A Site Approval application for the filling-in and grading of a reclaimed and closed rock quarry in two phases over five years for future agriculture use. Total fill quantity at the conclusion of the project will be approximately 5,538,000 cubic yards of fill dirt. Estimated daily truck trips for the project is 50 to 100 depending on availability of fill material. Fill material will consist of clean, imported material meeting the requirements of the State of California Department of Toxic Substances Control and complying with the California Environmental Screening Levels for excavated materials.
