art. 18, § 15269)			art. 18, § 15269)	See the regulatory text a	at section 15269.					
	☐ Installation or maintenance of a pipeline less than 1 mile in public right-of-way (Pub. Resources Code, § 21080.21)		Installation, repair, or rei in a public right-of-way	moval of a pipeline less than one mile long							
•		Other			Citation to regulatory or	statutory exemption and description:					
Exceptions to the categorical exemptions (for Article 19 exemptions only): Please mark box indicating whether statement applies. If you mark "yes" then the NOE may not apply, send to Special Project Review Unit.  Yes No											
		$\boxtimes$	(for classes 3, 4, 6, and 11 only) Location – Is the project located in a particularly sensitive environment? For instance, is the project in or near a wetland, river, stream, or vernal pool habitat? Look at project maps, photos, and Google satellite to view the project area. <b>Send to Special Project Review Unit for assistance if needed.</b>								
		Cumulative Impact – Will there or have there been successive projects of the same type in the same place so that the environmental impact over time is significant?									
	]	$\boxtimes$	Unusual Circumstances – Is there a reasonable possibility that the project will have a significant effect on the environment due to unusual circumstances? <b>Unusual circumstances identified by DDW (2/7/2002 memo) are</b> : Critically depleted								
	]		Scenic Highway		e to the environment within a e:	highway officially designated as a state  aaf7000dfcc19983					

$\boxtimes$	Hazardous Waste Site – Is the project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code? <a href="https://calepa.ca.gov/SiteCleanup/CorteseList/">https://calepa.ca.gov/SiteCleanup/CorteseList/</a>
$\boxtimes$	Historical Resources – Could the project cause a substantial adverse change in the significance of a historical resource? National Register Map <a href="https://www.nps.gov/maps/full.html?mapId=7ad17cc9-b808-4ff8-a2f9-a99909164466">https://www.nps.gov/maps/full.html?mapId=7ad17cc9-b808-4ff8-a2f9-a99909164466</a> California Register list by county <a href="https://ohp.parks.ca.gov/listedresources/">https://ohp.parks.ca.gov/listedresources/</a>
Ca	ategorical Exemptions (subject to the exceptions)

## **Categorical Exemptions** (subject to the exceptions)

Class 1. Existing Facilities CCR 15301 Class 1 consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. The types of "existing facilities" itemized below are not intended to be all-inclusive of the types of projects which might fall within Class 1. The key consideration is whether the project involves negligible or no expansion of use. Examples include but are not limited to:

- (1) Interior or exterior alterations involving such things as interior partitions, plumbing, and electrical conveyances;
- (2) Existing facilities of both investor and publicly owned utilities used to provide electric power, natural gas, sewerage, or other public utility services;

(See CEQA guidelines for more examples)

Specific Activities Within Categorical Exemption Class 1. CCR, Title 22, Section 60101 (1) Any interior or exterior alteration of water treatment units, water supply systems, and pump station buildings where the alteration involves the addition, deletion, or modification of mechanical, electrical, or hydraulic controls.

(2) Maintenance, repair, replacement, or reconstruction to any water treatment process units, including structures, filters, pumps, and chlorinators.

## Specific Activities based on February 7, 2002 Memorandum

- Construction, operation or permitting of new water wells for existing water systems which do not exceed 125 gallons per minute provided that the well is **not** located in areas with any of the following:
  - Critically depleted groundwater basins
  - Groundwater basins subject to seawater intrusion
  - Groundwater under the direct influence of streams or lakes
  - Polluted or contaminated aquifers, and
  - Adjudicated groundwater basins

Class 2. Replacement or Reconstruction CCR 15302. Class 2 consists of replacement or
reconstruction of existing structures and facilities where the new structure will be located on the same
site as the structure replaced and will have substantially the same purpose and capacity as the
structure replaced, including but not limited to:
(c)Replacement or reconstruction of existing utility systems and/or facilities involving negligible or no

(c)Replacement or reconstruction of existing utility systems and/or facilities involving negligible or no expansion of capacity.

Specific Activities Within Categorical Exemption Class 2. CCR, Title 22, Section 60101

- (1) Repair or replacement of any water service connections, meters, and valves for backflow prevention, air release, pressure regulating, shut-off and blow-off or flushing.
- (2) Replacement or reconstruction of any existing water supply distribution lines, storage tanks and reservoirs of substantially the same size.
- (3) Replacement or reconstruction of any water wells, pump stations and related appurtenances.

Class 3: New Construction or Conversion of Small Structures consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure. The numbers of structures described in this section are the maximum allowable on any legal parcel.

