NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION

Project Description: The Project generally consists of construction and operation of two 0.6 million-gall (MG) potable water storage reservoirs to serve the 16 Pressure Zone, one 0.3 M recycled water storage reservoir, one potable water booster pumping station configure and equipped to pump to the 17 Pressure Zone, one recycled water booster static configured and equipped to pump to the 17 Pressure Zone, a concrete drainage sw and a retention basin to convey and retain stormwater runoff on the site, approximate 480 linear feet of 16-inch diameter potable water pipeline, and approximately 450 line feet of 12-inch diameter recycled water pipeline. The Project also includes demoliting and removal of the existing potable water R-16.2 Reservoir. Project Location – Identify street address and cross streets or attach a map showing project site (preferably a USGS 15' or 7 1/2' The Project generally consists of construction and operation of two 0.6 million-gall (MG) potable water storage reservoirs to serve the 16 Pressure Zone, one 0.3 M recycled water booster pumping station configured and equipped to pump to the 17 Pressure Zone, one recycled water booster pumping station configured and equipped to pump to the 17 Pressure Zone, one recycled water booster static configured and equipped to pump to the 17 Pressure Zone, one recycled water booster pumping station configured and equipped to pump to the 17 Pressure Zone, one recycled water booster pumping station configured and equipped to pump to the 17 Pressure Zone, one recycled water booster pumping station configured and equipped to pump to the 17 Pressure Zone, one recycled water booster static configured and equipped to pump to the 17 Pressure Zone, one recycled water booster static configured and equipped to pump to the 17 Pressure Zone, one recycled water booster static configured and equipped to pump to the 17 Pressure Zone, one recycled water booster static configured and equipped to pump to the 17 Pressure Zone, one recycled water booster static configured a	Public Agency:	Yucaipa Valley Water District
MG potable water storage reservoirs to serve the 16 Pressure Zone, one 0.3 M recycled water storage reservoir, one potable water booster pumping station configurated and equipped to pump to the 17 Pressure Zone, one recycled water booster state configured and equipped to pump to the 17 Pressure Zone, a concrete drainage swant and a retention basin to convey and retain stormwater runoff one site, approximated 480 linear feet of 16-inch diameter potable water pipeline. The Project also includes demolitic and removal of the existing potable water R-16.2 Reservoir at 36400 C Glen Road, Yucaipa, CA 92399, as well as within an existing easement along Jan Brich Road, within a proposed easement within APN 0321-241-05, and within existing right-of-way of Oak Glen Road. The Project site is generally located norther of Oak Glen Road, along James Birch Road, and at a site located at the west terminus of James Birch Road, in the City of Yucaipa, San Bernardino Coun California. The Initial Study was completed in accordance with the State's Guidelines for Implementing the California Environment, and has therefore prepared a Draft Mitigated Negative Declaration. The Project site IS on a list compiled pursuant to Government Code section 65962.5. The Project site IS NOT on a list compiled pursuant to Government Code section 65962.5. 	Comments will be received from	February 8, 2023 to March 9, 2023.

The Lead Agency will consider the project and the Draft Mitigated Negative Declaration at its meeting on:

Date: March 21, 2023

Time: 4:00 PM

If the Lead Agency finds that the project will not have a significant effect on the environment, it may adopt the Mitigated Negative Declaration. This means that the Lead Agency may proceed to consider the project without the preparation of an Environmental Impact Report.
