

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Pilot Project Transfer of Water by Oakdale Irrigation District and South San Joaquin Irrigation District to Banta-Carbona Irrigation District

Lead Agency: Oakdale Irrigation District/ South San Joaquin Irrigation District

Contact Name: Scot Moody, Oakdale Irrigation District General Manager

Email: smoody@oakdaleirrigation.com Phone Number: (209) 840-5508

Project Location: San Joaquin County, within or near to the Banta-Carbona Irrigation District

*City*

*County*

Project Description (Proposed actions, location, and/or consequences).

The Project proposes to transfer up to 10,000 acre-feet of surplus surface water during the 2023 irrigation season from the Oakdale Irrigation District (OID) and South San Joaquin Irrigation District (SSJID) to the Banta-Carbona Irrigation District (BCID). The term of the agreement may start as soon as July and end by November 1, 2023. The transferred water would be used for agricultural irrigation, either within the BCID service area or delivered by BCID through the Delta-Mendota Canal to other nearby irrigation districts. Existing diversion and conveyance facilities are in place and no new construction is required as a result of the Project. The Project will provide a surface water source to BCID and other irrigation districts in lieu of groundwater, and will not increase the total water use. OID and SSJID have assessed the potential environmental impacts of this proposed action and have determined that they will be less than significant.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

No significant or potentially significant effects due to the Project were identified. Therefore no mitigation measures were included and a Negative Declaration is proposed.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Provide a list of the responsible or trustee agencies for the project.
