Project Title: Trinity County Wildfire Mitigation / Hazardous Fuels Reduction Project

Project Applicant: Trinity County Resource Conservation District

Project Location (include county): Weaverville, Covington Mill, and Trinity Center, Trinity County, CA

Project Description:

The goal of this project is to manage hazardous vegetation in the Weaverville, Covington Mill, and Trinity Center areas. The proposed action includes removal of ground and ladder fuels along specified corridors, thinning to reduce crown closure, and removing dead and dying trees. Primarily small trees and brush will be targeted for removal, with living trees generally spaced to a distance of greater than 30 feet. Both mechanized and mechanical techniques will be used for fuel removal.

This is to advise that the Trinity County Resource Conservation District has approved the above (Lead Agency or Responsible Agency)

described project on 5/17/2023 and has made the following determinations regarding the above described project.

- 1. The project will not have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

30 Horseshoe Lane, Weaverville, CA, 96093