**Specific Activities Within Categorical Exemption Class 3.** CCR, Title 22, Section 60101 (1) Construction of any water supply and distribution lines of less than sixteen inches in diameter, and related appurtenances.

- (2) Construction of any water storage tanks and reservoirs of less than 100,000 gallon capacity.
  - (1) Construction of water supply and distribution lines of less than sixteen inches in diameter and no greater than one mile in length, and related appurtenances
  - (2) Construction of any water storage tanks and reservoirs of no greater than 100,000-gallon capacity.
  - (4) Construction of perimeter fencing around treatment plants and other buildings to deter unauthorized access if disturbed area does not exceed one acre.
  - (5) Installation, operation or permitting of hypochlorination units to inactivate bacterial contamination

Class 4: Minor Alterations to Land consists of minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry or agricultural purposes.

(a)Grading on land with a slope of less than 10 percent, except that grading shall not be exempt in a waterway, in any wetland, in an officially designated (by federal, state, or local government action) scenic area, or in officially mapped areas of severe geologic hazard such as an Alquist- Priolo Earthquake Fault Zone or within an official Seismic Hazard Zone, as delineated by the State Geologist. (c)Filling of earth into previously excavated land with material compatible with the natural features of the site:

(f) Minor trenching and backfilling where the surface is restored;

Specific Activities Within Categorical Exemption Class 4. CCR, Title 22, Section 60101

- (1) Minor alterations to land, water or vegetation on any officially existing designated wildlife management areas or fish production facilities for the purpose of reducing the environmental potential for nuisances or vector production.
- (2) Any minor alterations to highway crossing for water supply and distribution lines.

Class 6: Information Collection Basic data collection, research, experimental management and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource. These may be strictly for information gathering purposes, or as part of a study leading to an action which DDW has not yet approved, adopted or funded.

Class 11: Accessory Structures consists of construction, or placement of minor structures accessory to (appurtenant to) existing commercial, industrial, or institutional facilities, including but not limited to:

(a) On-premise signs;

(c) Pla restroc	all parking lots; cement of seasonal or temporary use items such as lifeguard towers, mobile food units, portable oms, or similar items in generally the same locations from time to time in publicly owned parks, or other facilities designed for public use.
(a) The policies (b) The substa (c) The (d) App or water	Class 32: Infill Development Projects Class 32 consists of projects characterized as in-fill pment meeting the conditions described in this section.  The project is consistent with the applicable general plan designation and all applicable general plans as well as with applicable zoning designation and regulations.  The proposed development occurs within city limits on a project site of no more than five acres initially surrounded by urban uses.  The project site has no value as habitat for endangered, rare or threatened species.  The project would not result in any significant effects relating to traffic, noise, air quality, are quality.  The project would not result in any significant effects relating to traffic, noise, air quality, are quality.
Statu	tory Exemptions (not subject to the exceptions)
	Section 15269 (a) statutory exemption for declared emergencies Projects to maintain, repair, restore, demolish, or replace property or facilities damaged or destroyed as a result of a disaster in a disaster stricken area in which a state of emergency has been proclaimed by the Governor pursuant to the California Emergency Services Act, commencing with Section 8550 of the Government Code. This includes projects that will remove, destroy, or significantly alter an historical resource when that resource represents an imminent threat to the public of bodily harm or of damage to adjacent property or when the project has received a determination by the State Office of Historic Preservation pursuant to Section 5028(b) of Public Resources Code.
	Section 15269 (b) statutory exemption for emergency repairs  Emergency repairs to publicly or privately owned service facilities necessary to maintain service essential to the public health, safety or welfare. Emergency repairs include those that require a reasonable amount of planning to address an anticipated emergency.
	Section 15269 (c) statutory exemption for emergency prevention/mitigation  Specific actions necessary to prevent or mitigate an emergency. This does not include longterm projects undertaken for the purpose of preventing or mitigating a situation that has a low probability of occurrence in the short-term, but this exclusion does not apply (i) if the anticipated period of time to conduct an environmental review of such a long-term project would create a risk to public health, safety or welfare, or (ii) if activities (such as fire or catastrophic risk mitigation or modifications to improve facility integrity) are proposed for existing facilities in response to an emergency at a similar existing facility.
	Section 15282 (k) statutory exemption for right of way pipelines of < 1 mile The installation of new pipeline or maintenance, repair, restoration, removal, or demolition of an existing pipeline as set forth in Section 21080.21 of the Public Resources Code, as long as the project does not exceed one mile in length.
	Section 15282 (m) statutory exemption for water fluoridation Minor alterations to utilities made for the purposes of complying with Sections 116410 and 116415 of the Health and Safety Code as set forth in Section 21080.26 of the Public Resources Code.
